A New Feature for County Institute. In order to keep up with the other progressive Counties in Pennsylvania, an effort will be made to publish the proceedings of the Teachers' Institute of Snyder county this year, in pamphlet form for the benefit of the teachers and others. It is proposed to publish the names of all the teachers, the names of their schools, the teacher's address and the names and addresses of all the directors of the County. The essence of all the important talks and lectures will be given. The best papers will be published in full. This will give the teacher an opportunity to preserve the best ideas for his guidance and instruction. Besides, the pamphlet will be a kind of directory of the school interests of the County. Such a book would ordinarily cost from 50 cents to 75 cents for each teacher, but the Superintendent has made arrangements to publish the proceedings at a cost not to exceed 30 or 35 cents to each teacher. The salaries of teachers is low, but we believe that the movement will be approved by every teacher in the Co. The Superintendent would be glad to learn the opinion of teachers concerning this move in order that he can make arrangements for the publication of the proceedings.
