

50,000,000 Tobacco Bill Saved.

CHICAGO, September 8.—[Special.]—The Inter-Ocean's Illustrated Supplement, describing the great success and merit of No-To-Bac, has been a success in a day. Dr. H. L. Kramer, the active man, was today at his office, 45 Randolph street, in talking of No-To-Bac's growth, and the hard work to keep up with the rapidly increasing demand, as every box sold increased No-To-Bac's merit. He said: "No-To-Bac is not sold on the strength of the thousands and tens of thousands of testimonial statements, but under absolute guarantee to cure or money refunded. That made a long story about it very short, as it absolutely protects the user from physical injury or financial loss. "Why," said he, "No-To-Bac will average \$50.00 for every one cured, a grand total of \$5,000,000 saved from going up in smoke and out in spit." No-To-Bac is indeed a God-send to the poor in these hard times. According to the testimonials, however, the money saving is of least consideration, for almost every report an improvement of the nervous system, increase in weight, and a revival of physical and mental powers that is indeed irrefragable. Prominent physicians look upon No-To-Bac as a great success, and are very free to write it. Every wholesale drug house in this country and Canada sells No-To-Bac, and the retail druggists are pushed to supply the demand of customers; the direct mail demand immense. The cost of No-To-Bac compared with the cost of a small matter, as the saving in a box pays the cost of a cure for a lifetime. No-To-Bac is sold for \$1 a box, or three boxes for \$2.50, with a guarantee to cure, or money refunded. A few extra copies of the Inter-Ocean Supplement (eight pages) illustrated in five colors, have been secured and will be mailed free by the asking, by addressing the Sterling Remedy Co., Chicago office, 45 Randolph street; New York office, 10 Spruce street; laboratory, Indiana Mineral Springs, Ind.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Dr. Williams' Pink Pills for Pale People. We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honest in all business transactions, and financially able to carry out any obligation made by him.

Wm. & T. Frick, Wholesale Druggists, Toledo, W. Va. W. & T. Frick, Wholesale Druggists, Toledo, Ohio. Dr. J. C. Carter, Wholesale Druggist, acting directly upon the blood, and mucous surfaces of the system. Price, 75c. per bottle. Sold by all Druggists. Testimonials free.

Dr. Williams' Suffering Syrup for children, softens the gums, reduces inflammation, always pain, cures wind colic. 25c. a bottle.

Dr. Kilmer's Swamp-Root cures all Kidney and Bladder troubles. Family and Dispensary. Laboratory Binghamton, N.Y.

Qualified to Speak. "Now, then, who is the plaintiff in this case?" asked his Honor as a case was called. No reply. "I ask who is the plaintiff in this case?" continued the court.

"I don't know anything about plaintiffs," replied a man in the corner, as he slowly rose. "but if you are asking for the chap who was chased a mile and a half, and then mugged all over his own backyard by two desperadoes, I'm your man."

Sign of True Smartness. Millicent—Jack can't be very smart, or he would have more money. May (Jack's fiancée)—That just shows Jack's smartness—that he can get along with as little as he has.

Here's good news for any one of our readers who are pestered by the hair-timer. The Woolson Spice Co., of Toledo, O., are giving away many fine pictures to drinkers of Lion Cuff in exchange for large Lion Heads cut from Lion Cuff wrappers. Besides pictures they also mail valuable books, a knife, game, etc. It surely pays to drink Lion Cuff. Each bottle is mailed with a picture, and a pack of cards. If you haven't an illustrated Premium List, ask your grocer for a copy, or send four name & address to the firm above named.

Headache, Dyspepsia, Indigestion are caused by bad blood, and by a run down, worn out condition of the body. Remember Hood's Sarsaparilla. Be sure to get Hood's Cures. Hood's Pills are gentle, mild and effective.

WE WILL MAIL POSTPAID a fine Picture, entitled "MEDITATION" in exchange for 15 Large Lion Heads cut from Lion Cuff wrappers, and a recent stamp to pay postage. Write for list of our other fine premiums, including picture books, a knife, game, etc. WOOLSON SPICE CO., 450 Huron St., Toledo, Ohio.

