HOME AND FOREIGN.

What is Transpiring the World Over. Important Events Briefly Told.

CRIMES AND PENALTIES.

Patrick Gallagher, of 35 Davenport street, Cleveland, was arrested for arson, in setting fire to the house in which he lived.

Masked bandits robbed the express car on a Burlington train, near Ottumwa, Ia. They secured several thousand dollars.

Frederick Hermann, of 72 Rush street, Allegheny, committed suicide by taking paris green. He suffered from cancer of the stomach.

Thomas Walsh, trusted collector of the Pacific Express Company at Salt Lake, Utah, has confessed that he stole $2,000 from a $25,000 package.

The steam yacht Lagonda was seized at Fernandino, Fla., by order of the treasury department. She was loaded with rifles, cutlasses, etc., destined, it is believed, for Cuban filibusters.

Ottawa has a genuine sensation in the shape of a woman's poker club. Whiskey was a favorite beverage at the meetings, and many a hubby has had to hustle to meet his wife's losses at the gambling table.

August Elsner, a self-declared anarchist, threw three pieces of iron, which looked like bombs, through the windows of the Kansas State bank, at Kansas City, Mo. Elsner said he wanted to go to jail for shelter.

One of the two men who were arrested with "Major" Sampson, the Chicago murderer, a few days ago at the Illinois Central depot, at New Orleans, has been identified as Andy Craig, one of Chicago's smartest thieves.

Joseph Roberts, alias Victor Hugo, alias Edward Price, was arrested in Baltimore, at the request of Pittsburg authorities for bigamy. He is the man who married Blanch Gribben and ran a big bill for board at the Monongahela house.

MISCELLANEOUS.

Colorado refined silverbullion is now being shipped direct to China, by Denver smelters.

"Black Patti" Sissoretta Jones, with her company, was refused rooms at the Lindell hotel, St. Louis.

Secretary Carlisle says it will take $1,000,000 to carry into effect the law exempting alcohol used in the arts and manufacture.

Tuberculosis has been discovered among the cattle of the New Jersey state insane asylum, near Trenton, and 28 of the animals have been killed.

J. B. Meriam, president of the Meriam & Morgan oil company, of Toledo, says there is no truth in the story that his company had been absorbed by the Standard.

Attorney-General Henry Hassen, of Arizona has resigned, telling the governor he he could no longer act with a man who is trying to disrupt the Democratic party.

President Smith, of the Cincinnati suspender company has been appointed receiver of that concern. The liabilities are $20,000; assets, $8,000.

Judge Lyman Trumbull will appear in the Supreme Court as the attorney of President Debs, of the A. R. U., when the arguments come up for the release of the labor leader.

In an address before the Indiana State Board of Agriculture, W. C. Welles, of Parkersburg, W. Va., charged that ex-Secretary of the Treasury Charles W. Foster had manipulated his reports to show a falling off of the per capita and general circulation.

FIRES, ACCIDENTS, FATALITIES, ETC.

An unknown vessel is believed to have foundered during a gale near Point Wilson, Wash.

A natural gas explosion wrecked a house at Peru, Ind., and fatally burned Joseph Seegraft.

A little son of Dr. Charles Bottorff, of Charlestown, Ind., while playing doctor fatally poisoned his little sister.

In a collision at the Hannibal railroad yards, Kansas City, Mo., Engineer C. Woolman was killed and fireman J. R. Nettles seriously injured.

While attempting to save a raft of logs in Salt River, near Shepherdsville, Ky., W. L. Bowman, Tom McClure and Willis Prentwood were drowned.

Falling slate in the new mine of the Diamond coal company, near Brazil, Ind., killed Walter Hays and fatally injured William Frencher, both of Ohio.

W. S. Bascom, a miller at Punia, Ariz., suddenly became insane and shot Hardy Atkinson. Bascom declined to surrender to United States soldiers and was killed.

FOREIGN.

A shock of earthquake has been felt at West Meath, Ont.

Rumors of dissensions in the British Cabinet are persistent.

