RICH RED BLOOD

In the body of an adult person there are about 18 pounds of blood.

The blood has as its most important elements, small round corpuscles, red and white, in proportion of about 300 red to 10 white ones.

If the number of red corpuscles becomes diminished and the white ones increased the blood is impure, thin, lacking in the nutrition necessary to sustain the health and nerve strength of the body.

Then That Tired Feeling, Nervousness, Scrofula, Salt Rheum, or others of the long train of ills, according to the temperament and disposition, attack the victim.

The only permanent remedy is found in a reliable blood medicine like Hood's Sarsaparilla, which acts upon the red corpuscles, enriching them and increasing their number. It thus restores the vital fluid to healthy condition, expels all impurity, cures Nervousness, That Tired Feeling, Scrofula and all other diseases arising from or promoted by low state of the blood.

That these statements are true we prove not by our own statements, but by what thousands of perfectly reliable people say about Hood's Sarsaparilla. Read the testimonial in the next column from a beloved clergyman. Then take

"In view of the benefit I have had from Hood's Sarsaparilla I wish to give the following testimonial. I have several times been badly

Poisoned With Creeping Ivy.

As the old school of medicine simply tried to remove the symptoms instead of the sources of them, much of the poison was left in my system to appear in an itching humor on my body with every violent exertion in warm weather. At all times there were more or less indications of poison in my blood, up to a year ago last winter, when

Large Sores Broke Out

on my body. I then purchased a bottle of Hood's Sarsaparilla, and after using that and a half of another bottle the sores and humor disappeared. I attended the Christian Endeavor Convention in Montreal and also visited the World's Fair in the hottest weather of the summer. Was on the go all the time, but

Had No Recurrence

of the burning and itching sensation which had marred every previous summer's outing. I have reason, therefore, to be enthusiastic in my praise of Hood's Sarsaparilla." SAMUEL S. SCHNELL, pastor of Free Baptist Church, Apalachin, N. Y.

Hood's Sarsaparilla

The Blood Purifier and True Nerve Tonic.

Road Foundations of Cloth.

The Massachusetts Highway Commissioners' Board has found in building macadamized roads, that, upon loose, sandy soil, much stone is wasted by being driven into the sand. In such cases gravel, when accessible, has been placed upon the sand to a depth of three or four inches, and the stone laid on this. By so doing the cost is greatly reduced. There being no gravel at Martha's Vineyard, cheap cotton cloth has been spread upon the sand, and over that the stone. The sand does not work up through the stone and much less stone is required. Layers of tarred paper were tried, but without success, as the stone pressed through them.

Call It a Craze.

AN ALARMING STATEMENT CONCERNING WOMEN.

HOW BAD HABITS ARE FORMED.

The *New York Tribune* says: "The habit of taking 'headache powders' is increasing to an alarming extent among a great number of women throughout the country. These powders as their name indicates, are claimed by the manufacturers to be a positive and speedy cure for any form of headache. In many cases their chief ingredient is morphine, opium, cocaine or some other equally injurious drug having a tendency to deaden pain. The habit of taking them is easily formed, but almost impossible to shake off. Women usually begin taking them to relieve a raging headache and soon resort to the powder to alleviate any little pain or ache they may be subjected to, and finally like the morphine or opium fiend, get into the habit of taking them regularly, imagining that they are in pain if they happen to miss their regular dose."

In nine cases out of ten, the trouble is in the stomach and liver. Take a simple laxative and liver tonic and remove the offending matter which deranges the stomach and causes the headache. Dr. Pierce's Pleasant Pellets are composed entirely of the purest, concentrated, vegetable extracts. One Pellet is a dose; sugar-coated, easily swallowed; *once used, always in favor.* They positively *cure* sick headache and remove the disposition to it.

Mr. E. VARGASON, of *Otter Lake, Lapeer Co., Mich.*, writes: "I not infrequently have an attack of the headache. It usually comes on in the forenoon. At my dinner I eat my regular meal, and take one or two of Doctor Pierce's Pleasant Pellets immediately after, and in the course of an hour my headache is cured and no bad effects. I feel better every way for having taken them—not worse, as is usual after taking other kinds of pills. 'Pleasant Pellets' are worth more than their weight in gold, if for nothing else than to cure headache."

The Secret of Fascination.

