And the Editor Got —

Here is an obituary notice that is calorific in the extreme. Another strange thing about it is that it appeared in a reputable western newspaper. It wasn't a Missouri editor, but a Missouri printer's devil who was going through his first experience of 'making up forms.' The paper was late and the boy got his galley mixed. The first part of an obituary of an impecunious citizen had been dumped in the forms and the next handful of type came from a galley describing a recent fire. It read like this: "The pall-bearers lowered the body to the grave, and as it was consigned to the flames there were few, if any, regrets, for the old wreck had been an eyesore to the town for years. Of course there was individual loss, but that was fully covered by insurance!" The widow thinks that the editor wrote the obituary that way because the lamented partner of her joys and sorrows owed him five years' subscription.
The firm of Goss & Mattern at Troxelville was dissolved last week. The new firm will consist of David Middleswarth and David Mattern.

H. Moore and N. M. Stewart; treasurer, Geo. W. Wilson.
A resident of Snow Shoe, sold his wife to another person, for half of a silver dollar. He subsequently ruded his bargain and wanted to get his wife back; husband No. 2, wouldn't have it that way. Husband No. 1, then had husband No. 2, arrested and brought before a Justice of the Peace, where, a compromise was effected, by the first husband taking the child and the cook stove; the second husband, taking the wife, a bed and other furniture and all parties left in peace.—*Hornet.*
Dr. J. L. G. Myers, of Osceola Mills, up in Clearfield county, is the promulgator of a scheme by which he proposes to erect in his town a grand church, to be known as the Baptist national monumental church. His plan is to build a church of brownstone, every national, state and county officer to contribute a stone with their names engraven on it. He has begun with Congress and says that many Senators and members are so taken with the idea that they have taken two or more blocks of stone with their names nicely cut in the face. It is barely possible that Dr. Myers' church will be built by Congressmen alone unless the plan is enlarged.

It would be hard to imagine a more elaborate or attractive catalogue than the nineteenth edition of the Pope Manufacturing Company of Hartford, Conn., manufacturers of the famous Columbia and Hartford bicycles. It is typographically a work of the highest art of the printer and etcher. The cover is decorated in black and white with a center picture of a woodland scene and a lady and gentleman leaning on their wheels in the foreground. It is surrounded by a border of the latest and most fanciful design. The frontispiece is an exquisite little Swiss scene. It is hardly possible to attempt a description of the various illustrations which brighten and make the history of the rise and growth of the Pope Company so thoroughly entertaining. There are views of the works and offices, cuts of wheels, tires, pedals, saddles, and etchings of the most graceful character scattered throughout in the most attractive and artistic manner, making it *fin de siècle* in every respect. It is a catalogue that is well worth a place in the library of any collector, and may be obtained by calling upon the nearest Columbia agent, or it will be mailed by addressing the Publishing Department of the Pope Manufacturing Company, Hartford, Conn., and enclosing two 2-cent stamps.

Hackenbergr for Senator.

The latest thing in county politics is the announcement that W. H. Hackenbergr, the present State Senator, is again a candidate for reelection. L. T. Rohrbach, of this city, is a candidate, and there will be a battle royal for the nomination.—*Sunbury Daily.*
A Standard representative called on Senator Hackenbergr this morning and from him learned that he was "most certainly" in the Senatorial race. There was a time when Rohrbach was a little Napoleon in Northumberland county politics and would have made a mighty interesting competitor, but the death of Jno. B. Paeker and the turning down of William Rockefeller took his props away.—*Milton Standard.*

Library Note.
From S. S. McClure, Limited, 30 Lafayette Place, New York.
There is but one collection of the portraits of Lincoln that pretends to be complete, and that is the collection made by the publishers of McClure's Magazine. They have been able to secure either originals or copies of every photograph, daguerrotype, ambrotype, drawing or painting of Lincoln, so far as known, in existence. There are in this section fifty photographs, ambrotypes and daguerrotypes. The best collection of Lincoln heretofore published in any work contained ten portraits.
It is possible that the McClure's collection may be still further increased. The entire series of portraits will appear in McClure's Magazine during the current year. With the February number twenty of them will have been printed.
These portraits cover a period of about twenty years, are from original towns and cities under a great many different conditions, and are so varied, and present Lincoln under so many different aspects, that the result of the whole collection is to make Lincoln vivid and real; so that even those who never saw him can form a very accurate idea of how the living man looked and acted.
Many merchants are well aware that their customers are their best friends and take pleasure in supplying them with the best goods obtainable. As an instance we mention Perry & Cameron, prominent druggists of Flushing, Michigan. They say: "We have no hesitation in recommending Chamberlain's Cough Remedy to customers, as it is the best cough medicine we have ever sold, and always gives satisfaction." For sale at 25 and 50 cents per bottle by J. W. Sampsell, Pottsville, Pa.
