

# Is Your Blood Pure

It is, you will be strong, vigorous, full of life and ambition; you will have a good appetite and good digestion; strong nerves, and sleep.

How many people are suffering daily from the consequences of impure blood, scrofula, salt rheum, rheumatism, catarrh, nervousness, sleeplessness and

**That Tired Feeling.**  
Wood's Sarsaparilla purifies, vitalizes and cleanses the blood. Therefore, it is the medicine for you.

It will give you pure, rich, red blood and strong nerves.

It will overcome that tired feeling, create an appetite, give refreshing sleep and make you strong.

**Wood's Sarsaparilla**  
Is the Only True Blood Purifier

Prominently in the public eye today.

**Wood's Pills** (the after-dinner pill and family cathartic.)

To Cleanse the System  
Effectually yet gently, when constive or bilious, when the blood is impure or sluggish, to permanently cure habitual constipation, to awaken the kidneys and liver to a healthy activity, to soothe irritating or weakening tones, to disperse headaches, colds or fevers, use Syrup of

Life used "MORNING'S FRIEND" before first use—was quickly relieved; suffered but little; recovery rapid. E. E. JOHNSON, Eau Claire, Wis.

**Dangers in Hot-Water Bottles.**  
Many are the blessings of the hot water bottle, it must not be forgotten that it is also a source of some danger.

Always see that the stopper is absolutely tight and never use it without a thick cover. Many a painful burn has been caused, especially to an unconscious patient or to an old person. In old age, circulation being weaker, the vital-heat becomes low. A thick cover will keep the water warm longer as well as guard against burns. Filling the bag full will also cause the heat to be retained for a longer time, but will not be so comfortable as when half full. When not in use, the bag should be emptied.

**LOOK OUT FOR BREAKERS AHEAD**  
When pimples, eruptions, boils, and like manifestations of impure blood appear. They wouldn't appear if your blood were pure and your system in the right condition.

They show you what you need—a good blood-purifier; that's what you get when you take Dr. Pierce's Golden Medical Discovery.

It carries health with it. All Blood, Skin and Scalp Diseases, from a common eruption, to the worst blotch, are cured by it. It invigorates the liver and rouses every organ into active action. In the most stubborn cases of Skin Diseases, such as Salt-rheum, Eczema, Tetter, Erysipelas, Boils and all ailments, and Scrofula, it is an equal remedy.

P. N. U. 22  
The Greatest Medical Discovery of the Age.

**KENNEDY'S Medical Discovery.**

W. H. KENNEDY, OF ROXBURY, MASS., discovered in one of our common ailments a remedy that cures every case of Humors, from the worst Scrofula to a common pimple.

He has tried it in over eleven hundred cases, and never failed except in two cases (thunder humors). He has now in his possession over two hundred certificates of its value, all within twenty miles of his office. Send postal card for book.

It is always experienced from the bottle, and a perfect cure is warranted if the right quantity is taken.

When the lungs are affected it causes coughing, like needles passing through them; the same with the Liver works. This is caused by the ducts being stopped, and always disappears in a few days after taking it. Read the label. The stomach is foul or bilious it will cause squeaking feelings at first, a change of diet ever necessary. Eat what you can get, and enough of it. One tablespoonful in water at bedtime. Sold by all Druggists.

**RHEUMATIC**  
The "Schwabe's" \$1,000,000 Rheumatism Cure, the best cure for Rheumatism and Neuralgia. Cured Isaac George, of Lansing, Mich., of Sci. Am. 18 yrs. standing. Never fails. Cured 25,000 people. Refer to Mrs. Mary M. Schwan, of C. Mrs. Rob. Sarsaparilla, Mrs. W. O'Sell, 100 Pearl St., Buffalo, N. Y.; Mrs. J. H. Wood, Mutual Life Building, N. Y. City; J. H. Wood, 100 Pearl St., Buffalo, N. Y. Secret cost \$1,000,000. Highest reference to SWANSON CO., 107 W. 34th St., Chicago.

For an announcement in NEXT issue of this paper, it will show a cut of 1 style of **SCREAM SEPARATORS** which will give details about these several styles of separators. Write to RANKIN BLDG. AND MFG. CO., 100 Manufacturers, Chicago.

## U. P. GENERAL ASSEMBLY.

### 37TH SESSION.

#### Ecme of the Prominent Members of the Assembly.

The thirty-seventh General Assembly of the United Presbyterian church met in the Sixth church, North Highland avenue, Pittsburgh, Wednesday evening. There was a large attendance of delegates. Every possible preparation for the entertainment of the delegates was completed early in the week and the United Presbyterians of the city are ready to reap some enjoyment from the meeting.