PATENTS TRADE MARKS Examination of inventions. Send for circular. THE BOSTON DISPENSARY, 100 N. BROAD ST., BOSTON.

THE NATIONAL GAME.

BOSTON won the series from Cleveland. BECKLEY leads Pittsburgh in batting and fielding. BROOKLYN has released infielders Shindle and Gilbert. THE PITTSBURG team has been a huge disappointment. GAVRELL, since his re-engagement by Boston, has caught finely. BROOKLYN and Pittsburgh are the most erratic teams in the League. THE PITTSBURG Club released Catcher Merritt and Cincinnati signed him. LACHANCE, first base, is doing about the best playing for Brooklyn just at present. THE CLEVELAND team must be strengthened for another year or it will be out of the race. PITTSBURG has released 1 Shortstop Demontreville, the boy wonder. He was too slow. A REUNION of the old-time baseball players and writers in New York next fall is a possibility. NEW YORK has the best array of pitching talent that was ever collected together in a single club. THE WASHINGTONS have won more games of Philadelphia and St. Louis than from any other club. THE NEW YORK team is in mighty good shape for 1935, and very few changes will have to be made. STEBBE, the new shortstop of the Pittsburghs, is another Marjory in bait, and, like him, an ex-collegian. BASEBALL is having a big boom in Connecticut, where they played the game well twenty-five years ago. IT'S NOT always so easy to replace the old-time ball players with youngsters. Take the case of Glasscock, for instance. TAYLOR, of the Philadelphia, is one of the few real star pitchers this season, although little fuss is made about him. CAPTAIN NASH, of Boston, makes very little fuss for a man who has held a team in the front of the race for the last four years. NEXT year the catcher alone will be allowed to wear big mitts. The other players will have to get along with fielders' gloves. BREITENSTEIN, of St. Louis, weighs but 141 pounds, though his arm is as full of spunk as the heavyweights, Rustie and Shivers. THE BALTIMORES have, undoubtedly, made rapid progress in their work. Their team work is excellent, and almost equal to that of Boston. GLASSCOCK, the shortstop released by Pittsburgh, announces that he will never play ball again. He will manage a team at Wheeling, W. Va., next year. THAT good batting makes good fielding is shown by the fact that the fielding standard has been raised, and he must now be a superior player, or he will, who can hold his own in League company. THE greatest number of fielding chances accepted by a single outfielder last season was by Brown, of the Louisville, who had 377. It is expected that several records will be broken this year, partly because of the heavier batting. SAYS the Hawaiian Gazette: The Crocets resigned from the League yesterday, and I believe in Honolulu will probably take a sudden drop. This action was taken because the Kamehameha refuse to call last Saturday's game a draw. BALTIMORE leads the League in fielding and ranks second in batting. Few of the players who betrayed the Players' League have had any luck since and most of them have drifted into obscurity. This season Ewing, Clarkston and Glasscock receive their reward. THERE is a movement among the respected baseball players against being compelled to associate with the rowdy element in the profession. The League at its next annual meeting will undoubtedly be called upon to take some radical legislation on the subject. THIS has been a great baseball year in Baltimore. Interest has been maintained there as it has in no other League city, with the possible exception of New York, and the day is at a higher pitch than it has been since the team left for its Southern practice trip in March. A PECULIAR accident happened to Ernest Woods, the eighteen-year-old pitcher of the Whitestone Athletic Club, at Whitestone, N. Y. Woods delivered a swift ball, and immediately his arm felt limp to his side. An examination developed the fact that his arm was broken above the elbow. STEVENS' sleepers measure seventeen inches. His arm is a muscular monstrosity and physicians who have examined him say he will last longer than any pitcher in the history of the game. The Boston pitcher, however, is not in love with his work. He says he prefers playing the outfield. WHEN the baseball season begins to size up the surprises of the season, of 1931, he won't be impressed so much by the superb showing of Baltimore as he will by the unexpected drop of Cleveland and Pittsburgh. On their 1893 form it wasn't apparent how they could fall to basement the first three in 1931, and yet Pittsburgh will have to hustle to get into the first division. HOW THEY STAND. The following table shows the standing of the different clubs composing the National Baseball League:

