

# Nerves

Depend upon the blood for sustenance. Therefore if the blood is impure they are improperly fed and nervous prostration results. To make pure blood, take

# Hood's Sarsaparilla

The One True Blood Purifier. \$1; 6 for \$5.  
Hood's Pills cure habitual constipation. Price 25 cents.

A late official report shows that, contrary to common belief, cases of religious mania are rare in the British Isles. It also discloses the strange fact that more mental aberration is developed among the tribe of peckers than among any other class, physicians and druggists coming next. Melancholia prevails most in Ireland.

"It is always best to lie on the right side," remarked the stump speaker when he heard of the election of the man he had been advocating.

Drawn Out.

The pain of a small burn can be easily extracted by placing it near heat, which draws it out. One feels the pain going out as it were, and this illustration explains a broad principle of cure of many things. For instance, in a sprain, severe or mild, warmth by friction begins a true operation. But, first and foremost, use St. Jacobs Oil. The needed warmth and friction comes from rubbing it on. The skin and injured muscle grow soft and heated and take up the curative properties of the remedy, and it is not long before one feels the pain drawn out. Other properties are at work to strengthen and restore, and a positive cure follows like magic.

### \$400 in Prizes on Oats and Corn.

Last year we offered \$200 for the biggest yield on oats. 200 bushels Silver Mine Oats won. This year we offer \$200 more on oats, \$100 on Silver King Barley, a Barley yielding in 1895 116 bushels per acre, and \$100 on Golden Triumph, Yellow Dent Corn, the corn of your dreams!

What's Tossite and Sand Vetch and Saccharine and Lathyrus and Giant Spurry and Giant Invariant Clover and lots of such things? They'll make you rich if you plant a plenty. Catalogue tells you.

If you will, cut this out and send it with 10c, postage to the John A. Salzer Seed Co., La Crosse, Wis., you will get, free, 10 grasses and grains, including above oats, barley, corn and their mammoth catalogue. Catalogue along with.

# shake it off

The general belief among doctors is that consumption itself is very rarely inherited. But the belief is becoming stronger that the tendency to consumption is very generally transmitted from parent to child. If there has been consumption in the family, each member should take special care to prepare the system against it. Live out doors; keep the body well nourished; and treat the first indication of failing health.

## Scott's Emulsion

of Cod-liver Oil, with Hypophosphites, is a fat-producing food and nerve-tonic. Its use is followed by improved nutrition, richer blood, stronger nerves and a more healthy action of all the organs. It strengthens the power of the body to resist disease. If you have inherited a tendency to weak lungs, shake it off.

JUST AS GOOD IS NOT SCOTT'S EMULSION.

PN 4 96

# Bottlebinding.

You can't judge of the quality of a book by the binding, nor tell the contents by the title. You look for the name of the author before you buy the book. The name of Robert Louis Stevenson (for instance) on the back guarantees the inside of the book, whatever the outside may be.

There's a parallel between books and bottles. The binding, or wrapper, of a bottle is no guide to the quality of the medicine the bottle contains. The title on the bottle is no warrant for confidence in the contents. It all depends on the author's name. Never mind who made the bottle. Who made the medicine? That's the question.

Think of this when buying Sarsaparilla. It isn't the binding of the bottle or the name of the medicine that you're to go by. That's only printer's ink and paper! The question is, who made the medicine? What's the author's name? When you see Ayer's name on a Sarsaparilla bottle, that's enough. The name Ayer guarantees the best, and has done so for 50 years.

### Longfellow's "Hiawatha."

The Indian epic of "Hiawatha" took the world by surprise, writes Heskiah Butterworth in an article "How Longfellow Wrote His Best-Known Poem" in Ladies' Home Journal. Its form and its matter were for a long time mysterious. How could a Cambridge literary recluse produce such an epic? Certain critics claimed that the idea, form and magic treatment of the poem had been borrowed from a Scandinavian saga, and the implication greatly disturbed his publishers, and must have caused his sensitive spirit great pain. It partly eclipsed for a time the new star in the literary horizon on which all eyes were fixed. The criticism was disarmed; the wonder grew; a fixed star had appeared. But the mystery of the poem is simply solved. Longfellow desired to produce an epic that should be in sympathy with all that was most beautiful and noble in the vanishing Indian race. Abraham Le Fort, an Onondaga chieftain, had furnished Schoolcraft, the historian, much Indian lore and many mystic traditions, with certain Indian vocabularies, in which the musical and unmusical sounds of many words indicated their meaning. These traditions and vocabularies made the work of the poet easy. One only needs to read Schoolcraft, to whom the poet acknowledged his indebtedness, to see how this monument to the Indian race, their only great literary memorial, was built.

