COL. BENJ. S. LOVELL

Among the men who early felt the benefits Among the men who the track to expend money, is Colonel Ben. S. Lovell, of Boston, Treasurer of the John P. Lovell Arms Company, of that city. Their firm name has been a familiar one for over fifty years, hav-ing been established in 1840, doing a sportds and gun business. Being in a ing goods and gun business. Being in a kindred trade, it was but natural that they should engage in the making and selling of bleveles. Their success has been unbounded, as they have made a name for the Loveil Diamond Cycles that is a familiar household one in every hamlet in the land. It is not possible to have done that without cost, and a considerable one, too, as readers of current literature will admit, for have not all of us encountered the symbolic words "Loveil Diamonds?" To estimate the gross amount that has been expended for advertisamount that has been expended for advertis-ing would be a difficult task, but it is said that considerably over \$100,000 was spent by them during 1894. All the big Eastern dailies had entire pages, which cost lots of money, and the magazines filled many pages exploit-

Can it be wondered at, then, that eyeling
has become popular, when men like Colonel
Lovell spend such sums to make it so?
Colonel Lovell is Treasurer of the John P.

Lovell Arms Company, and is a man of rare bovell Arms Company, and is a man of rare business attainments, acquired by long experience and an aptitude possessed by few. In private life he has wen the respect and esteem of every one he has been brought in contact with, while his public record is equally good, on five different occasions representing his town in the Legislature, serving in both branches. in both branches. He served on the staff of Governor Long for three consecutive years, and is now a member of Governor Greenhalge's man. He has been a delegate to four National conventions, and there is not an office in the gift of his townsmen which would not be at his disposal were it not for his great business responsibilities. There is no man in the yele business more respected than Colonel nj. S. Lovell, and no better bicycle is made in the world than the Lovell Diamond.

INDEPENDENCE DAY.

IN GOOD OLD STYLE

Philladelphia Celebrates the Fourth in a Fitting Manner.

The city, of Brotherly Love, as usual, celebrated the Fourth of July in the good, old-fashioned way. The big crowd of patriotic people began the day atmidnight in front of the sacred hall where the Declaration of Independence was given to the world 119

years ago.
After the last stroke of the midnight hour from the cases, h. he tower of Independence half the ten was to sed, especially in honor of the day, first 1:0 t.m.es, one for each year of the which's sile, then rapidly one-eighty-five, for the year, and forty-nour for the num-

hve, for the year, and forty-tour for the number of states in the union.

Among the leasures of the day for which the city provided the funds, were the cup and people's regath on the Schuykill, in which some of the best crews in the country were entered, a series of swimming races in the same stream and a sporting meeting in Fairmount park. Fairmount park.

In the morning at 9 o'clock appropriate and morning at 9 o clock appropriate exercises were held at Independence hall under the auspices of the Pennsylvania Society of the Sons of the Revolution. Prayer was offered by Dr. Stevens of Christ church, in which Washington worshiped: a patriotic address was delivered by William Wayne, and lineal descendant of Anthony Wayne, and the Declaration of Independence was read by the Declaration of Independence was read by Russell Dunne, a lineal descendant of Benja-min Franklin, after which a choir of 600 voices sang "America."

PITTSBURGH.

More than 100,000 people visited Schenley ark during the day. The exercises began Park during the day. with an address by Governor Hastings follow ed by the unveiling of a monument in honor of E. M. Bigelow the promotor of the park system of the city. Various sports &c. entertained alarge part of the crowd until evening when a magnificent display of fire works ended the performances.

CHICAGO,

The joint picnic of the American Federa-tion of Labor and of the Chicago Trades and Labor assembly, at Sharpshooters park, was the leading feature of Chicago's celebration of the Fourth. In point of attendance, at least, it topped all the others, fully 20,000 people being on the grounds to listen to the addresses made by Vice-President Stevenson and Gov. McKinley of Ohio.

Thomas J. Elderkin, vice-president of the American Federation of Labor, presided over the speech making part of the program. In a few words he introduced Vice-President Stevenson, who was greeted with enthusiastic applause, and delivered a long and eloquent

Directly after the close of the vice-presi-dent's address. Mr. Elderkin introduced Gov. McKinley, who was very warmly wel-comed by the immense audience.

Independence Day was celebrated by the Independence Day was celebrated by the Tammany society in a manner commensurate with former celebrations since the founding of the Columbian order 119 years ago. There was no diminution in the enthusiasm manifested by those present, although the audience was smaller than in previous years. Ex-Gov. James E. Campbell of Ohio, and ex-Gov. Thomas M. Waller of Connecticut, were, in Tammany printings "this long talkers." in Tammany parlance, "the long taikers," while well-known men from all parts of the country delivered 'short talks.' One fea-ture of the celebration was the reading of letters from President Cleveland, Senator Hill, ex-Gov. Flower, Frederick 1l. Coudert, and other distinguished Democrats.