Club. W. L. Pct. Club. W. L. Pct. Baltimore. 76 36 681 Pittsburgh. 55 68 487 New York. 75 40 652 Cincinnati. 59 65 485 Boston. 74 40 649 Chicago. 59 67 427 St. Louis. 68 48 579 St. Louis. 47 70 402 Brooklyn. 63 52 548 Washington. 42 75 359 Cleveland. 58 53 523 Louisville. 33 82 297

FALLING OFF IN IMPORTS. The Shippers were Waiting for Lower Duties. The enormous falling off in United States customs receipts during the pendency of the tariff bill gave some idea of the great decrease in the amounts and values of articles exported from foreign countries to the United States during the past year, but customs officials and others having to deal with the assessment of duties were hardly prepared for the showing contained in reports just received and just compiled at the state department. Communications received from consular officers, giving statements of the exports of various countries to the United States show that during the quarter ending June 30, 1893, the exports of every country decreased to an extraordinary degree, compared with the exports during the corresponding period in 1894. Exports from the United Kingdom alone fell off more than \$16,000,000 in three months.

Waite Renominated. After a stormy, and at times almost riotous, session of the convention at Pueblo, Col., Wednesday, Gov. Waite was renominated on the first ballot, which was later made unanimous. Congressman Pence was the only opponent. The Canal Almost Dry. Operations on the Delaware & Hudson canal are suspended for lack of water. Several hundred boats are tied up where they happened to be as the water is too low to float them.

Irving Contributes for Relief. Acting Mayor McClellan, of New York, on Tuesday received a cablegram from Henry Irving, in London, contributing \$50 to the forest fire relief fund. Mr. Irving's contribution is the first received.

Nine Thousand Tailors on Strike. Twelve hundred more tailors struck in New York Monday morning, making 3,000 in that city and 6,000 in Brooklyn on strike. At a meeting of the Tailors' Brotherhood Monday a circular was received from Boston giving notice of a general strike in that city.

400 DIVORCES NULLIFIED.

Oklahoma Judge's Decision Will Cause Many Sensations. A decision of the supreme court of the territory of Oklahoma handed down at noon on Saturday nullifies all divorces granted by probate judges in Oklahoma since March, 1893. There have been fully 400 divorces so granted, and as a very large percentage of the persons so divorced have been married since they are guilty of bigamy. The people affected are in every state in the Union, having come here to take advantage of the liberal divorce laws of the territory, which allow divorces for any of thirteen causes after a residence of ninety days. The decision will cause a sensation all over the country.

Nominations For Congress. Second Colorado district—John C. Bell, Populist. Second Maryland district—William B. Baker, Republican. Sixth Maryland district—George L. Wellington, Republican. First Alabama district—Richard A. Clarke, Democrat. Seventh Alabama district—William H. Henson, Dem. Ninth Alabama district—O. N. Underwood, Democrat. Fourth Alabama district—Marj Wood, Democrat. Eighth Alabama district—Joe Wheeler, Democrat. Second Alabama district—J. F. Stallings, Democrat. Fifth Alabama district—J. E. Cobb, Democrat. Third Alabama district—General George P. Harrison, Democrat. Seventh Michigan district—Horace Q. Sarver, Rep. Fourth Minnesota district—A. B. Keifer, Rep. Eleventh Pennsylvania district—Joseph A. Scranton, Rep., renominated. Second New Hampshire district—Henry A. Baker, Rep., by acclamation. Fourth West Virginia district—Warren Miller. Fourth Iowa district—Thomas Updegraff, Republican. First Iowa district—W. A. Dackworth, Democrat. Twenty-fifth New York district—J. S. Sherman, Republican. Sixth Mississippi district—Walter Denny, Democrat. Sixth Kentucky district—T. B. Mathews, Republican. Twentieth Pennsylvania district—J. D. Hicks, Rep., renominated. Twelfth Michigan district—S. M. Stephenson, Rep. Second Minnesota district—J. H. Baker, Dem. Fourth Minnesota district—T. S. Reinhardt, Pro.

