Oliver Wendell Holmes is dead. Without the semblance of a struggle or a pain he passed away as he has lived, peacefully and beautifully. The end came at 12:10 o'clock Sunday afternoon at the venerable poet's town house, 296 Beacon street. He was surrounded by his children, and visibly conscious of their presence up to within the last few minutes of the last, though unable to speak. Then he closed his eyes wearily and seemed to fall asleep, as indeed he did—the sleep of death at which the whole world will mourn. Dr. Holmes came from his summer home at Beverly ten days ago, and while not quite in his accustomed health at that time, did not regard himself as ill, nor was he so regarded by his children and friends. For several years he had been a sufferer from asthma, and the other day after he had returned from Boston, he had a particularly severe attack of this malady. It was the beginning of the end. Dr. Holmes never left his bed again for while the asthma was conquered, it left him in such a weakened condition that he never rallied.