The secret of fascination is one which many a woman would sacrifice a good deal to learn. To cultivate a charming and an attractive manner one must begin at home; and surely a better school could not be devised, for the training is, in its way, perfection. Here one is sure to find each day little rubs which must be soothed with skillful touch; there is a constant mind-friction going on among even the most devoted members of the household. It is a painful fact, though none the less true, that one's family acts as a constant counter-irritant. A steady effort to smooth over the rough places, minister to wounded hearts, and with deft touches erase unpleasant memories is called for, and the woman who obeys the summons is pretty sure to find herself fully able to cope in the most agreeable fashion with the outside world. Few women, however, realize that a fascination of manner is not born, but cultivated. It begins to bud in the nursery, develops under the skillful training of painstaking instructors, and blossoms forth into complete beauty in the society of well-bred women.

Finer Microscopes Needed.

Prof. Schaefer, President of the section of physiology of the British Association, declares that he discovered that each organic cell in vegetable and animal life contains an infinitesimal particle which manifests definite and controlling functions, and which appears to be, in fact, the principle of life. He calls it "the attraction particle," because, despite its infinite littleness, "it exerts an extraordinary influence over the whole cell, which may be many thousand times its size. It initiates and directs those processes which result in the multiplication of cells. The supposed fundamental form element called a cell is usually invisible to the naked eye. Bearing this fact in mind we can usually get an idea of the extraordinary character of the statement of Dr. Schaefer that "he has discovered the life principle in a particle thousands of times smaller than the cell itself." After magnifying the cell 1,000 diameters the central particle, the "attraction particle" or the living particle appears under the most powerful microscope merely the size of a fine point. Some inventor is needed now with a microscope of higher power than anything yet known.

A Kensington youth, who had been told that a certain young lady's father had plenty of dough, proposed to her before he discovered that the old man was a baker.—Philadelphia Record.

An Incomplete House.

We run wild over the furnishings of a house; its furniture, carpets, hangings, pictures and music, and always forget or neglect the most important requisite. Something there should be always on the shelf to provide against sudden casualities or attacks of pain. Such come like a thief in the night; a sprain, strain, sudden backache, toothache or neuralgic attack. There is nothing easier to get than a bottle of St. Jacobs Oil, and nothing surer to cure quickly any form of pain. The house is incomplete without it. Complete it with a good supply.

At the Bon Marche (cheap market), Paris last year, 662 persons were arrested for kleptomania.

RIPANS CHEMICAL COMPANY, 10 Spruce St., New York.

ELECTRIC CALLS.

Congressmen Won't Have to Clap Their Hands Now.

One item of legislation quite escaped attention in the hustle and excitement incident to the closing scenes of congress. It is a provision appropriating $1,000 to introduce an electric call system in the house.

Ever since congress has been in existence the members have called the pages by lightly clapping their hands together. Members are always calling the pages and this light clapping of hands goes on whether anybody is speaking or not, but the old system is generally most in evidence when a member is addressing the house. This will be done away with at the instance of Congressman Cannon, of Illinois.

When the Fifty-fourth congress meets every member will find a button at his desk which will insure the coming of a page. An electric wire will be connected with the call-board similar to those used in hotels. When a member wants a page he presses the button, an indicator tumbles down, showing the number of the congressman's desk and the waiting page darts off to answer the summons.

Congress will hereafter no longer waste the people's time by using it for the rendition of eulogies, so-called, of dead Congressmen who may and may not of been worthy. Senator Manderson secured the adoption the other day of a resolution against this foolish custom. There will be duly recorded in that repository of Congressional gush and record of little business, the Congressional Record, written contributions of great length upon the life and services of each departed member as he dies.

Good Times Ahead.

A vast amount of money will be expended in Pittsburg and vicinity during the present year, and this fact is cited as an encouraging feature of the business outlook. In addition to the large sums of money to be expended by the cities of Pittsburg and Allegheny, amounting to $11,000,000, the adjacent towns will expend considerable for public improvements. The railroads are expected to disburse much money in and around Pittsburg for supplies and in making improvements, and other large corporations as well. A number of new enterprises will be started during the summer, among them the Suburban rapid transit system, which has behind it men of large capital.

An investigating committee found that great cruelty was practiced in the Nebraska penitentiary. Men are hand-cuffed, with a rope around their neck, in such a way that they must endure great suffering or strangle, and others are suspended by their thumbs until they faint.