### In a Hot Box

"I got into a hot place once," remarked ex-Sheriff Healy, of Marin County. "In fact, it was the hottest place I ever got into in my life. When I was running an engine on the narrow-gauge road I noticed a leak at the soft plug in the crown sheet of my engine. It kept getting worse, so I decided to plug it.

"That night I raked the fire, and, when the fire box cooled off a little, crawled in and examined the leak. I measured the hole carefully, and, after trying the calipers on a rat-tail file, I had concluded that it was just the thing. I would drive it in and break it off.

"I put the end of the file in the hole, hit it a crack with the hammer, and, instead of sticking, it went clear through. The next minute boiling hot water was pouring down on me from the boiler.

"The fire box was only about four feet square and the soft plug was right in the center over my head, so I could not get close enough into any of the corners without getting my legs scalded. I am pretty large, and the door of the fire box was small, but I had to get out or get scalded. I turned my back to the hot water, and by the time I wiggled out the door I was the hottest man on the coast. When I pulled off my clothes I took about eight square inches of skin with them. Since then I draw the water before I do any plugging."—San Francisco Post.

### He Expressed His Opinion.

One of the most prominent physicians in Washington owns a farm somewhere in New England, and whenever he gets unbearably tired of his fashionable patients in town he goes there, puts on his oldest clothes, lays in a stack of corn-cob pipes and rusticates. One day last summer he was joggling lazily along a country road in a rickety old cart drawn by a horse almost as rickety. A countryman walking on the same road asked for a lift and the two fell into conversation.

"Who are you working for?" asked the countryman.

"Oh, I'm working for Dr. J., down there," answered the physician.

"What do you do?"

"Oh," went on the doctor, "I do everything for him. I take care of him, you know. I dress him and I feed him, and I even wash his face and put him to bed. I do everything he needs done."

"How much do you get for it?" asked the native.

"My board and clothes."

"An' you do all that for him—wash him, an' dress him, an' feed him, an' all that?"

"Yes."

The countryman looked at the doctor a moment in silence. Then he leaped over the wheel and spat solemnly.

"Well, of all the dern fools I ever see," was all he said.—Washington Post.

### Hours and Wages.

Since fifty years ago there has been here, as well as in England, a great reduction in the hours of labor. But this was not accomplished for the pleasure of the wage earners; it was accomplished because experience proved that after

### INDUSTRIAL ITEMS.

#### Interesting News for Workmen—Magnets for Lifting Purposes.

An interesting use of magnetism is being made at the Sandcroft factory in England. At these works electric cranes are operated from the electric power and lighting circuits, together with electro-magnets, which permit the ready lifting of pieces of iron or steel weighing up to tons. The magnets are constructed for lifting purposes and are attached to a crane. One magnet takes 55 amperes at 110 volts to excite it, at which energy it will support the weight of two tons of iron or steel. A switch controls the supply of current delivered to the magnet. By the use of this magnet or crane, three men do the work in one quarter of an hour which previously took six men one hour and a half to perform.

### LABOR NOTES.

#### Electricity has invaded the farm.

 In Halle, Germany, an electric plow has been invented. The cable to the motor is carried on a number of small trolleys running under the ground.

#### Operations commenced Monday

 at the nut and bolt factory of Plumb, Berlin & Barnard, at Tonawanda, N. Y. When in full operation they employ from 500 to 800 men.

#### It is stated that the Chilean government

 has decided to establish an electrical station, mainly with the object of familiarizing naval engineers with the principles of electrical engineering.

#### The new Whitman mill,

 located at New Bedford, Mass., will soon begin operations. The engine is nearly ready on an invoice of cotton has been shipped to the mill from Boston.

#### A reduction has been made in the wages

 of about 150 employees of the American Tin Plate Works at Elwood, Indiana. It is reported to be from 15 to 20 cents a day in amassing and dusting departments.