An immense audience was present at the opening exercises. Promptly at the hour appointed the gavel of the moderator fell and the house was in order.

The opening prayer was delivered by Prof. John A. Wilson, D. D., the retiring moderator.

Dr. Wilson took his text from Solomon's song, viii, 25, "Who is this that cometh up from the wilderness leaning upon the arm of her beloved?" His subject was "The Church and her Beloved." He said:

This is but our thirty-seventh General assembly. Yet how great is the progress of that single generation! Verily, our church has been "coming up out of the wilderness." And because she has gone forward, she has been preserved and prospered. But what of the future? The conditions of success will continue the same. If we go forward, devoting more and more liberal and aggressive measures, then shall our light rise in obscurity and our darkness be as the noonday.

Much progress has been made. For this let us be thankful. But let us remember that all has not been done. The way and the work still stretch out before us. Many enemies must yet be met. Some of Israel's battles were fought in sight of the promised land. Let us be optimistic, hopeful, trustful, grateful men, but let us not shut our eyes to the condition and the signs of the times.

The Assembly clerks are prominent figures in the convention. Rev. William J. Reid, D. D., the principal clerk of the assembly, is pastor of the First church, Pittsburgh, and is now in the thirty-fourth year of his pastorate. His labors have not been confined to his own congregation. He has done his share of general church work. He has been for 20 years principal clerk of the General Assembly and for nearly eight years editor of the United Presbyterian.

Alexander Gillilan Wallace, D. D., second clerk of the assembly, was born near Bridgeville, Allegheny county, Pennsylvania, May 2, 1829. He graduated at Jefferson college in 1849 after which he studied theology in Allegheny. He was licensed by Monongahela presbytery in 1852, and ordained by Blairsville in 1854. He at once took the pastorate of two churches, one at McKeesport, Allegheny county, and the other at Bethel, Westmoreland county. He remained with the church at Bethel until 1857, and with that at Bethel until 1868, when he left to take charge of the church at New Brighton, Beaver county. He was elected second clerk of the General Assembly in 1868, and has held that office ever since.

The assembly elected Dr. J. A. McDougall moderator of the First church, Pittsburgh, and then took no time in getting down to business. The question of assembly control of the theological seminaries came for discussion.

The reports of the boards show a gratifying degree of prosperity in the whole work of the church. In the United Presbyterian perhaps less than in any other, has the financial stringency been felt. Promptness and faithfulness in meeting all financial demands has always been a characteristic of this church.

The reception of fraternal delegates from the Presbyterian general assembly was a pleasant feature of the afternoon's proceedings. Dr. H. H. Jessup, the wit of the assembly to which he belongs, and an honored worker in the foreign field, coupled with Gen. Beaver, made a strong delegation, and they in turn were warmly received. It is evident that the relation between these churches is growing closer year by year.

A most interesting feature of Friday's session was the appearance on the floor of Rev. A. G. Carson, D. D., of Xenia, O., who arose to demand the withdrawal of Dr. Carson. He is a representative of the element in the church that diametrically opposes the employment of instrumental music. He talks fluently, and in profile bears a striking resemblance to the late Benjamin F. Butler. Dr. Carson at a previous assembly entered upon a course of protest against the decision of the assembly of 1883 authorizing the use of the organ in divine worship. This morning he said that he wished to change his protest to a sentiment of dissent. For a quarter of an hour he talked deliberately and earnestly on his views, which have not changed since his protest was recorded. He still is firm against the principle, and says that he cannot change his ideas. He had either the choice of remaining in the church and submitting to a form of worship which he could not conscientiously approve or directly withdrawing. The latter alternative left him no church to enter, and as a witness for Christ, he now wishes to remain in the United Presbyterian church, but recorded as dissenting. At length Dr. Carson dwelt on the difference between protesting and dissenting, and at the conclusion of his remarks a motion to have his change of expressed sentiment recorded in the minutes prevailed.

### TOOK A RADICAL STAND.

The Presbyterian Church Chained to Prohibition.

Temperance and communion wine occupied the attention of almost the entire Friday morning session of the Presbyterian general assembly, and between the two there were some lively discussions. The result was that for the first time on record the Presbyterian church committed itself as a body to the use of communion wine, but the "unfriendly" was expunged from the communion wine.