Great Britain wants to construct a submarine telegraph line from British Columbia to Australia.

Premier Turner, of Victoria colony, Australia, who was defeated on the proposition to reduce salaries of legislators, has decided to hang on to his office.

TURNED HIM OUT.

Socialist Member of the French Chamber of Deputies Expelled.

In the chamber of Deputies during the debate on the budget for the legion of honor, M. Rouanet, socialist, said: "I was going to propose to reduce the budget, but after the recent votes I am satisfied that the chamber cannot make upright decisions." The above remarks called forth violent interruptions and an uproar followed, causing the president of the chamber, M. Brisson, to intervene and propose the suspension of M. Rouanet. Thereupon M. Millerand, socialist, interposed and said the chamber of deputies could not expel M. Rouanet and quoted an article in the Figaro which said that if the chamber of deputies did not vote for the release of M. Gerault-Richards the member of that body ought to be sent to Mazas prison. This caused an uproar and brought forth from the president the reply that the could not ignore such outrages. The expulsion of M. Rouanet was then voted and he left the chamber.

BILL COOK'S CAPTURE.

The Outlaw Taken By Surprise—Rewards Amount to $15,000

Sheriff C. C. Perry of Chave county, N. M., landed Bill Cook safe in jail at Roswell. Perry and two deputies were in search of horse thieves on the plains southeast of old Ft. Sumner, when they met and recognized Bill Cook at first glance. Quicker than a flash Perry and his men had their Winchesters up and Cook was so thoroughly surprised that he lost nerve and, although he had two six-shooters about his waist, his hands went up at the command of the Sheriff. Handcuffs were put on his wrists and he was mounted and strapped on his own horse, which was found on the plain near the cabin. One led the animal while Sheriff Perry and his other deputy rode behind them. Thus the trip to Roswell was made, a distance of sixty-five miles. It is said that with the state, express and railroad company offers there is a reward of $15,000 for Cook's capture.

PRODUCTION AWAY AHEAD.

The Opening of the Year Gives No Promise of Marked Revival.

Bradstreet's says: The second week of the new year brings few reports of an increasing volume of orders for seasonable goods. Weather conditions in the East have been unfavorable. Those West and South the reverse. At some centers, it is too early to judge of the outlook of trade. Travelers in many instances have not all gone out. Western furniture manufacturers are stocking up, which has had an influence on the hard-wood trade, and Western dealers in iron and steel expect increased orders by February 1.

Production of iron and steel is going on in excess of demand, but manufacturers expect that necessary repairs, renewals and additions to plants by railroad companies, car manufacturers and other industrial enterprises will have a stimulating influence in the near future.

Total gross railroad earnings for the calendar year 1894 are the most unfavorable for many years. Earnings of 114 leading American lines, with 14,000 miles of road, amount to $478,000,000 11 per cent. less than in 1893, in which year gross earnings fell off 2.1 per cent. from the total in 1892, when there was a gain in gross railway earnings of 5 per cent., as contrasted with 1891.

Every group of railroads showed reduced earnings last year, compared with 1893. The most favorable exhibit is that by Southern lines, the decrease for which was only 2 per cent. Gross earnings of Mexican railways are in contrast with those in the United States, reporting a gain over 1893 of 5 per cent.

Exports of wheat, flour included as wheat, both coasts of the United States, during six business days ended January 10, telegraphed exclusively to Bradstreet's, amount 2,587,000 bushels, compared with 3,142,000 bushels last week; 2,100,000 bushels in the second week of January, 1894; 3,338,000 in 1893, and with 4, 183,000 bushels in 1892. Supplies of available wheat in the United States, Canada, in Europe, out of producers' hands, and afloat for Europe from all exporting countries, together with those in Australia, furnish a total of 137,253,000 bushels January 1, this year a decrease of 6,470,000 bushels compared with January 1, 1894, but an increase of 717,000 bushels compared with January 1, 1893, and of 28,750,000 bushels compared with January 1, 1892.

Failures the week are 420 in the United States, against 474 last year, and 54 in Canada, against 57 last year.