Both These Towns Wiped Out. The destruction of Barroeton, Wis., was complete. One lone building is left of a city of 700. One man was burned. The total loss is a quarter of a million. Shell Lake has 52 dwellings burned, with a total loss of \$75,000. Three hundred and sixty people are homeless.

Making Artificial Silk. Claude Meeker, consul at Bradford, England, has sent to the State department a report upon the attempts being made there to manufacture artificial silk. Patents have been taken out in the United States and it is proposed to establish a company in this country for the purpose of selling rights.

No More Room for Veterans. Under the direction of Gen. Franklin, president of the board of managers, an order has been issued from the national soldiers' home at Leavenworth, Kan., stating that no more veterans could be received at present. On account of the hard times veterans have been coming into this home large numbers lately and there are 2,862 on the roll or 22 more than ever before.

A Smash-up in Hoosac Tunnel. An east-bound freight stopped, the Hoosac tunnel Saturday night to repair a broken down engine. Other trains so filled the tunnel with smoke that the second eastbound freight mistook lights and crashed into it. Brakeman Wm. Furness, of Syracuse, N. Y., and George Minnick, of Fitchburg, were killed. The operators at both ends of the tunnel have been arrested.

THE LABOR WORLD. In Italy bakers get \$4 a week. GERMANY has 243,000 Union men. MINERS in the far West are on strike. THE K. of L. claims 753,000 members. DETROIT box makers have organized. TELEPHONE employ 10,000 Americans. ILLINOIS miners average \$45 a month. FIFTEEN American firms cut diamonds. SAN FRANCISCO has Chinese shoemakers. COLORADO has a co-operative association. DENB spoke at Omaha, Neb., on Labor Day. BUSINESS is improving among the building trades. DIAMOND cutters from Holland are locating in Providence, R. I. THE cost of the British Labor Commission will be over \$230,000. IN Illinois mines last year sixty-nine miners were killed while at work. ONE man can make 600 tin cans a day by the aid of improved machinery. SYRACUSE (N. Y.) teamsters struck against increasing the size of wagon boxes. THE Amalgamated Society of Carpenters, organized in 1861, has 41,030 members. THE dues of the Newsboys' Union of Oakland, Cal., are twenty-five cents a month. ST. Louis carpenters protest against freemen doing their work around engine houses. IN the textile trades and mines of Austria a week of seventy-two to ninety hours is not uncommon. AN impression is growing that strikes against large corporations are hazardous experiments. THIS year, for the first time, Labor Day was celebrated throughout the country as a National holiday. TWENTY-FIVE THOUSAND men are said to be employed in producing and handling New York's oyster crop. A DIAMOND cutting factory is in course of establishment by a firm from Amsterdam, Holland, in Brooklyn. COLORED men are being imported to take the places of striking miners at Roslyn, Wyoming. The miners get eighty cents a ton. THE Chinese laundrymen of Boston are about to form a trust for the purpose of keeping prices for work up to the proper standard. EMPLOYEES of a Manchester (England) iron works have done more all better work in a year under the eight-hour plan than ever before in nine hours. THE Boston Board of Aldermen has decided against contract labor on city work, and advocates that not less than \$2 a day shall be paid to laborers. THE report for the year of the Brotherhood of Locomotive Firemen shows 2,530 members and an expenditure for death and disability claims of \$1,039,000. EDWARD PERO, the oldest locomotive engineer in Canada, was crushed to death in Westville, Nova Scotia, by the wheels of his locomotive. He had been running an engine on the tracks of the International Mining Company for a quarter of a century. THE previous holocausts from extensive forest fires occurred in the years 1814, 1854, 1884, 1887, 1889, 1891, increasing in destructiveness to life and property with the years.

Government Roads.