The Conca (Neb.) state bank closed its doors Wednesday. The bank was reorganized last week, with a woman as president. Assets and liabilities, 66,000.

Only One Tone in His Voice.

Possibly as ludicrous a thing as ever happened was the experience of my friend, Professor Roswell Park, of Buffalo, N. Y. A man's life had been saved by the beautiful surgical skill of a successful laryngotomy. When health had been retored, my friend proposed to the patient the insertion of an artificial larnyx, so that vocal tones, or true voice, could be added to the whisper that necessarily resulted from the absence of the vocal chords. This apparently highly desirable thing was done, but the tone, of course, was uniform: there was no change of pitch possible to the mechanical larnyx, and expression, modulation, timbre—everything that makes voice pleasant and more than useful was absent. The man could speak, convey ideas perfectly, but when he tried to give emphasis, nuances, shadings, diverse meanings, and especially when he tried to express emotion, anger, or resentment, there was only the monotonous drone and squeak of the intolerable machine. Nothing could control the convulsive laughter of the surgeon and assistants. The poor man's indignation sought outlet in speech, but the very words of wrath were turned to outrageous absurdity by the infernal device. In a spasm of ebullient rage he tore the mechanism out of his throat, cursed the man who had saved his life, and is probably running and hoarsely whispering invectives at him still. He never came back.—Dr. George M. Gould's "Meaning and Method of Life."

WAS GOULD INSANE?

FINANCIAL WORRY AND PHYSICAL EXERTION NOT THE GREATEST DESTROYER OF HUMAN LIFE.

For Humanity's Sake, After Thirty-six Years of Nerve-Creeping Slavery, He Tells How He Was Set Free.

Caldwell, N. J., March 26, 1895.—(Special.)—Since one of our prominent citizens suffered so terribly from tobacco tremens, has made known his frightful experience in behalf of humanity, the ladies here are making tobacco-using husbands' lives miserable with their entreaties to at once quit tobacco.

The written statement of S. J. Gould is attracting wide-spread attention. When interviewed to-night he said: "I commenced using tobacco at thirteen; I am now forty-nine; so, for thirty-six years I chewed, smoked, snuffed and rubbed snuff. In the morning I chewed before I put my pants on, and for a long time I used two ounces of chewing and eight ounces of smoking a day. Sometimes I had a chew in both cheeks and a pipe in my mouth at once. Ten years ago I quit drinking whiskey. I tried to stop tobacco time and again, but could not. My nerves craved nicotine and I fed them till my skin turned a tobacco-brown, cold, sticky perspiration oozed from my skin, and trickled down my back at the least exertion or excitement. My nerve vigor and my life was being slowly sapped. I made up my mind that I had to quit tobacco or die. On October 1 I stopped, and for three days I suffered the tortures of the damned. On the third day I got so bad that my partner accused me of being drunk. I said, 'No, I have quit tobacco.' 'For God's sake, man,' he said, offering me his tobacco box, 'take a chew; you will go wild;' and I was wild. Tobacco was forced into me and I was taken home dazed. I saw double and my memory was beyond control, but I still knew how to chew and smoke, which I did all day, until toward night, when my system got tobacco-soaked again. The next morning I looked and felt as though I had been through a long spell of sickness. I gave up in despair, as I thought that I could not cure myself. Now, for suffering humanity, I'll tell what saved my life. Providence evidently answered my good wife's prayers and brought to her attention in our paper an article which read: 'Don't Tobacco Spit and Smoke Your Life Away!'