#### It is reported that an American engineer

 is installing a telephonic line between Lexington and Akru-yi, Poland, at an estimated cost of 100,000 kr. The telephonic conversation over the line will, it is thought, be something truly lovely, especially the part that isn't frozen.

#### It is announced that the Terra Rupta Car

 Works Company, Terra Haute, Ind., will start their work about February 1, at generally full capacity. The plant, which has been practically idle for the past four years, has in that time been enlarged and improved, and it is expected that more than 4,000 men will be employed.

#### The Whitton Cotton Mill,

 located on the Chattahoochee River, six miles from Atlanta, Ga., has been set in operation. Mrs. H. A. Whitton, of Lowell, Mass., president of the company, presided at the electric lighting and telephone installation ceremony and, among other things, declared that the telephone in operation was the only one in the industry for Georgia and giving employment to between 600 and 400 people. The installation of the mills was begun last spring. The total cost was \$2,000,000. The mills have 100,000 spindles, and are one of the largest equipment plants in the country.

### Chicago Wren.

The Democratic National Committee voted to hold the national convention at Chicago on July 7. Chicago was by only two votes, the final result, 4 Chicago, 26 St. Louis, 24 and Cleveland 1, the vote for the "big league" being cast by Senator Pshaw. Chairman Hays, and among those who voted for Chicago, are "Red" Bullard. Nearly all the eastern members vote for St. Louis, when the contest is between Chicago and St. Louis.

### Blow Up His Own House.

R. W. Steinkor, a brickmaker, residing 14 West Iowa street, Evansville, Ind., blew up his residence with powder, which he had placed in a beer keg. Immediately after he went to his state and committed suicide by shooting himself in the head. Steinkor was a prominent and wealthy citizen. No one was in the house when the explosion took place.

### Populists to Meet July 22.

The Populists in executive session at St. Louis, Mo., agreed to hold the National Convention on July 22 next.

### A Great Whistle.

Warden Sage, of Sing Sing prison, is having constructed an immense and powerful steam whistle to be used to alarm officers and citizens in case of an escape, an uprising in the prison or fire. It will also signal the beginning of work in the shops in the morning and the shutting down at night. The whistle is known as a Fitts patent twelve-foot three-barrel steam gong, and is the largest in use. It is composed of three cylindrical bells or barrels placed one above the other. These barrels are fastened to the steam conductor, which passes through them. The entire whistle is eight feet in height, and, contrary to ordinary whistles, the barrels or resonators are inverted. Each barrel has a different tone, thus producing a blended sound, without ear-splitting effects. It is asserted that under favorable atmospheric conditions the whistle can be heard at a distance of thirty miles. Even under unfavorable circumstances the alarm should be heard seven to ten miles away.

### COULD ONLY EAT PEPTONOLIDS

BUT PINK PILLS MADE IT POSSIBLE TO EAT ANYTHING.

Get Your Digestion Right and Your Health Will Take Care of Itself.

From the Star, Washington, D. C.

"Dr. Williams' Pink Pills miraculously cured me of two diseases and have otherwise done me a vast amount of good," said Mrs. E. A. Mosker, of No. 207 Third street, Southeast Washington, D. C., to a Star reporter to-day.

"For many years I was a sufferer from muscular rheumatism in its worst form, and in addition had stomach trouble to such an extent that for a long time I could eat nothing stronger than beef peptonoids. The rheumatism commenced in my back and not only extended into my left arm, almost paralyzing it from the shoulder to the elbow, but attacked my hips and limbs with such violence that it was impossible for me to go out on the street without being supported by an attendant.

"I was attended by four different physicians—not all at one time—but both the allopathic and homeopathic schools, and there were times when I was weary from my work to my feet with pain or some other kind of distress, for I tried everything of the sort that was recommended by my friends.

"During the greater part of this time my husband and son were unable to take the Williams' Pink Pills, but I steadily used them to-day.

"About two years or two and a half years ago the physician who was then attending me, and I have had none since, said to me, 'As you are weary and have no muscular rheumatism, a disease incident to old age, and you cannot be cured, I will give you some tonics for your blood, and when this prescription runs out you may get it renewed. I expect you will never see your son for me, but I will not remain all until I am cured.'"

"Of course I was much discouraged, but still I tried a noted massage treatment thoroughly, but without the slightest effect. At last my husband persuaded me to try the Pink Pills."

