

NO CHANCE IN THAT PROFESSION.
Mr. Shollicks was very angry. Some one had broken his favorite meerschaum, and replaced it in its case. He questioned his wife and the servants about it, but they alike professed to be unaware that it had happened.
Presently his only son came in. "George," said his excited parent, "do you know anything about his broken pipe?"
"Father," sobbed the lad, "I cannot tell a lie. Forgive me, father! It was I who did it. I cannot tell a lie. Forgive me, father! It was I who did it. I cannot tell a lie!"
Mr. Shollicks patted the boy's head, in intimation that the offense was forgiven, and then rushed from the house to melt into an agony of tears.
But it was not the shattering of his meerschaum that distressed him now. He had quite forgotten it. A worse thing had befallen him.
"Heaven help me!" he moaned. "Ever since my son was born it has been my ambition, my dearest wish, to rear him for my own profession; and now—and now—! Oh, it is a cruel blow!"
For M. Shollicks was a lawyer!

Not Enough.
There are seventy-six homeopathic hospitals in this country.

Never Too Late or Too Soon.
There is more lost in life from putting off from to-day till to-morrow what might be done at the instant than from any other cause. Fortune and fame have been thus wrecked, and in minor things it will not do to delay or trifle. A man hobbling on crutches for the rest of his life, caused by sprain, would have been a well, sound man, out of misery, if he had used St. Jacobs Oil when the mishap occurred. It is never too soon to get it; never too late to use it. The great remedy for pain never varies; it will do its work in ten minutes if it is allowed to do so. Treat pain as you would a mosquito—knock it out as soon as it bites.

Religious tolerance is making rapid strides in Hungary.

Dr. Kilmer's SWAMP-ROOT cures all Kidney and Bladder troubles. Pamphlet and Consultation free. Laboratory Binghamton, N.Y.

There are 100 women sugar planters in Louisiana.

In Olden Times
People overlooked the importance of permanent beneficial effects and were satisfied with transient action, but now that it is generally known that Syrup of Figs will permanently cure habitual constipation, well-informed people will not buy other laxatives, which act for a time, but finally injure the system.

Pure Blood
Gives Perfect Health—Hood's Sarsaparilla Makes Pure Blood.

"I became troubled with sores which broke out on me from the lower part of my body down to my ankles, dark, flat and Very Painful. Hood's Sarsaparilla cleared my system and healed the sores in a short time. It also improved my Appetite and benefited my general health. I recommend Hood's Sarsaparilla to all." J. P. THOMAS, Postmaster, Burton's Creek, Va.

Hood's Pills are the best. 25 cents per box.

WALTER BAKER & CO.
The Largest Manufacturers of PURE, HIGH GRADE COCOAS AND CHOCOLATES
On this Continent, have received HIGHEST AWARDS from the Industrial and Food EXPOSITIONS in Europe and America.

Unlike the Dutch Process, no Alkalies or other Chemicals or Dyes are used in any of their preparations. Their delicious BREAKFAST COCOA is absolutely pure and wholesome, and costs less than any other.

WALTER BAKER & CO. DORCHESTER, MASS.

BEECHAM'S PILLS
(Vegetable)

What They Are For

biliousness	indigestion	sallow skin
dyspepsia	bad taste in the mouth	pimples
back headache	foul breath	torpid liver
bilious headache	loss of appetite	depression of spirits

When these conditions are caused by constipation; and constipation is the most frequent cause of all of them.

One of the most important things for everybody to know is that constipation causes more than half the sickness in the world; and it can all be prevented. Go by the book.

Write to B. F. Allen Company, 365 Canal street, New York, for the little book on CONSTIPATION (its causes, consequences and correction); sent free. If you are not within reach of a druggist, the pills will be sent by mail, 25 cents.

A WOMAN'S HEART.
ONE DISEASE THAT Baffles THE PHYSICIANS.
The Story of a Woman Who Suffered for Nine Years—How She Was Cured.
(From the Newark, N. J., Evening News.)
On the summit of a pretty little knoll in the heart of the village of Clifton, N. J., stands a handsome residence about which cluster the elements of what is regarded by the country people round about as little short of a miracle. The house is occupied by the family of Mr. Geo. Archer, a former attaché of the police department of New York City, but who now holds a responsible position with the Standard Oil Company. Mr. Archer's family consists of his wife, a sprightly little woman, who presents a picture of perfect health, and a son, twenty-seven years of age. No one would suppose to look at Mrs. Archer now that she was for nearly nine years, and less than two months ago, an invalid so debilitated that life was a burden. Yet such was the case, according to the statements made by Mrs. Archer and her relatives to a reporter who visited her pretty home recently.