### Virginia Local Election

Elections were held Friday in all the counties and most of the cities of Virginia. At Portsmouth, Lynchburg, Alexandria and Lexington all went Democratic. Roanoke city elected 10 councilmen, six Democratic and four Republican, a gain of two for the Republicans. Winchester elected three Republicans and one Democrat. In some of the counties there was a free fight, and little significance is to be attached to the result.

### Southern Presbyterians.

In Dallas, Tex., at the Southern Presbyterian assembly, a fraternal message was read from the Northern General Assembly in Pittsburgh. The formation of an endowment for the home mission invalid fund of \$100,000, and the submission to synods and presbyteries of a proposition to organize an independent colored Presbyterian church were decided on.

### Crisis in Corea.

Affairs at the Korean capital are in a critical condition. The prime minister has resigned and the minister of the interior has asked the assistance of the foreign diplomat in administering affairs and preserving order. The police surround the residence of the king's father, Tai-Wan-Kun, formerly king regent, and the leader of the anti-Japanese party, and entrance to or exit from the residence is forbidden.

### Solomon H. Mann, who was shot in New York Thursday by David F. Hannagan for betraying the latter's sister, died.

## PROMINENT PEOPLE.

### The Shah of Persia will not remain at a table on which salmon or lobster is placed. Hon. Jerry Simpson, the Kansas Populist, saved fifteen thousand dollars while in Congress.

### The golden jubilee of Archbishop Williams, of Boston, was celebrated there in a magnificent manner.

### "Mark Twain" is said to have lost the greater part of his fortune in injudicious business investments.

### Lord Rosebery, physicians think every week he remains Prime Minister of England takes a year of his life.

### Gladstone has written a letter commending the movement for a reunion of the Scottish and other Presbyterian churches.

### Private Secretary Thurber is said to be one of the cleverest negotiators of dialect stories ever known in Washington.

### The Mikado has instituted an "Imperial Order of the Kite," to be a sort of Japanese equivalent of the British Victoria Cross.

### Mayor Strong, of New York City, has ordered that the American flag shall float over the City Hall whenever he is in the building.

### The Marquis of Londonderry, with the view of encouraging his tenantry, has decided to establish an agricultural show for their special benefit.

### The Parkhurst memorial subscription, opened in New York City to commemorate the reformer's success, was closed, the total being \$28,959.57.

### Dr. von Stephan, the genial and clever head of the German postal service, has just celebrated his twenty-fifth anniversary as Postmaster-General.

### T. B. Aldrich, the poet and writer, is an alert, active man of fifty. He is always fashionably dressed and wears his mustache waxed in French fashion.

### Admiral Meade, whose name was connected with an interview criticising the Administration's foreign policy, is a first cousin of General George Meade, the hero of Gettysburg.

### As soon as it was announced that Henry George had been named in the will of a wealthy English manufacturer he was besieged by callers asking aid and by begging letters.

### General Grant's grandson, Algernon Sartoris, is a youth nearly six feet tall and fair of complexion. He was born in England, but is said to prefer his mother's country to his native land.

### Miss Rose Cleveland, sister of the President, is gray-haired and has a pleasant face. She is rather stout, but her taste in dress is excellent and she is invariably attired according to the latest fashions.

### Senator Manderson, of Nebraska, has a fine collection of Indian relics at his home in Omaha, and one that time will render each year of increasing value, for our Indians and their way will soon be things of a past generation.

### Senator Vest, of Missouri, is an ardent fencer. He attends all the rug sales, art sales and auctions of fine brine-sage, and often picks up some article of vertu. His taste and judgment in such things is said to be infallible.

### James Whitcomb Riley writes very slowly and with painstaking care. "Bill" Nye, his old associate and friend, says that he dips his pencil into the paper so hard that the several sheets below form manifold copies of the original.

### General William Mahone seems to have become a permanent resident of his Southern colony in Washington. His political prestige is only a memory, and he is not the rich man he was a few years ago. But he dresses as neatly as ever, keeps up his spirits and tells entertaining stories at his favorite hotel.

### Probably no master mariner has saved so many lives as Captain Hans Duxrud, the commander of the Red Star steamship Switzerland, trading between Philadelphia and Antwerp. He has saved the lives of eighty-three persons, who were rescued from nine sinking vessels. Four gold medals have been awarded him.

### Major Heros von Boreke, who died recently in Berlin, was one of the most respected members of the staff of General J. E. B. Stuart, the Confederate cavalry leader. Von Boreke was a giant in stature, and his cavalry sword, which he presented to the State of Virginia at the close of the war, is an important relic of the ordinary man can handle only with difficulty.

