EXPERTS WITH A PISTOL.

Some Wonderful Records Made by Frenchmen—M. Bonzon's Deadly Aim. Target shooting with the pistol is practiced but little in this country, says the New York Herald. Within the last five years, however, it has been taken up by some as a pastime. Prior to the war pistol practice was by no means uncommon, but the rifle supplanted the smaller weapon to a large extent when hostilities began. Now pistol shooting, or rather revolver shooting is growing in favor again. In France it is claimed that there are more expert pistol shots than in any other country. This is open to dispute, particularly by Americans, but it is pretty safe to assert that there is more target pistol shooting and more interest in it in France than in any other land. At the last annual tournament, held at the gallery of Gastinne Renette, 17 Avenue d'Antin, Paris, there was plenty of evidence of the Frenchmen's skill with the pistol. The scores were probably the best ever made in France. These tournaments continue about a month, and are participated in by the best amateur pistol shots in France. To win a prize is considered a great honor. At the last tournament, recently concluded, the premier prize was won by Monsieur H. Bonzon. This gentleman is considered to be the peer of all the pistol shots in Paris. His remarkable performance was accomplished at a distance of sixteen metres (fifty-two and one-half feet) and the bull's-eye was one and one-eighth inches in diameter. For the first time in the history of this famous gallery—the oldest in Europe—the use of revolvers was permitted, and it will be a source of pride to America to know that M. Bonzon used a revolver of American make. It carried a .41-caliber ball.

M. Bonzon fired six shots at the target. Not only did each strike the bull's-eye, but each took of a portion of the carton, the small white disk in the center, which is only three-eighths of an inch in diameter. For this wonderful bit of marksmanship M. Bonzon was awarded the grand medal of honor, a prize greatly coveted, but seldom won. The second prize at this tournament was won by M. Moitine-Faget, who scored forty-eight points by sending six out of seven bullets square into the bull's-eye. Several competitors scored forty-seven points. The illustration, which shows the work of M. G. Kohn, in firing at the word of command, gives a further idea of the prowess of the Frenchmen with a pistol, as does also the one showing the steadiness of M. Bon on in performing the target, scoring fifty points.

The firearm generally used in these competitions is very similar in size, shape and weight to the old dueling pistol. It is breech-loading, is about ten inches long and carries a .38-caliber ball. A new French powder was tried in the last tournament and was universally commended. It made but little noise and produced scarcely visible fugitive smoke that vanished almost instantaneously.

Irrigation in 'Drouthy' Kansas. A large individual irrigation plant in Kansas is described as follows by a paper in that State: "Among the irrigation plants in course of construction in Kansas probably the most extensive is that of Mr. G. M. Munger, of Eureka, Greenwood county. He is constructing a reservoir which will cover about 100 acres with water. This is done by building a dam 2,800 feet long and 38 feet high at its greatest height. This, as described by the Irrigation Farmer, will catch the storm waters from a large area and will be used primarily for the irrigation of a 500-acre orchard now just beginning to bear. The water will be raised by two compound duplex steam pumps, the water cylinders of which are twelve by fifteen inches. Each pump has ten inch suction and eight inch discharge. These pumps will elevate the water to a height of sixty-five feet, delivering it on the highest part of Mr. Munger's farm. The estimated cost of the plant complete, including ditches for distribution of the water is \$15,000.

It is easier to make new opportunities than to find lost ones. Mrs. Winslow's Soothing Syrup for children teething, softens the gums, reduces inflammation, allays pain, cures whooping cough, croup, and all other ailments of infants.

Dr. Kilmor's Swamp-Root cures all Kidney and Bladder troubles. Pamphlet and Consultation free. Laboratory Birmingham, N.Y. Emperor William's ancestors kept a toll-gate several centuries ago.