"What a sermon and warning in these words! Just what I was doing. It told about a guaranteed cure for the tobacco habit, called No-To-Bac. I sent to Druggist Hasler for a box. Without a grain of faith I spit out my tobacco quid, and put into my mouth a little tablet upon which was stamped No-To-Bac. I know it sounds like a lie when I tell you that I took eight tablets the first day, seven the next, five the third day, and all the nerve-creeping feeling, restlessness and mental depression was gone. It was too good to be true. It seemed like a dream. That was a month ago. I used one box. It cost me one dollar, and it is worth a thousand. I gained ten pounds in weight and lost all desire for tobacco the first day. I sleep and eat well, and I have been benefited in more ways than I can tell. No, the cure was no exception in my case. I know of ten people right here in Caldwell who have bought no-To-Bac from Hasler, and they have been cured. Now that I realize what No-To-Bac has done for me and others, I know why it is that the makers of this wonderful remedy, the Sterling Remedy Company, of New York and Chicago, say: 'We don't claim to cure every case. That's Fraud's talk, a lie, but we do guarantee three boxes to cure the tobacco habit, and in case of failure we are perfectly willing to refund money.' I would not give a public indorsement if I were not certain of its reliability. I know it is backed by men worth a million. No-To-Bac has been a God-send to me, and I firmly believe it will cure any case of tobacco using if faithfully tried, and there are thousands of tobacco slaves who ought to know how easy it is to get free. There's happiness in No-To-Bac for the prematurely old men, who think as I did that they are old and worn out, when tobacco is the thing that destroys their vitality and manhood."

The public should be warned, however, against the purchase of any of the many imitations on the market, as the success of No-To-Bac has brought forth a host of counterfeiters and imitators. The genuine No-To-Bac is sold under a guarantee to cure, by all druggists, and every tablet has the word No-To-Bac plainly stamped thereon, and you run no physical or financial risk in purchasing the genuine article.

At the age of 73 Darwin declared that a cigarette rested him more after hard labor than all else.

How's This!

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & Co., Toledo, O.

Braham's Sarcasm.

Catalani, like most prima donnas, had a great weakness for showing off her jewelry. "You see dis brooch?" she would say: "de Emperor of Austria gave me dis. You see dese ear-rings? De Emperor of Russia gave me dese. You see dis ring? De Emperor Napoleon gave me dis," and so on. Braham, the tenor, in imitation of this, would say, pointing to his umbrella: "You see dis? De Emperor of China gave me dis." Then, pointing to his teeth, "de Emperor of Tuscany gave me dese."

In our ads two weeks ago we told of our very superior all-steel hand and power feed cutter to be offered at

$10 worth $40

Last week we told of the process of galvanizing and its indispensable preservative qualities. Next week we will give you the experience of two representative business firms of Illinois, one of whom has sold 40 and the other 100 Aermotors. The week following we will quote a large number of their pumps made and wind mill and tool repairing leaves their [illegible] ever before dreamed of, and the week following that we shall talk to you of steel galvanized tanks, with covers, at the reduced rate of 2½ cents per gallon. This is cheaper than wood. They do not shrink, leak, rot, rust or give taste to water.

The Aermotor Company deals the public generously. While state legislatures are passing laws to secure repairs for farm machinery at reasonable prices, IT IS A FACT THAT THE AERMOTOR COMPANY HAS FOR THE YEAR 1895 BEEN COMPELLED TO RAISE ITS PRICES ON REPAIRS BECAUSE SOME OF ITS CUSTOMERS HAVE BEEN ORDERING INDIVIDUAL PARTS TO MAKE UP COMPLETE MACHINES, SINCE IN THAT WAY THEY COULD GET A MACHINE CHEAPER THAN BY ORDERING IT ASSEMBLED. People are not compelled to buy machinery; they are compelled to buy repairs. The Aermotor Company owns in this respect genuine economy in first cost. Not only has the Aermotor Company always given the best goods at the lowest price for any article at any time, but it has now ESTABLISHED TWENTY BRANCH HOUSES IN VARIOUS PARTS OF THE COUNTRY IN ORDER TO GOODS EASILY ACCESSIBLE, BUT TO HAVE ITS REPAIRS WITHIN EASY REACH. It cuts from [illegible] to [illegible] per cent. this item alone. The owner of the greatest [illegible] is the one who [illegible] machinery. [illegible] Accidents will happen, and when he is buying an article he had at reasonable cost. Our very low prices and high standards in everything connected with water supply and power production by wind, together with the accessibility of a full line of our goods and repairs, will be appreciated. Aermotor Co., Chicago.

Don't be the Axe!

Just keep in mind that the grocer or the peddler has "an axe to grind" when he tells you that he has something "as good as" or "the same as" Pearline. There can be but one reason—more profit to him by your use of the substitutes.

But how is it with you? What reason can you have for wanting to take the risk? Certainly not economy—Pearline leads to the greatest economy in every direction—saves the most money, time, clothes and health. If your grocer sends you an imitation, be honest—send it back. 286 JAMES PYLE, N. Y.