Austria owns and operates nearly 2000 miles of railway. Baden owns 829 miles of railway. Bavaria has 2896 miles of railway owned by the Government. Belgium owns about 2000 miles of railway. Some 181 miles of railway is owned by Ceylon. Chili owns 670 miles of railway. China owns and operates all her railways. The United States of Colombia owned 218 miles of railway in 1890. Denmark has about 1000 miles of railway owned by the Government. France owns about 2000 miles of railway, but most, or quite all, is leased to companies. The German Empire owns about 21,840 miles of railway. England and Wales own 14,031 miles. Scotland has 3118 miles belonging to the State. Ireland owns 2791 miles of railway. Hesse owns 226 miles of her railway system. A large per cent. of the railways of Italy belong to the Government, but are leased to companies. Japan owns 693 miles of railway. The colony of Natal owns 305 miles of railway. The Netherlands has nearly 1000 miles owned by the Government. New South Wales owns 2182 miles of railway. New Zealand in 1890 owned 672 miles of railroad. Norway has 329 miles of railway—all her own. Portugal owns about one-half of the railways in that country. Oldenburg owns 222 miles of her railroads. Peru has 1625 miles of railroads owned by the State. Roumania in 1890 owned 1530 miles of railway. Poland and Caucasia own 5965 miles of railway. Sweden owns 1645 miles of railway. Victoria owns all her railroads—2341 miles. Some 1137 miles of road in Finland belong to Russia. About one-tenth of the roads in that empire are owned by the Government. Servia also has a few lines of railway owned by the State. Brazil owns and operates 2031 miles of railway. South Australia owns her railway system.—The Coming Nation.

The Baby on the Floor of the House. Just after the House had been called to order yesterday, a little, dark-haired baby-girl toddled down the centre aisle. She was dressed in white, with a dainty muslin cap fastened down upon her pretty curls. She was a wee mite of a thing—so small that when she reached the steps she sat down and slid from step to step, for even the few inches descent were beyond the reach of her short and chubby legs. At the head of the aisle she paused, looking about her in a childish wonder. Then she noticed Speaker pro tem Richardson sitting at the Speaker's desk in all his glory, and with childish ambition she proceeded to climb up the broad platform, until she stood by his side. Her head scarcely reached the top of his desk, but she prattled away to him in baby fashion until he was compelled to turn away from her to follow the proceedings of the House. Then she half-slid, half-tumbled down again until she reached the group of pages, by whose side she sat down, spreading out her skirts in true womanly fashion. Just at that moment a woman appeared at the main door of the House, frantically waving her arms toward the little one. A doorkeeper came up the aisle, took the little one's hands, and asked her to go to her mother. "No, no," said the baby. "But she has some candy for you," said the diplomat if not altogether truthful official, and without another word the youthful wanderer was led in triumph to the arms of her distracted parent.—Washington Post.

Duration of Life Among Doctors. One of the most curious statistical records that has been compiled this century is that by Dr. Salzmann, of Essling, Wurtemberg, on the average duration of life among physicians. He found, on going over the ancient records of the kingdom, that in the sixteenth century the average duration of life among that class was but 36.5 years; in the seventeenth century, 45.8; in the eighteenth, 49.8, and at present time they reach the favorable average of 56.7. It appears from the foot notes to the above that this very great increase in longevity is due to the disappearance of the "black pest," the introduction of vaccination and the diminution in the number of typhus epidemics, three classes of diseases which formerly decimated the medical practitioners.—St. Louis Republic.

Bamboo Culture in Florida. Successful experiments have been made in raising bamboo in Florida," said Abe Wathen, at the Grand. "There are several patches near Fort Myers, and the plants are all growing rapidly, sometimes as much as a foot in a single night. The importance of this new industry cannot be overestimated. For the building of light summer houses, or for certain classes of furniture, bamboo cannot be surpassed. Road vehicles can be made out of it, and many other things too numerous to mention. Clothing can be made from its fibre, as can paper, and a portion of it is most excellent as food. It is the only plant known that furnishes shelter, clothing and sustenance to mankind, and its introduction here will be of great public benefit.—Cincinnati Enquirer.

Take no Substitute for Royal Baking Powder. It is Absolutely Pure. All others contain alum or ammonia.

