NEWS FROM WASHINGTON.

THE INDIANS WERE VICTIMS.

Official Reports Show There Was a Conspiracy Against the Bannocks.

The department of justice has received from the United States district attorney and marshal of Wyoming the official reports of their investigation into the Bannock Indian troubles made by the direction of the attorney general. The reports are dated August 23. The district-attorney for Wyoming reports as follows:

"I have no doubt whatever that the killing of the Indian Tanega on or about the 13th of July was an atrocious, outrageous and cold-blooded murder, and that it was a murder perpetrated on the part of the constable. Manbing, and his deputies in pursuance of a scheme and conspiracy on their part to prevent the Indians from exercising a right and privilege which is, in my opinion, very clear. ly guaranteed to them by the treaty before nentioned.

"should the prosecution on the part of the United States be determined upon, it would be useless to commence it before a commissioner. As the law is now, we are bound to bring prisoners before the United States Com-missioner nearest to the place of arrest, and in this case it would be before Mr. Pettigrew, commissioner at Marysvale. I am inform ed that he is thoroughly in sympathy with the so-called settlers in that region, and that he advised the constable, Manning, and his possthat the provisions of the treaty under which the Indians claim the right to hunt upon the unoccupied lands of the United States had for some reason, ceased to be operative. Hence, I think that to cause the arrest of these men and take them for hearing before this commissioner would simply result in It seems to me to be a great pity that there

is no national law which can certainly be in voked for the protection of these, our domestic subjects, weak and defenseless as they are in their right to enjoy those privileges guar anteed to them by a solemn treaty to the enforeement of which the honor of the country is pledged, and that their only protection against forciable resistance to their enjoy-ment of these rights must be found in the courts of the state wherein the juries will unquestionably look upon them as possessing no rights which a white man is bound to re-

The district-attorney has been advised that the department concurs with him in the opinion that there is no federal statue under which the offenders can be punished.

Accompanying the report of the district-attorney is a scathing arraignment of the Jack sons Hole settlers; made in a report of the United States deputy marshal who investi-gated the troubles. The deputy marshal's report says that a careful investigation of the whole affair shows that the reports made by the settlers, charging the Indians with wholsale slaughter of game for wantoness, or to secure the hides of the animals killed, has been very much exaggerated.

THE NATIONAL GAME.

Clingman is back on Pittsburg's third base. Tenney seems to be about the best catcher Boston has.

Boston has won but one extra-inning game this sr son.

The St. Louis Club has signed a new first aseman named McFadden. McPhee, of Cincinnati, now wears a glove

regularly. He had to come to it. The Boston Club has signed Pitcher Stocks

dale, recently released by Washington. . The best spurt of the season in the League has been made by Baltimore; Cleveland comes next

MeGraw, of Baltimore, has been put out of games more than any other player in the Lengue.

Lowe, of Boston, is at present playing the best game of any second baseman in the country.

Gleason will play the season out at second for Baltimore. Reitz will be used for emerbucket shops.

PROMINENT PEOPLE.

Yachting costs William K. Vanderbilt 160,000 a year.

President Diaz, of Mexico, goes out on brief duck hunt once a year.

Max Nordau began to write at twelve and was earning money with his pen at fourieen. Hohenzollern is not the family name of Emperor William, Histrue name is William Zollern.

With the exception of the King of Den-mark, Queen Victoria is the oldest reigning sovereign of Europe. George Westinghouse, patentee of the brake which lears his name, has made over \$20,000,000 from his invention.

William K. Vanderbilt has bought sixteen thoroughbred mares from Pierre Lorillard for the racing stable which he is to establish

in France, The Ameer of Afghanistan is said to be an architect of great skill and taste. He de-signs most of the public buildings in his

dominions, The Prince of Wales dislikes a dinner to be served slowly, for he is a quick enter. One heur and five minutes is his limit for a full

number of courses, Lord Rosebery says that he will never sit

for another portrait. He has done it with great weariness several times, and has never had a good one yet. John D. Rockefeller, Jr., although only twenty-one years of age, relieves his father, the Standard Oil magnate, of most of the

cares of his great business During his lifetime State Councilor Ver-mahoff, of Russia, is said to have given #5, 000,000 to charity. His funeral at Moscow was attended by more than 50,000 people.

It will surprise many people to learn that Adoph d'Ennery and Engene Cormon, joint authors of "The Two Orphans," are still liv-ing in France. Each of them is eighty-seven years of age.