In 1885 she strained herself in running to catch a boat. Then ensued a long spell of illness, resulting from the tax upon her strength. Doctor after doctor was consulted and while all agreed that the patient was suffering from a valvular trouble of the heart, none could afford her the slightest relief.

"Oh, the agony I have suffered," said Mrs. Archer, in speaking of her illness, "I could not walk across the floor; neither could I go upstairs without stopping to let the pain in my chest and left arm cease. I felt an awful constriction about my arms and chest as though I were tied with ropes. Then there was a terrible noise at my right ear, like the labored breathing of some great animal. I have often turned expecting to see some creature at my side. The only relief I obtained was when I visited Florida and spent several months there. On my return, however, the pain came back with renewed force.

"Last July," continued Mrs. Archer, "I was at Springfield, Mass., visiting, and my mother showed me an account in the Springfield Ezra, telling of the wonderful cures effected by the use of Dr. Williams' Pink Pills for Pale People. My mother urged me to try the pills, and on November 25th last I bought a box and began taking them, and I have taken them ever since, except for a short interval. The first box did not seem to benefit me, but I persevered, encouraged by the requests of my relatives. After beginning on the second box, to my wonder, the noise at my right ear ceased entirely. I kept right on and the distress that I used to feel in my chest and arm gradually disappeared. The blood has returned to my face, lips and ears, which were entirely devoid of color, and I feel well and strong again to rest."

"My son, too, had been troubled with gastritis and I induced him to try the Pink Pills, with great benefit. I feel that everybody ought to know of my wonderful cure and I bless God that I have found something that has given me this great relief."

Mr. Archer confirmed his wife's statement and said that a year ago Mrs. Archer could not walk one hundred feet without sitting down to rest.

Dr. Williams' Pink Pills for Pale People are not a patent medicine in the sense in which that term is usually understood, but are a scientific preparation successfully used in general practice for many years before being brought to the public generally. They contain in a condensed form all the elements necessary to give new life and richness to the blood, and restore shattered nerves. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, ataxia, neuritis, rheumatism, nervous headache, the after effects of the grippe, palpitation of the heart, paleness and sallow complexion, that tired feeling resulting from nervous prostration; all diseases resulting from vitiated humors in the blood, such as scrofula, chronic erysipelas, etc. They are also a specific for troubles peculiar to females, such as dyspepsia, irregularities and all forms of weakness. They build up the blood and restore the glow of health to pale or sallow cheeks. In men they effect a radical cure in all cases arising from mental worry, overwork or excess of whatever nature.

These Pills are manufactured by the Dr. Williams' Medicine Company, Schenectady, N. Y., and are sold only in boxes bearing the firm's trade mark and wrapper, at 50 cents a box, or six boxes for \$2.50, and are never sold in bulk or by the dozen or hundred.

Cataract Cannot Be Cured
With local applications, as they cannot reach the seat of the disease. Cataract is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Cataract cure is taken internally, and acts directly on the blood and mucous surface. Hall's Cataract Cure is not a quick medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surface. The perfect combination of the two ingredients is what produces such wonderful results in curing cataract. Send for testimonials free.

F. J. CHENEY & CO., Props., Toledo, O. Sold by druggists, price 75c.

Success In Life
depends on the little things. A Ripans Tabule is a little thing, but taking one occasionally gives good digestion, and that means good blood, and that means good brain and brawn, and that means success.

Mrs. Winslow's Soothing Syrup for children teething, softens the gums, reduces inflammation, allays pain, cures wind colic. 25c a bottle.

Karl's Clover Root, the great blood purifier, gives freshness and clearness to the complexion and cures constipation. 25c, 50c, \$1.

If afflicted with sore eyes use Dr. Isaac Thomas's Eye-water. Druggists sell at 25c per bottle.

BUSINESS MORE HOPEFUL.
TRADE REVIEW.

The Week's Transactions Somewhat Less Favorable Than of Late.