Price Current on Crops.

The Cincinnati Price Current summarizes the crop conditions for the past week as follows:

"The wheat crop condition is unchanged. Continued and prospective small marketings are indicated. All stocks, exclusive of the regular visible supply, are 50,000,000 to 60,000,000 bushels smaller than a year ago. Corn is freely offered nor is it in urgent demand. There are improving signs in the flour trade. Total packing of hogs to date, 4,315,000, against 2,700,000 a year ago. Estimated packings on March 1, 7,100,000, against 4,385,000 on the corresponding day last year."

CHEMISTRY IN INDIA.

Some Curious Answers Given by Natives in a Written Examination.

The uncivilized nations are like children in their simplicity and guilelessness. Every adult knows what odd questions a child will ask and what curious explanations they are in the habit of giving. Nothing could equal the childlike simplicity of the questions lately given in an examination in chemistry held in an Indian university.

"Sulphur is a smellful gas. Nitrogen is a remarkably lazy gas and is good for nothing. Carbon always exists in a dark room. There is no living being in the whole world that does not contain carbon.

"Gas is made by filling a poker with coal and heating it. Chlorine gives botheration to the throat. Hydrogen is a colorless, invincible gas and burns itself without anybody's help. Nitric acid is used in the preparation of currant electricity. It is very bad for teachers to pour it on our hands.

"Soda is formed by heating castor oil and potash. Caustic soda is used in the manufacture of soda water, and this is used in medicine for purgative purposes. Caustic soda is used as a summer drink. Quicklime is made by pouring water on slaked lime. We can eat this substance (CaO); it has the power of digesting food.

"Lime is used as a kind of gum for builders to stick bricks together."

Electric Wires.

Some writer very aptly likens the nerves to electric wires, and the general working of their system to that of electric cars. A man who "slips his trolley" like Mr. Jeremiah Enoy, 1812 W. Lombard St., Baltimore, Md., will need something better than even a galvanic battery to set him all right. Mr. Enoy found that something in the following way: "I suffered," he says, "a long time with neuralgia in the head. I gave St. Jacobs Oil a fair trial and am entirely cured." In this way the great remedy acts as a motorman to restore broken wires, and sets the system to perfect action.

A man in Somerset, Mass., pays 7 cents tax on a pet monkey and nothing else.

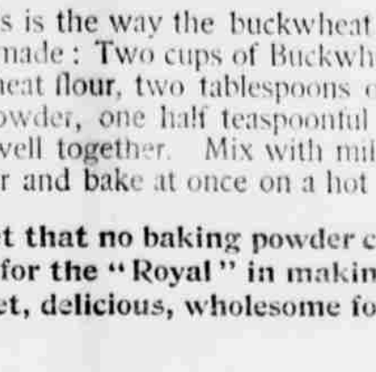
Husband's Grievance.

All things have their limits and imperfections, even woman's taste in matters of dress. The Indianapolis Journal represents a "worried-looking" man as saying:

"My wife has the poorest kind of taste about dress."

"Indeed!" answered his neighbor. "I always understood from my women folks that she was one of the best dressers in town."

"Oh, that is all right enough. But I'm talking about my own clothes. She thinks two $15 suits a year are plenty enough for me."



KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and $1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

The Rise of the Buckwheat Cake

The leaven of yesterday ruins the cake of to-day. Don't spoil good buckwheat with dying raising-batter—fresh cakes want Royal Baking Powder.

Grandma used to raise to-day's buckwheats with the souring left over of yesterday! Dear old lady, she was up to the good old times. But these are days of Royal Baking Powder—freshness into freshness raises freshness.

And this is the way the buckwheat cake of to-day is made: Two cups of Buckwheat, one cup of wheat flour, two tablespoons of Royal Baking Powder, one half teaspoonful of salt, all sifted well together. Mix with milk into a thin batter and bake at once on a hot griddle.

Do not forget that no baking powder can be substituted for the "Royal" in making sweet, delicious, wholesome foo