In his life of Henry M. Stanley, Thomas George says that the explorer's real name is Howell Jones, and that he was worn in Isgar, in Wales, November 16, 1840. His father was a bookbinder.

Ibsen is probably the most extensively decorated man of letters living. He recently appeared at a court ball in Norway, his small figure fairly ablaze with stars, crosses, circles, collars and pendants.

Turchan Pasha, the new Turkish Minister of Foreign Affairs, is the most progressive Minister the Sultan has ever had. He was educated in France, and his wife stands by his side unveiled, at official receptions, dressed in European style.

Du Maurier is the most painstaking of writers. He says he never lets a manuscript leave him until he is perfectly satisfied with every line of it. He first wrote "Peter Ibbetson" in English, then turned it into French, then rewrote it in English.

Dr. Thomas J. Barnardo, of London, will celebrate the fiftieth anniversary of his birth this year. Thirty years ago he began the work of rescuing and training homeless boys. and his success in this work has made his name known in every part of the world.

Australia's grand old man is Sir Henry Parkes, who has played a more prominent part in that island's politics than any other man. At first sight he appears to be the oldest man alive, looking to be even more than his eighty years of age, but in reality he shares with Gladstone, the Pope and Bis-marck the art of keeping the vitality and energy of youth to a period far beyond the experience of human life.

NEWSY GLEANINGS.

Missouri has 56,421 acres planted in flax. Iowa's corn crop is six or seven times as big as last year's

It is estimated there are 40,000 bicycle riders in New York City.

There are twenty-eight people in the St. Louis jail charged with murder.

Bicycles bring in this year #400,000 in taxes to the French Government.

St. Louis is the queen of flying ocean liners, according to her trial record. Mrs. Woodard, of Ovid, Mich., celebrated

recently her 100th birthday in pretty good health The Chicago Board of Trade proposes to begin a most vigorous crusade against the Explosive Power of Nitro-Glycerin.

Whoever works with high grade explosives must take his life in his hand. Some of the accidents that have occurred in the course of the manufacture and handling of such materials are as interesting as they are shocking. Recently a man driving two horses to a wagon carrying twelve hundred pounds of nitro-glycerin met with some accident and upset his load. The team, wagon and driver were simply reduced to undiscoverable atoms. A fragment of the man's clothing, found over a mile from the scene of explosion, was all that could be traced

Bits of the horses were found miles away, and some small pieces of the wood and metal of the wagon. In the adjacent fields cattle were killed by the shock, and in towns around the country horses ran away with fright, windows were broken and buildings were shattered. Almost all of the window glass in the houses for several miles around was broken, and a hole was made in the earth tifteen feet deep, sixty feet across at the top and thirtyfive at the bottom. When such explosions occur with the entirely unconfined product, it is not difficult to imagine what might happen were this dangerous compound shut in and circumscribed by rigid bounds .-- New York Ledger.

as having belonged to a human being.

Vocal Lessons for Canaries,

To improve the singing of canary birds, care should be exercised in distributing regularly the allowance of fresh food set aside for each day. By this means, they will sing every day equally, because they will eat uniformly, and not pick the best one day and be obliged to cat the refuse the next. About two tenspoonfuls of dry food is sufficient for the daily nourishment of a canary. What is called canary seed is the favorite food, to which a small quantity of rape and hemp seed may be added. The birds should have an abundance of light, fresh air, plenty of water for drinking and bathing purposes, and free access to sand and gravel. A sprig of chickweed or a leaf of lettuce is highly relished by them. It must also be noticed whether the bird likes to sing alone or in company with others, Some canaries seem to be possessed of such whims, some liking to hear only themselves, and refusing to sing while other birds are about, while others are exactly opposite in their tastes, always appearing at their best when in company. In the latter case, such birds indulge in a harmless rivalry, and display their real powers only when such an incentive is given them.

Convincing Evidence,

No doubt you have heard the argument advanced by unbelievers to prove the Bible account of the deluge untrue. They say the ark was not of sufficient capacity to hold the animals that the Bible speaks of and the provisions necessary to their sustenance. Bishop Horne, in his introduction to the study of the Bible, answers this objection in this satisfactory way: "The ark was 300 cubits in length, fifty cubits in width and thirty cubits in hight, with three stories of floors, which would be equal to 42,413 tone burthen. A first-class man-of-war is about 2200 tons burthen, and the ark, therefore, had the capacity of eighteen such ships, and would carry 20,-000 men, with six months' provisions, besides the weight of 1800 cannon and all military stores. Can we doubt of its capacity to carry eight persons, 250 pairs of animals, fowls, etc., for one year?"-Philadelphia Times.