R. G. Dun & Co.'s "Weekly Review of Trade" says: Business indications are rather more favorable than they were a week ago. Gold exports have ceased, quite a number of mills have gone into operation, and the demand for products, if not equal to that of prosperous years, is better than it has been most of the time this year. The prices of farm products do not improve much and there are still some strikes to resist reduction of wages, so that the purchasing power of the people cannot have materially increased, but there is a more hopeful spirit which prompts greater activity. On the other hand, the record of the past week's transactions is somewhat less favorable than of late. Payments through the principal clearing houses show a decrease of 1.4 per cent, compared with last year and decrease of 21.9 per cent, compared with the same week in 1882, the decrease for four weeks being 29.8 per cent.

The "Iron Trade Review" says Market conditions are still flourishing arguments for both bearish and sanguine views of the future in raw material the predictions of those who began in September to prepare the trade for a slump, have not been realized. Bessemer pig has held its own since the recovery a week ago of a portion of the ground that had been lost and \$11 is the market to-day. In foundry iron there is a fair demand in some selling centers, with indications that consumption is increasing, though slowly.

The "Iron Age" says: Developments in the iron trade show a curious mixture of good and bad news. On the whole, the eastern trade seems to feel a little more comfortable, while the west displays symptoms of weakness.

In spite of the low price of the principal Southern crop, cotton, manufacturers and wholesalers report rather more improvement in trade with the South than with any other section.

Reports of domestic products at New York for the last month show a decrease of \$2,300,000 in value, or more than 10 per cent. At the same time there appears an increase of \$3,400,000 in imports at New York, or 16 per cent, and as before the increase in other articles than sugar is even larger. The comparison, however, is with a month last year in which the excess of exports over imports was enormous, over \$30,000,000, so that the changes reported do not imply a contrary balance, and as before the increase in other articles than sugar is even larger. The comparison, however, is with a month last year in which the excess of exports over imports was enormous, over \$30,000,000, so that the changes reported do not imply a contrary balance, and as before the increase in other articles than sugar is even larger.

THE CROP BULLETIN.

Pennsylvania Much Worse Off Than West Virginia and Ohio.

The crop bulletin issued from the Department of Agriculture has the following interesting reports from state agents:

Pennsylvania—Wheat did not yield according to expectations, as in many instances the berry did not fill well. This is due in part to an extremely rapid and heavy growth in the spring. The oat crop will be light, having been planted late on account of the weather in the spring and its growth was retarded by drought.

West Virginia—The average yield of wheat, as estimated for this season, is 11-18-27. The quantity in most of the larger wheat raising countries is up to or above the average. In some places on low, wet ground the crop was damaged to some extent by rust. The yield of rye is good, but it is not raised in more than half the counties of the State. Oats promised a good yield earlier in the season, but the severe drought cut them shorter than was expected. The drought has lessened the yield of buckwheat, the quality seems to be fair. The late rains have done little to fill out and the percentage is higher than it was thirty days ago.

Ohio—The result of wheat threshing shows one of the largest yields in bushels per acre ever produced in the state. Actual results throughout every part of the State indicate an average yield of 19 bushels per acre, at which rate, even with the reduced average of the total crop ought to exceed by more than 1,000,000 bushels last year's excellent production. The quality of grain is generally good. Oats below an average yield of 18 bushels per acre and the quality is not so prime. Corn will exceed but little the short crop of last year. The two years of shortage will be seriously felt by feeders in Ohio. The frost which occurred on the 24th of September, though slight did injury to tobacco.

CHINESE FRAUDS.
Fully 4,000 Fraudulent Certificates Discovered at San Francisco.

Special Agent M. B. Herley, of Chicago, has been on the Pacific coast investigating for several months engaged in investigating Chinese certificate frauds. He intimates that there are fully 4,000 fraudulent certificates in this State. They have not all been used, but are for sale by Chinese and white agents. The fraud has not only been perpetrated by the manufacturers of counterfeit certificates, but there has been many forgeries and substitutions of names.

The common characteristics of Chinese make it extremely easy to substitute the photograph of one man for another. The agent is trying to discover the person in the Government employ who is in collusion with the vendors of the fraudulent certificates. There is strong suspicion that a Government official has been recent to his trust.

A dispatch from Washington says: It is learned at the Treasury Department that the alleged frauds grow out of a Chinese custom of leaving the identification certificates required of Chinese with the collector of San Francisco to be delivered when called for. The Chinese meanwhile going to other parts of the country. It is claimed that by this means the Government is "worked" for two certificates.