"I want to say that when I began taking the Pink Pills it was without the least faith in their efficacy for good or belief that they would benefit me, but simply to please my husband and son by taking something. However, I took them as directed by the makers, and at the end of the month I found to my great surprise that my blood was much better than I had no longer to subsist on beef peptonoids, but could begin to include in my meals food."

"So I told my husband that as the Pink Pills were evidently doing me good, I would try them for another month."

"I continued to use them as directed and during the second month my weight, which had been very low for a long time, began to improve, and it was most pleasant to be able to go on the street, though I still had to be attended on account of my weak limbs."

"How many boxes of the Pink Pills I took I could not begin to tell, as these were periods when I would stop using them for a week at a time. But from the time I commenced until I had a comfortable walk, I consumed about fifteen months."

"Sometimes after my weight began to grow better, my memory, which had been almost ruined, began to improve. I could now remember things for a long time, returned and became as good as when I was many years younger. During the period to which I refer I had great difficulty in remembering where I had put anything, but as I said before, this trouble entirely disappeared and has never returned, while my eyesight also continues excellent."

"My long continued illness had reduced my weight from between 130 and 140 pounds to 112 pounds, but while I was taking the Pink Pills I gained thirty pounds, and I now weigh 137 pounds."

"Some of my friends freely asserted that my flesh, as they noticed my increasing weight, was not solid and predicted that I would specially lose it. Such, however, has not been the case, although I have not taken any of the pills since last December. At my rheumatism having by that time disappeared, since which time I have had no return of the dread complaint. I have been told that the disease will visit me again, but if it does, I shall again resort to the use of Dr. Williams' Pink Pills."

"With my experience with Dr. Williams' Pink Pills I have not hesitated to recommend them to others who were afflicted. My niece, who lives near Hillsboro, Loudoun County, Va., suffered for a long time with a peculiar disease of the hips and limbs. I believed the medicine which did me so much good would cure her also, and I bought three boxes of them and sent to her. She took them and was cured completely of her complaint."

Dr. Williams' Pink Pills contain all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are sold in boxes (never in loose form, by the dozen or hundred) at 50 cents a box, or six boxes for \$2.50, and may be had of all druggists or directly by mail from Dr. Williams' Medicine Co., Schenectady, N. Y.

### Catarrah Cannot be Cured

With local applications, as they cannot reach the seat of the disease, Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surface. Hall's Catarrh Cure is not a quick medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonic known, combined with the best blood purifier, acting directly on the mucous surface. The perfect combination of the two ingredients is what produces such wonderful results in curing catarrh. Send for testimonials, Prop., F. J. CHENEY & Co., Props., Toledo, O. Sold by Druggists, price 75c.

There is a power that acts within us without consulting us.

Some heating soaps turn dirty and redden. This soap does not, it does not. The Borax in it bleaches it with care, and the color is delightful. Try it once, use it always. Order a trial lot of your grocer. Insist on red wrappers.

Man spends a good deal of time searching for what he hopes he won't find.

Brown's BRONCHIAL TROCHES are a simple and convenient remedy for Bronchial Affections and Coughs. Carry them in your pocket.

Fun is of two kinds—the kind you pay for and the kind someone else pays for.

### Earliest Radishes and Peas.

The editor urges all readers to grow the earliest vegetables. They pay. Well, Salzer's seeds are bred to earliness, they grow and produce every time. None so early, so fine as Salzer's. Try his radishes, cabbages, peas, beets, cucumbers, lettuce, corn, etc. Money in it for you. Salzer is the largest grower of vegetables, farm seeds, grasses, clovers, potatoes, etc.

If you will cut this out and send to the John A. Salzer Seed Co., La Crosse, Wis., with 10c postage, you will get sample package of Early Bird Radish (ready in 16 days) and their great catalog. Catalog alone 5c postage.

Fragility is founded on the principle that all riches have limits.

### The Most Pleasant Way

Of preventing the grippe, colds, headaches and fevers is to use the liquid laxative remedy, Syrup of Figs, whenever the system needs a gentle, yet effective cleansing. To be benefited one must get the true remedy manufactured by the California Fig Syrup Co. only. For sale by all druggists in 5c. and 25c. bottles.

Good actions enable us, and we are some of our own deeds.

Every man is a volume if you know how to read him.