### TEE NATIONAL GAME

Batting alone is winning for the Philadelphians.

Chicago is the surprise of the season in a baseball way.

Rhines, of Cincinnati, seems to be pitching in his 1890 form.

New York has declined an offer from Detroit for Murphy.

Barkett, of Cleveland, at present leads the League in batting.

Lowe, of Boston, is covering more ground this year than ever.

Hawley, of Pittsburgh, at present is the leading League pitcher.

The Pittsburg Club has signed Pitcher Weyling of Philadelphia.

## GOLD AND SILVER.

### Products of the Mines of the United States During Last Year.

According to the director of the mint the United States last year produced 1,910,000 ounces of gold of the coinage value of \$39,500,000. This is the largest production for sixteen years. The silver product was 40,300,000 ounces of the coinage value of \$64,000,000. This output was 10,500,000 ounces less than in 1893. The gold production of California was \$13,570,000, Colorado \$9,430,000, Montana \$3,650,000 and South Dakota \$3,300,000. Colorado was first in silver, with a product worth \$30,100,000. Montana second with \$16,575,000 and Utah third with \$7,617,000. At the average price of silver during 1894 the commercial value of the total production was \$31,432,000.

During the year 1894 Australian mines produced \$11,000,000 worth of gold and the entire gold production of the world was \$21,000,000 more than during 1893. The world's silver production during 1894 was 139,000,000 ounces.

### EFFECTS OF THE FROST.

### Michigan Small Fruits Nearly All Killed.

The weather bureau crop review for the week ending May 20 says: "The damage done to the grape crop from frost has been especially heavy in New York and Pennsylvania, and fruits generally have suffered in all northern and central districts. Corn has suffered seriously, much replanting will be necessary, and where not injured by frost its growth has been checked and the plant yielded. Spring wheat is reported as in excellent condition in Michigan, but not being unfavorably affected in North Dakota. Winter wheat has suffered injury from frost in Indiana and Missouri; in Illinois the crop is less promising than heretofore, and no improvement has been experienced in Kansas and Nebraska, more satisfactory reports are, however, received from Arkansas, Tennessee and Michigan."

Dispatches from Western Michigan declare that the destruction of grapes, strawberries and tender vegetables was almost wholly completed in many sections by Monday night's frost and damage to farmers and fruit growers has become enormous.

### BATTLE IN GUIANA.

### Claah Between Frenchmen and Brazilians.

The governor of French Guiana cables to the French government that, as a consequence of Brazilian free-booters capturing a French sealer named Trajane, and robbing other Frenchmen on the frontier territory between French Guiana and Brazil, the governor has dispatched a dispatch boat with marines to restore order.

M. Lunier, captain of the marines, with only two men, took a flag of truce to demand the surrender of Trajane. Cabral, the leader of the free-booters, treacherously fired upon M. Lunier. A fierce conflict ensued, the marines coming to the assistance of the Frenchmen. In two hours' fighting Cabral lost over sixty killed, including himself, and the French five killed, including Lunier and twenty wounded. It is feared that this encounter will lead to a trouble with Brazil, the cause of conflict being in the debatable territory between the two countries.

### FOURTEEN MEN KILLED.

### Terrific Explosion of Nitro-Glycerine Near San Francisco.

A terrific report and concussion which was distinctly felt all through San Francisco and towns around the bay for a distance of 40 miles Tuesday was at first believed to have been caused by an earthquake, but proved to be an explosion in the nitro-glycerine and mixing houses of the California powder works at Pinole, across the bay. It was probably caused by one of the Chinese dropping a can of the explosive. A remarkable feature of the explosion is that although the store house containing 1,000 pounds of hercules powder is completely wrecked, its contents are intact. In all, 10,000 pounds of explosives went up with a roar and a sheet of flame. The killed are as follows: Clarence Johnson, foreman mixing house; D. A. Donnan, of Pinole; M. Minahan, of Oakland; C. Velasco, of Martinez; W. D. Taylor, foreman mixing house; nine Chinese.

### DOUBLE LYNCHING.

### Gov. Altgeld's Free Pardoning of Criminals Responsible for it.

William Royce and John Halls, charged with assaulting Laura Burnett, daughter of a farmer, were taken from jail at Danville, Ill., and lynched by a body of farmers. Sheriff Thompson, his wife and Circuit Judge Bookwater appealed to the lynchers to turn them from their purpose, but in vain. One of the leaders said to Judge Bookwater:

The jury will convict them and they will get a heavy sentence, but Gov. Altgeld will pardon them out. He recently pardoned three brutes you sent up from Champaign county for 20 years, and he will pardon these men. If any other man but Altgeld was Governor we would not lynch these men.