Coins Issued by Private Mints. The constitution of the United States provides that no State shall coin money; but it seems that individuals might do so, up till about the time of the late civil war. Of course, it has always been against the law to counterfeit or imitate the coinage of the United States, and so, necessarily, a coin issued by a private mint would have to be so distinct in shape or markings as to show that it was not intended to pass as Federal money. For this reason the \$50 dollar gold coins or tokens issued by several private mints in California during the flush times of the '50's were octagonal in shape. Gold coins were also issued by the Mormons of Utah at about the same time, and the same thing had been done by parties in Georgia and North Carolina. Probably the latest of these private mints was the one established in Denver in the early '60's. It is said that the coinage of this establishment being brought to the attention of Secretary Chase, that eminent financier was much astonished to find a respectable firm of bankers engaged in making and uttering money, and was still further surprised when the Attorney General of the United States declared they had the right to do so. This incident caused the passage of a law absolutely prohibiting individuals from issuing or circulating anything intended in any manner to serve as money.—Washington Star.

Good Dog. Mrs. Jennie P. Lane, of Smethport, Pa., has a big Newfoundland dog which is a first-class substitute for a nurse. It takes the baby riding in the carriage every day. The dog holds the handle with its teeth and wheels the coach as carefully as the infant's mother could.

WHY NOT YOU? W. L. DOUGLAS \$3 SHOE. IS THE BEST. NO BUCKEYAN. \$5. CORDOVAN, FRENCH ENAMELLED CALF. \$4.75 FINE CALF & KANGAROO. \$3.89 POLICE, 3 SOLES. \$2.50 \$2. WORKING MEN. EXTRA FINE. \$2.12 BOYS' SCHOOL SHOES. LADIES. \$2.50 \$2.12. Best in the world.

GO WEST Via the Big Four Route. Solid Vestibuled Trains to CINCINNATI, INDIANAPOLIS AND ST. LOUIS. Making direct connections in Union Depots for all points in the SOUTH, SOUTHWEST AND WEST. Ask for Tickets Via BIG FOUR ROUTE!

PISO'S CURE FOR CONSUMPTION. CURES WHERE ALL ELSE FAILS. Best Cough Syrup. Tastes Good. Use in time. Sold by druggists.

TO NEW YORK 46 MILES. An old-fashioned way of getting there. Slow and safe, but hard work. Most women, have got beyond this kind of traveling—found something better. Now, why can't you look at that other old-fashioned proceeding in the same light—washing things with soap and hard rubbing. That's slow enough and tiresome enough, everybody knows, and it's not as safe as washing with Pearline. It's really destructive, in fact, the wear of that constant rubbing. Break away from these antiquated ideas. Use modern methods, Pearline saves at every point.

Send it Back. Fedders and some unscrupulous grocers will tell you "this is as good as" or "the same as Pearline." IT'S FALSE—Pearline is never peddled, and if your grocer sends you something in place of Pearline, be honest—send it back.

When Hamlet Exclaimed: "Aye, There's the Rub!" Could He Have Referred to SAPOLIO

Authors. The methods and tastes of professional authors in this matter are quite as varied as is the character of their several contributions to literature. For example: The novelists, Charles Reade and Victor Hugo, preferred immense sheets of paper and the coarsest of pens; while, on the other hand, both William Black and R. D. Blackmore cover dainty sheets of note paper with their almost microscopic chirography. Charlotte Bronte wrote in the minutest of characters in a diminutive notebook, and Douglas Jerrold jotted down his witty inspirations on narrow, ribbon-like strips of blue paper.

Aluminum. Aluminum is now to be used for engraving in place of stone or steel. It is claimed that besides the advantage of light, an aluminum plate will furnish 8,000 impressions, against 80 to 100 from a steel one.

CURES OTHERS. BAD COUGH, SPIT UP BLOOD, CONSUMPTION. K. C. McEIN, Esq., of New York City, writes: "When I commenced taking your 'Discovery' I was very low with a cough, and at times spit up much blood. I was not able to do the least work, but most of the time was in bed. I was all run-down, very weak, my head was dizzy, and I was extremely dependent. The first bottle I took did not seem to do me much good, but I had faith in it and continued using it until I had taken fifteen bottles, and now I do not look nor feel like the same man I was one year ago. People are astonished, and say, 'Well, just year this time I would not have thought that you would be living now.' I can thankfully say I am entirely cured of a disease which, but for your wonderful 'Discovery,' would have resulted in my death."

W. L. DOUGLAS, BROCKTON, MASS. You can save money by wearing the W. L. Douglas \$3.00 Shoe.
