covered and made harrow escapes; some of them were compelled to turn out in the cold wind clad only in their night clothing. Shortly before 6 o'clock the college junitor discovered flames coming from the roof of the building which was a three story brick structure. The alarm was immediately given, but in a few minutes the entire building was

in the power of the flames.

Many of the students, who are mostly young ladies, were not out of bed, and when they discovered that the building was on fire a panic ensumed. Everybody tried to get out at the same time. A number were convented. panic ensance. Laysung the together the same time. A number were compelled to leave the dormitory in their scanty night clothes, and as the air was cold, suffered considerably before they could reach places of safety. The borough fire department reof safety. The borough fire department re-sponded to the alarm, but when the hose carriage reached the building the water pings were found to be frozen. The building was practically in ashes before the department

The college buildings were in the center of the town and were extensive and in excellent condition. Improvements were recently condition. Improvements were recently completed on the buildings to the amount of \$15.00. Last fall the institution, which was formerly known as the Beaver Female Seminary and Musical Institute, was made condensational with an attendance of the conditional with a second the conditional with the c educational, with an attendance of about 100

The institution was established in 1843. The institution was established in 1843. Hen, Daniel Agnew, ex-chief justice of the supreme court of Pennsylvania, was one of the prime movers and took a deep interest in its welfare. Bishop Simpson, of the Methodist Episcopal church, also looked after the young institution. In 1859, Dr. R. T. Taylor was elected president, which position he held until about a year ago, when he was succeeded by President Alexander. In 1873 extensional difference of the control of the sive additions and improvements were made and the number of students so increased as to make the college of great importance to

to make the college of great importance to Beaver and vicinity. Last year, as stated, additional improvements were made.

The faculty and directors held a meeting and made arrangements to continue the school in another building. It is probable that steps will be taken at once to rebuild the

#### GREAT GOLD STRIKE.

Twenty Thousand Dollars From a Stamp Mill in Five Days.

The Holy, Terror, situated at Keystone, Pennington county, S. D., made another wenderful record-breaking run as a gold producer. A clean-up of the batteries and plates of its stamp mill after a run of only five days was made yesterday, and gave a gross product of \$20,000, which is indeed a most extraordinary run, when the number of stamps are taken into consideration. New discover-ies are being made daily in the district, and if reports can be believed, and the assays of the cres found relied upon, some of the finds will even exceed the Holy terror in richness. Even now, as bad as the weather is, there has started a good-sized stampede toward the southern hills.

a.

The North German Lloyd Steamship Company has engaged three German, three English and three French divers to attempt to recover the mails from the foundered steamer Elbe. The vessel lies in water 120 feet deep and two or three mail bags from her have been washed ashore on the English coast. The estimated value of the mails is \$90,000. In addition to the regular wages that divers will be paid, the company has alloted the sum of \$2,500, which will be given for the re-covery of valuables from the steamer.

#### Killed by Three Men.

At Cannelton, W. Va., Albert Rudder was thet and killed by John Lively and his two tens. The Livelys were quarreling with sevdder on sight. When he saw Rudder he lered his sons to open fire, and the three ed at once, all the bullets taking affect. murderers are still at large.

Silver the Issue for 1893.

Congressman Bland, of Missouri, says that a parties in the next presidential campaign Il divide upon the money question and that the free silver men will nominate a candidate to represents their sentiments. #### SUCCESS OF THE LOAN.

Many Hope It Is the Beginning of a Real

R. G. Dun & Co. say:

The surprising success of the new loan, and the great confidence it has given to the investors on both sides of the water and to business men here, encourage many to hope that it may be the beginning of a real recovery. Within 23 minutes subscriptions are supposed to have been at least five times the amount of bonds offered, and in two hours at London they were 20 times the amount there offered. Considering the power which control of these bonds gives to regulate foreign exchanges and to prevent exports of gold, the transaction has indeed greatly changed the financial situation in spite of the fact that government revenues are still deficient, and that domestic trade shows scarcely any

and that domestic trade shows scarcely any gain as yet.

The industrials are not enlarging production, nor have prices of farm products improved. Wheat fell to 56 cents Saturday last, and has recovered to 57c, only a quarter below the price a week ago, while corn, cotton and pork are unchanged, and hogs and lard are a shade lower. Western receipts of wheat are nearly as large as hast year, though for three weeks about 40 per cent smaller, owing to the storms. Cotton has refused to advance, though there has been much talk about carthough there has been much talk about cur-tailment of acreage this year, and receipts

tailment of acreage this year, and receipts have sharply decreased.

Dealings in iron and its products are moderate is volume, with some discouragement in most branches, though structural works at Pittsburg are very busy, and the demand for wire nais and barbed wire has never been surpassed. But nothing is doing in rails; plates are quiet, and bar is as low as ever, though in rather better demand for car works. Sales of pig have been moderately large, with one transaction at Pittsburg of 10,000 tons Bessemer at \$10, but prices do not improve.

but prices do not improve.

Textile products show few changes but those downward The termination of a strike at Philadelpeia sets more carpet mills to work, and the domand is fair. Sales of wool at the chief markets in three weeks of February were 15,722,000 pounds, against 18,-010,800 pounds two years ago.

The failures for the week have been 302 int

in Canada 36, against 51 last year. Rt. Rev. Thomas M. Ciark, the Episcopal bishop of the diocese of Rhode Island for over 40 years, has gone mad. He is now confined as a private sanitarium at Fores

A SURGEON'S KNIFE

gives you a feeling of horror and dread. There is no longer necessity for its use in many diseases formerly regarded as incurable without cutting. The Triumph of Conservative Surgery s well illustrated by the fact that

RUPTURE or Breach is now radi-cally cured without the knife and without pain. Clumsy chaf-ing trusses can be thrown away! They never cure but often induce inflamma-tion, strangulation and death.