THE OUTLOOK IS BRIGHT. Indications of the Midsummer Reports

From All Commercial Centers. The midsummer reports from all commercial centers indicate distinctly better crop prospects than other official or commercial accounts, a marked increase in retail distribution of products, an active demand for goods and a general enlargement of the working force, with some advance in the wages of more than half a million hands. At the same time they show the rapid advance in prices has somewhat checked the buying of a few classes of products. In some parts of the country the outlook for fall trade considered bright. Comparison of prices for various iron pro-

ducts shows an advance ranging from 72.2 per cent, since February for wire nails to 7.1 per cent. for anthracite pig, and in all kinds averaging 22 per cent. The demand and rise have come so suddenly that even while the first order for shipments of steel billets to Europe, given some time ago, when prices were low, is seing announced, the price here has advanced from \$17 in April to \$22.25, or

Wool is stronger both here and abroad. Saies have been enormous though largely speculative, but exceeding those of May and

speculative, but exceeding those of May and June in any previous year. Prices of cotton goods continue to advance, and the milis are generally well employed.

Speculation has advanced cotton 3-16, though the crop news is favorable, but has depressed wheat 2 cents in spite of estimates that the crop has been materially reduced since June 1. Every year the crop reports are baving less influence, and the time is ripe for the radical change in the government estimates which the department proposes. The crop of oats is certain to be coses. The crop of oats is certain to large, and the prospects for corn have greatly improved within the last few weeks.

One Hundred People Thrown Into the River.

At Bristol, Ind., while about 300 of the population of Bristol were gathered on a bridge spanning the St. Joseph river on the 4th watching a tub race, 100 feet of the sidewalk of the bridge went down, carrying with 100 persons. The fall was about 30 feet, and the iron fell on many. The town was crazed with excitement. In a short time the victims of the accident were all removed from the water, and all the physicians throughout the surrounding country were summoned to at-tend the injured. They were cared for as well as circumstances would permit. None were killed outright, but several will die.

The Brown 'Varsity nine has elected Fultz captain for next year. New York holds the senson's error record for one game-fourteen.

The ball has got to travel pretty fast to get through Baltimore's infield. Catcher Farrell is playing a good game at third base for the New Yorks.

Pitcher Hawke's long rest is now attributed to a recently broken wrist. Reitz, of St. Louis, plays a deeper second base than any man in the League.

home. He is in a serious condition from blood poisoning, and may do little more work this senson. Pitcher Inks, of Louisville, was used as

"ringer" by the Oil City Club against New Castle in the Pennsylvania Iron and Oil League. The game has been protested. Clarke, the man who was played on the bench for the better part of two seasons by

the New York management, has been of late the main dependence of the team in the pitching department. An expert says: Boston has the strongest aggregation of ball players in the country, and nothing short of sickness or poor man-agement can keep them from taking that

pennant this season. Maul is Washington's winning pitcher. He goes in the box every fourth day, and usually manages to hold his opponents down to about six hits. Maul has won nine games and lost four so far this season.

CARL BROWNE FLUNKED.

The Ceremony on the Capitol Steps Didu't Materalize.

There was no official recognition of the Fourth in Washington, unless the service of the Marine Band in assisting at a civic ceremony could be called recognition of the day. Two additional flags floated from the dose of the capitol, giving testimony to the patriotism of the individual baving them in charge, The spectacular show which Carl Browne had advertised to take place at the main en-trance of the capitol did not materalize. It was to have been a second wedding of Mamie was to have been a second weading of sand Coxey, the late "goddess" of the "commonweal, daughter of "General" Coxey, and the mountebank end, which was to have taken place at 10 o'clock. About 200 people assembled around the central stairway, but

had their trouble for nothing. Browns and his wife failed to appear. There were not even a few "hobes" who followed the crank, Coxey, last year, on hand but there were half a dozen stalwart policemen present prepared to arrest Browne if he at-

tempted any of his foolishness. Browne and his wife managed to get into the city early in the morning, and soon affer visiting a camp of "commonwealers" that had been kept up since last summer. The program which he had laid out was to have a cond marriage ceremony performed on the capital steps in the presence of a hundred or Following so "commonwealers." Following this his wife was too read the declaration of independence, and Carl was to deliver a speech, tak-ing for his ext the motto of the now mustered out "army." "Peace on earth; good will towards men, but death to-interest on

bonds. He did not go nearer to the capitol steps than to transfer from one herdic line to an other at the northern limit of the grounds. He and his bride then went to a fourth rate hotel on Pennsylvania avenue and secured quarters. His explanation to a friend of the reason for not carrying out the program was "The cops are onto me, and I don't want to get run in." It is safe to say that had he been arrested he would have been sent to the workhouse for several months.

Ways of Guileless Druggists. 'I noticed," said the druggist to his

assistant, "that a gentleman came in with a prescription, and that you took it and gave him the stuff in about three minutes. What do you mean by that?" "It was only a little carbolic acid and water," replied the assistant. "I simply had to pour a few drachms of acid into the bottle and fill it up with water."

"Never mind if you only had to do that," the druggist declared. "Don't you know that every prescription must take at least half an hour to fill or the customer will think he isn't getting anything for his money? When a prescription for salt and water or peppermint and cough syrup is handed to you you must look at it doubtfully, as if it were very hard to make up. Then you must bring it to me, and we will both read it and shake our heads. After that you go back to the client and ask hlm if he wants it to-day. When he says he does you answer that you'll make a special effort.
