Snyder County Telephone

The progressive citizens of Union county have undertaken to erect a telephone line to all important points in that county. This led to the erection of a line connecting all important places in Northumberland county. Very soon the towns in Union and Northumberland counties will be joined by telephone connections. Nearly two years ago a charter was granted to the Sunbury and Snyder County Telephone Company. The line was not put up for fear that it would not prove a paying investment. If there ever was an opportune time for putting up such a line, that time is now. The construction and operation of a line connecting the towns of Snyder county with Sunbury would practically make telephone connections with every important town in Snyder, Union and Northumberland counties. With this system of connections it would be an easier matter to secure patrons in Snyder county if they know they will have the privilege of connections with so many towns. This is a matter for the stock holders in the Sunbury and Snyder county Telephone Company to consider and as they hold a charter from the state, they owe to the people the duty of erecting the line.

Leach for Chairman.

The announcement of the name of F. W. Leach for chairman of the Republican State Central Committee to succeed United States Senator Quay is everywhere greeted with approbation. It is proper that it should be so, because Mr. Leach is not only well qualified for the position, but he is doubly deserving of it. Last summer when the honor and integrity of the Republican party was assailed, Mr. Leach, rather than allow his position to be misinterpreted, resigned a \$6000 job and enlisted his services in behalf of one of the best champions of the Republican party. To Mr. Leach the victory of Senator Quay and purity in Republican politics is due.

Mr. Leach has been identified with the organization and the work of the Republican party of Pennsylvania and knows more party leaders in every county in the state than any other man in the Commonwealth. The selection of Mr. Leach as state chairman would be a small portion of the recognition due him for the noble services he rendered the party to subdue the odious Hog Combine of Philadelphia and Pittsburgh.

U. S. Senators by Popular Vote.

The Senate Committee on Privileges and Elections last week made a favorable report on the amendment to the Constitution providing for the election of United States Senators by a direct vote of the people. The report is very voluminous. Among other things it says: "In the judgment of your committee any movement that looks to the right of the people to be heard directly in the election of Senators can not but result beneficially to all concerned. The adoption of this proposed amend-

ment Replies Received by at of your con Means Committe enate into mo general response is being with the people. The prejudices now existing, which are rapidly becoming deeply and dangerously fastened upon the public mind. It will invoke a spirit of mutual forbearance and respect as between the Senate and the people, which unfortunately does not exist to that degree desirable."

"Popular opinion has," the committee says, "taken hold of the subject and the demand for this change is loud and emphatic. The belief in the public mind is rapidly gaining that proper deference is not given by the Senate of the United States to the demands and interests of the people and that is largely due to the fact that Senators do not owe their positions to the people who are permanent, but to the Legislatures, which are transient." In conclusion the Committee says: "The movement of the people in the interest of the people on this, as on other questions, is stalwart and universal, and the sooner this great fact is recognized by the representatives of the people, the better."

The views of the committee are in harmony with what we have always maintained that U. S. Senators should be elected by a direct vote of the people. The Senate is too far away from the people; it is too far above the people; it is aristocratic rather than democratic. Even when the Senate is not in session, a citizen dare not enter the sanctity (?) of the Senate Chamber; he dare not even pollute the adjoining corridors with his odious presence. Servants are employed to guard every door lest some honest citizen might catch a glimpse of the interior of the Senate Chamber. Is this American?

God speed the day when the Senate of the United States will be conducted upon a different basis. Why is it necessary for the Senate to use the people's money to prevent the people, the body and soul of the government, from even looking into the Senate Chamber when these plutocrats have vacated their seats? This is the system now enforced about the U. S. Capitol. It is not in harmony with American ideas. It is not in harmony with a government "by the people, for the people." The Senate, under the present system, is getting farther away from the people and in the hands of 65,000,000 liberty loving people, we call for a change in the constitution. Let the people have their say and the government is in safety.

While this change is under consideration, there is nothing to prevent the expression of popular opinion upon the question of the selection of a U. S. Senator as a successor to Senator Cameron. Most primary elections this year are held too early to submit the choice of a U. S. Senator and hence representatives to the lower house and State Senators have been and will be nominated practically without instructions upon the all important question of representation in the U. S. State Senate. It would certainly be a wise policy for each and every county to express their choice for U. S. Senator at a special primary election and in this way practically instruct the representatives and under the prevailing system this is the only way to obtain the correct expression of popular will and we believe that later in the season Snyder county should have such an election.