The Crew Perished.
A dispatch from Peterhead, a seaport about 25 miles from Aberdeen, Scotland, announces that the Swedish steamer Albatross, which with gun-powder, which was at anchor near Peterhead, has blown up. Withing two minutes after the explosion nothing was to be seen on the surface of the water but splinters from the schooner. All her crew perished.

Chicago's Blind Pools.
The police raids on speculative syndicates in Pittsburgh started inquiries in other cities, and the investigation has revealed the existence in Chicago of a large number of such concerns which are doing a rushing business, indeed. Chicago harbors a perfect nest of them, and it is said they have taken in \$4,000,000 or \$5,000,000 during the year. There are 15 or 20 concerns located in the back offices of buildings in the Board of Trade quarter that are running what they call "speculative pools." Many of them, it is said have been immensely successful to those in charge.

Japan Refuses to Make Peace.
The mediating powers at London submitted further and more definite proposals for peace to China and Japan, but Japan has rejected them. China is ready to conclude an armistice or peace on reasonable conditions.

PROVED A SUCCESS.

Experiments at Indian Head With the Hurst Gun.

The Hurst gun was tested at the Indian Head proving ground and proved a success. The gun was built at the Washington Navy-yard under an appropriation made by the Fifty-second Congress for the purpose of experimenting with the Hurst reinforce cartridge. These cartridges carry two charges of powder, the first lying immediately back of the projectile and the second enclosed around it. The first charge is sufficient to force the shell out of the case and it ignites the second charge as it passes out.

A BULLET IN HIS HEART.

Farmer William Young Astonishes the Medical World.

One of the most remarkable cases known to the medical fraternity has just been reported from Wheelsville, a small village in Clay county, Ala. It is the case of a man shot through the heart three weeks ago and still alive. William Young was fired upon while he was at work in his field. The ball from a Winchester rifle passed through his heart. He was treated by local men and then taken to Mobile, where his case was pronounced one of the most extraordinary that ever came under their notice.

Saturday Young was taken to a photographer and a photograph of the front and back of the upper portion of his body made, which will be used to illustrate the history of this case when it shall appear in the "Medical Science" Journal.

Queen of Health, New-York City.

What He Would Do.

Lord Aberdeen once left London at midnight in a sleeping-car for the north. In the morning, he saw a stranger opposite him. "Excuse me," said the stranger, "may I ask if you are rich?" "Somewhat surprised, his lordship replied that he was tolerably well to do. "May I ask," continued the stranger, "how rich you are?" "Well, if it will do you any good to know," was the reply, "I suppose I have several hundred thousand pounds." "Well," went on the stranger, "if I were as rich as you and snored as loud as you, I should take a whole car, so as not to interrupt the sleep of others."

SOME men seem to have been made out of dust that had gravel in it.

We have them sold everywhere at lower prices for the value given than any other make. Take no substitute. If your dealer refuses to sell you, we can.

P. N. U. 41

MOTHERS and those about to become mothers, should know that Dr. Pierce's Favorite Prescription robs childbirth of its torture, terrors and dangers to both mother and child, by aiding Nature in preparing the system for parturition. Thereby "labor" and also the period of confinement are greatly shortened. It also promotes an abundant secretion of nourishment for the child. During pregnancy, it prevents "morning sickness" and those distressing nervous symptoms from which so many suffer.

Texas, Cattle Co., Texas.
Dr. R. V. Pierce, Buffalo, N. Y.
Dear Sir—I took your Favorite Prescription previous to confinement and never did so well in my life. It is only two weeks since my confinement and I am able to do my work. I feel stronger than I ever did in six weeks before.

Yours truly,
Mrs. W. C. Baker.

MOTHER'S EXPERIENCE.
South Bend, Ind., Wash.
Dr. R. V. Pierce, Buffalo, N. Y.
Dear Sir—I began to take your Favorite Prescription the month of pregnancy and have continued taking it since confinement. I did not experience the usual pain or any of the ailments due to pregnancy, after I began taking your "Prescription." I was truly in labor as short as usual, and the physician said I got along unusually well. We think it saved me a great deal of suffering. I was troubled a great deal with leucorrhoea also, and it has done a world of good for me.

Yours truly,
Mrs. W. C. Baker.