TUMORS Ovarian, Fibroid (Uterine) and many others, are now removed without the perils of cutting operations.

PILE TUMORS, however large, other diseases of the lower bowel, are permanently cared without pain or re-STONE in the Bladder, no matter series, washed out and perfectly re-moved without cutting.

STRICTURE of Urinary Passage is also removed without cutting in hundreds of cases. For pamphlet, references and all particulars, send to cents (in stamps) to World's Dispensary Medical Association, 663 Main Street, Buffalo, N. V.

#### MOTHERS

and those soon to become mothers should know that Dr mothers. Pierce's Favorite Prescription robs childbirth of its tortures, terrors and dangers to both mother and child, by mother and child, by aiding nature in pre-paring the system for parturition. Thereby "labor" and the period of confinement are greatly shortened. It also promotes the

secretion of an abundance of nourishment for the child.

Mrs. Dona A. Gutthein, of Cabley, Overlan Co., Tenn., writes: "When I began taking Dr. Pierce's Favorite Prescription. I was not able to stand on my feet without suffering almost death. Now I do all my housework, washing, cooking, sewing and everything for my family of eight. I am stouter now than I have been in six years, Your' Pavorite Prescription' is the best to take before confuenciat, or at least it proved so with me. I never suffered so little with any of my children as I did with my last." the United States, against 398 last year, and

#### A Church of Ice.

The officers of the Neptune line steamship Patapsco, which arrived in port recently from Rotterdam, via Sunderland, witnessed an early morning scene in mid-Atlantic which First Officer Popham says was beyond description and any human power of reproduction. The beautiful sight was caused by the sun shining upon a huge iceberg about 7 o'clock on the morning of August 2, and continued for fully fifteen minutes. The iceberg was 270 feet high and 550 feet long, and was on the edge of a dense fog. It was shaped exactly like a church, having at one end a towering spire that was pierced near the top of the spire in immaculate white.

About fifty feet from the top the sun's rays blended into a soft pink that was most beautiful to behold. Back of the spire was a slanting roof that the action of the fog and sun caused to appear in a deep blue. Near the spire was a perfectly shaped Gothic arch, in which had been melted a fissure so like a window as to almost make one believe it was built there by a mechanic. The sun shone through this in all its brilliancy and dazzled the eyes of those aboard ship. The fog formed a deep background near the water and made a marine picture that could never be painted. Besides all this, the sun, shining on the many small projections of the berg, made the whole look as though millions of sparkling diamonds had been piled together. The officers say that many statues and fantastic figures were discernible about the mountains of ice. The seamen and officers were awed by the beauty and grandeur of the scene. Baltimore

#### Established a Value.

Maurice Thompson tells of a certain buyer of sheep who went into the mountains of Eastern Kentucky, where the following dramatic incident took place between him and a grim mountaineer who had one ewe for sale: Buyer-That ewe is worth about 75 cents. Mountaineer-Hit air wo'th jest a dollar 'n' er half. Buyer-You are joking; the old thing is lean and- Mountaineer (drawing a large pistol and cocking it)-Strenger, w'at did ye say 'at that air ewe was wo'th? Buyer (briskly)-Nigh on to

#### BRAVE COLONEL LARKE.

With His Arm Badly Broken He Writes and Works Every Day.

Col. Julian K. Larke, the Crimean war veteran, met with an accident recently, in which he demonstrated that the heroic soldier is born and not evoluted by a rigid system of drill. He is one of the bright writers on an afternoon paper and has charge of the real estate department. On one of the coldest days of last week, when the breath seemed to freeze and icicles gathered on the mustache and beard, the Colonel, chipper as a chipmunk, although he is over 60 years old and is all scarred up with wounds received in battle, called at the Real Estate Exchange, says the New York Commercial Advertiser. In descending the steps from the streets that lead to the exchange he slipped on the frozen ice and fell heavily on his left shoulder.

Like a nimble athlete of thirty years he picked bimself up, and, after finishing his business at the exchange, he went to his office, and wrote a column, coolly smoking a long Havana, known as the "Smuggler's Delight." His brother members of the quill noticed that while he was writing his left arm hung limp and motionless at his side, Finishing his copy and calmly knocking the ashes from his clear he said: 'Now I will look at my arm." He tried to lift up his left arm, but he discovered that it was not only broken, but considerably fractured. His shirt and coat sleeves were soaked with blood. Several wished to run for a doctor, but he simply said:

"Oh, it is nothing; I'll go out and have it set." He lighted a fresh clear and went out and found a surgeon, who tried to lecture the brave old veteran, who has fought through wars, because he neglected his arm so long. 'Go home early and stay there a week.' said the surgeon, after he had splintered the broken arm. The surgeon little knew the vitality of the Colonel and his devotion to journalism. The next day he turned up in the office and wrote five columns of statistics, the data of which he had been gathering for some

His coolness and herole nonchalance in suffering great pain have won the admiration of all the editors and reporters on the papers and they propose to honor him in some way, either by tendering him a banquet or giving him a silver loving cup.

#### Durable Bricks.

Excavations in Babylon have brought to light a number of bricks, the stamps on which prove them to be at least 4,000 years old. They appear to be as good now as when they were first baked.

#### The Populist.

Why shouldn't there be a third party? It is true they disturb the smooth running of the regular organizations and sometimes overturn elections, but what is popular is founded on merit: As for instance, among all the remedies used for sprains and bruises, st. Jacobs Oil is the most popular because it is known to be the cest; hence it is the Pop-ular in medicine. The more because it cures so promptly and surely. There is no crippling from sprain where this old remedy is used. It imparts new life and strength and the pain vanishes. Truly it is a Popu-