QUEEN OF THE WEST.

California, Where the Sun Gives Uncle Sam a Good-Night Kiss.

Glowing words of praise were uttered by Rev. E. D. Dille, of San Franisco, when he described California to the Christian Endeavorers at Boston. Said he:

"Were it not that Californians are all as modest as violets, outblushing the strawberries that grow there the year round-blushing like their world-famed fruits at praise of their own lovellness-I would tell you something of California-though had 1 the tongues of men, and even of real estate agents, you would still say when you come to us, "The half has not been told!" We have a wonderful empire out there; we have arable land enough to support a population of 30,000,000, and then our population would be less denre. than that of Europe; an empire of our own, as large as Spain-larger than the nine States of Delaware, Maine, Maryland, Massachusetts, New York, New Hampshire, New Jersey, Ohio and Rhode Island combined. Then the salubrity of our climate makes California the sanitarium, the fairer Italy of the world; its scenery is grander than any beneath European skies, and its variety of productions and climate is so wonderful as to defy even the Californian genius for exaggeration. The Sierras, those snowy bulwarks of our State, though their lower slopes are rich in gold as their crests at eve with the gold of sunset, and their farther slopes are lined with silver like those great crests at noon, yet hoard no such wealth as the soil yields in its billowing wheat fields, its clustered vineyards, its orchards and orange groves that bending with fruit more golden than that of the Hesperides. Yonder the star of the empire stops in its westward course and stands still over our young State."

Even South Africa Has the Craze.

There seems to be an extraordinary

ctaze for cycling in South Africa. A

Johannesburg paper states that cycles

are more generally used in that town

than probably any other town of sim-

flar size in the world. There are, h

adds, some 4,000 machines in use by all

classes, from the head of the mining in

dustry down to clerks and shop assist

Clements, of Phila lelphia, and Tenney, of Boston, are the only left-hunded catchers in the League.

gencies

McFariand, of Indianapolis, has been be-hind the stick in every game his team has played this year. The Bostons have evidently given up all

championship hopes. Manager Selee ion. cedes the pennant to basisimore. Washington has caused the champion Bal-timores more trouble than Boston, Philadel-

phia, New York, Pittsburg and Brooklyn. Joyce, of Washington, leads the League in home runs, Lange, of Chicago, in three-baggers, and Delchanty, of Philadelphia, in doubles.

Burkett, of Cleveland, still keeps his place at the head of the Lengue's heavy batters. He is the only player who now has an average of .400.

Young, of Cleveland, and Hawley, of Pittsburg, on the whole, have accomplished more than any other two pitchers in the National League.

The Pittsburg Club has purchased from he Nashville Club the left-handed pitcher, Moran, reported to be the best pitcher in the Southern League.

The Bostons are a changed team. Besides hitting poorly and stealing bases very little, there is no longer any team work at bat, on the bases or in the field.

The Baltimore players are the speedlest on their feet of any that ever won a League pen-nant. 20 third of their hits are made by fast sprinting to first base.

Jennings's performance of twenty chances offered and accepted at short field for Balti-more against Boston will doubtless stand unsurpassed for many moons,

An angry Boston critic remarks that all that is left of McCarthy and Duffy as ball players is their swagger. And yet only one short year ago these two owned all Boston.

Louisville appresiates Boston's discarded catcher-Warner-enough to give him an in-crease in salary. He is expected to go in every game until another good catcher can be procured.

Menefee, for whom Pittsburg paid Louisville \$3700 last fall, has not been in shape this season to pitch an entire game for his home team. He is a right-hander, and a powerful pitcher, when at himself.

The fact that Rusie, of the New Yorks, has been troubled all season with his arm is a forerunner of what may be expected here-after. The great pitcher is "aging," and with age comes susceptible muscles,

with age comes susceptible muscles. Pittsburg's new shortstop, Stuart, is five feet eleven inches tall, weighs 170 pounds, and is lithe and well built, with strong-look-ing shoulders. He is a college boy, with his "football" hair, fraternity pins, etc. Ho wears a preity souvenir emblem, given all the State College eleven for their great record last year. Stuart was full back on the team for three years. So far he has done well for Pittsburg.

Shot Dead.