Some one else shouted that he would like to be pardoned by Gov. Altgeld, too. Royce and Halls both claimed to be innocent.

### OHIO VINEYARDS.

### The Greatest Damage by the Frost in the Eastern End.

A full investigation of the damage done by the frost to the grape belt of Northern Ohio places the loss at about \$200,000. The belt extends from Ashtabula along the shore of the lakes.

At the eastern extremity of the belt the vineyard is connected with a total failure this season, except at the crest of a ridge which extends westward to Cleveland. As Cleveland is approached from the east the extent of the damage decreases. The vines about Sandusky and on the Lake Erie islands are not badly injured. East of Cleveland the loss is about \$150,000.

### Guatemala Apologizes.

A special dispatch from Guatemala City states: Although the castigation of Angolan American citizen, was not ordered by the Guatemalan government, the latter has answered fully and cheerfully the demands for satisfaction made by the Angolan. Ample compensation has been made by President Barrios for the punishment inflicted upon Angolan and two other Americans by the prison guard.

### In a Catholic Church.

Archbishop Patrick John Ryan spoke words of patriotism Sunday afternoon that stirred a congregation filling every foot of space in the Philadelphia cathedral. The pulpit from which the eloquent prelate spoke was draped with the stars and stripes, and the carved canopy above his head supported two American flags. For the first time a post of the Grand Army of the Republic attended divine services in an organization in a Catholic church in Pennsylvania. This distinction fell on Naval Post, No. 402, and comrades from other posts swelled the number of veterans who marched into the cathedral to over 500.

### Formosa a Republic.

Formosa has declared itself a republic, the flag being a yellow dragon on a blue ground. The governor, Chang Ting Sung, is made president and has so notified the foreign representatives. Great excitement has been caused by a report that the Russians have occupied Kirin, Manchuria, thus cutting off the retreat of a large force of Japanese troops.

## A LIVING SHADOW.

### REMARKABLE TRANSFORMATION OF A NORTH CAROLINA MAN.

Strange, but True, Story From the Lumber Regions of a Southern State—Verified by Personal Investigation.

(From the Greenville, N. C., Reflector.)

The following interview has just been given our reporter by Mr. G. A. Baker, the overseer at the farm of Col. Isaac A. Suggs, of Greenville, N. C. It will interest anyone who has ever had typhoid fever. Mr. Baker said in part:

"I was living in Beaufort County, and on the 23rd day of October, 1893, I was stricken down with typhoid fever. I had the best physicians to attend me and on the 13th day of January, 1894, I was allowed to get up. I was emaciated, weak and had no appetite. I could only drag along for a short distance and would be compelled to sit down and rest. This continued for some time and I began to give up hope of ever getting well. I lost my position in Beaufort County and having secured one in Pitt County, clerking in a store, I undertook it, but was so weak I could not do the work and had to give it up. The disease settled in my knees, legs and feet. I was taking first one kind of medicine and then another, but nothing did me any good. I was mighty low-spirited. I moved out to Col. Suggs' about four or five months ago and commenced taking Dr. Williams' Pink Pills. I took three a day for about three months. I began to regain my appetite in a week's time, and then my weakness began to disappear, and hope sprung up with a blessedness that is beyond all telling. At the expiration of the three months I was entirely cured and could take my axe and go in the woods and do a good day's work as any man. I was troubled with dyspepsia and that has disappeared. It is also a splendid tonic for weak people. I say, Mr. Editor, God bless Dr. Williams, may he live for long time. I know he will go up yonder to reap his reward for he has done a wonderful lot of good. Tell everybody that asks you about it that has disappeared. It is also a splendid tonic for weak people. I say, Mr. Editor, God bless Dr. Williams, may he live for long time. I know he will go up yonder to reap his reward for he has done a wonderful lot of good. Tell everybody that asks you about it that has disappeared. It is also a splendid tonic for weak people. I say, Mr. Editor, God bless Dr. Williams, may he live for long time. I know he will go up yonder to reap his reward for he has done a wonderful lot of good. Tell everybody that asks you about it that has disappeared. It is also a splendid tonic for weak people. I say, Mr. Editor, God bless Dr. Williams, may he live for long time. I know he will go up yonder to reap his reward for he has done a wonderful lot of good.