James Getty, Jr., a well-known wholesale liquor dealer, of Pittsburg, was shot by Alex Hutchinson, the new manager of the Hotel Willey, Wednesday morning, and died five minutes afterward. Both men are well known in the dire of the second at the House in the city. Getty expired at the Homeo-pathic hospital, and the murderer after walk-ing aimlessly on the street for a few minutes, went to the county jail and gave himself up. The tragedy occurred at 9:30 c'clock exact-ly in the private office of Mr. Getty at his wholesale liquor house at No. 180 First ave-nue and Cherry alley. It was short a businue and Cherry alley. It was about a busi-ness matter involving the transfer of the Hotel Willey, on Sixth street.

Brigands in China are trying to make a living now by robbing folks who weren't ruined by the war.

The Government of Guatemala is in great financial difficulties. Merchants and banks refuse to make further loans.

The complaints of British shipowners that the charges for passing through the Kaiser Wilhelm Canal are too high are supported by

the shipowners of Germany. United States Consul-General DeKay in Berlin says that Louis Stern, the New York merchant who was arrested in Kissingen, Germany, has been unjustly treated.

The shipment of California wines this year is nine million gallons, valued at \$3,500,000, against seven and a third million gallons last year, up to July 31, valued at \$3,000,-000:

One-seventh of the members of the present Belehstag, or German Parilament, and one-tifth of the Senators and Deputies in the French Parilament fought in the war of 1870-71.

The Pennsylvania Horticultural Society recently laid the corner-stone of a new build-ing in Philadelphia which will be the future me of the organization. It will be a costly structure.

The Panama Canal Company has agreed to pay the Government of Colombia \$120,600 a year for military protection of property on the canal route. There will be a guard of 250 soldiers.

The United States Navy Department does not know what to do with the torpedo bonts built for the battle ships Texas and Maine. These boats have failed to make the time required for torpedo service and will not be used.

When General Campos went to Cuba he predicted that the rebellion would be put down, and he would be back in Madrid by November. Now he wants 50,000 men by November 1 in order to end the war by next Userak March.

John Wesley Hardin, the terror of the border, was shot and killed in the Aeme saloon of El Paso, Texas, by Constable John Sellman, Hardin had threatened to run Sellman out of town. The men met in the saloon and Sellman got the drop first. Hardin had a record of killing nine men.

The continuous drought is drying up the springs from which the water supply of Marion, Iowa, has been drawn. The water company has been compelled to take water from Indian River, which is wholly unfit for use. As a result, the town is suffering from an epidemic of typhoid and other malignant forms of fever.

RICH HAUL BY ROBBERS.

They Loot a Missouri Store and Escape After a Running Fight.

Three cracksmen blew open the safe in the postoffice and general store of E. E. Phillips, at Rush, Mo., and got away with the money. stamps and papers valued at \$10,000. Farmer boys attending a church discovered the robexchanged in a running fight, and Jean Aronel, one of the pursuers, was dangerously wounded. The robbers escaped, but a sheriff's pose is acouring the woods. bers and gave chase. Over 150 shots

The Salmon Crop Short,

At the beginning of this season it seemed as though the Columbia River (Oregon) salmon pack would be place nomenal; but the plethora of fine tish at the opening has been succeeded by a slackness in the run such as has never before been experienced on the river. A week ago the packing prospeets seemed to have atterly collapsed. Possibly the fish may become mare plentiful toward the close of this month, but this season's product will be comparatively small, at the best, The quality of the salmon, however,

has been remarkably good.

Got the Mother Out of the Way.

In Frankfort-on-the-Main a young woman of sixteen tell in love with one of her neighbors, but the mother of the young man offered a stout resistance to their union. The young lady denounced her intended mother inhaw for speaking disrespectfully of Emperor William. Freading on has perial toes is dangerous in Germany, so the old lady was arrested, and, pending her trial, the young man and the young woman got married. -Detroit Free Press.

A Famous Paris School,

Paris has decided to keep the Boula school, for cabinet making and art applied to industry, open in the evening. The school has thirty-four instructors and a staff of lifty-one persons, with only 100 day pupils, and has room for five times as many. It costs the city \$50,000 a year, while the furniture turned out by it sold last year for \$400.-New York Sun.

The Abstruse Tortoise,

The ways of the tortoise are always difficult to understand. They excel most animals in their tenacity of life, and can exist for long periods without food of any kind. The brain of the tortoise is small, weighing only the one-thousandth part of the whole body, and after the brain has been destroyed life still lingers in the frame. -Baltimore American.

Dr. Jerome Bonaparte Wheat, the well known dentist, who has just died in New Haven, Conn., was th first to use vulcanized rubber in dentistry.
