Your Boy Won't Live a Month.
So Mr. Gilman Brown, of 34 Mill St., South Garden, Mass., was told by the doctors. His son had Lung trouble, following Typhoid Malaria, and he spent three hundred and seventy-five dollars with doctors, who finally gave him up, saying: "Your boy won't live a month." He tried Dr. King's New Discovery and a few bottles restored him to health and enabled him to go to work a perfectly well man. He says he owes his present good health to use of Dr. King's New Discovery, and knows it to be the best in the world for Lung trouble. In the Front Rank.
The Pittsburg Times of May 23, 1896, says of the Bloomsburg State Normal School:
"Since the opening of the school, 28 years ago, it has stood in the front rank as an institution of learning, has advanced and improved with the times and enjoys a reputation among the leading educators as a model institution, where a complete education can be secured at a small cost."

The National Educator of March 14, 1896, says of the same School:
"The growth and prosperity of the schools have been phenomenal. We will briefly enumerate some of the material changes. New furniture came first, then the beautiful auditorium was modeled. Next the large four-story Dormitory and gymnasium were built. Electric lights, the new Library, the Elevator and the employees Dormitory and Saltatorium soon followed. The new Athletic field is another remarkable feature of this growth. In short, the school has grown so wonderfully that those who have not visited it in five years would be astonished to see the transformation."

The New Catalogue of this School can be had by addressing the principal, Dr. J. P. Welsh. It is finely illustrated, and has much valuable information for all interested in education. Hundreds of men and women in all parts of the U. S. owe their success and prosperity to the fact that they were educated at this excellent School. The graduates are found in thirty-one states, territories and in several foreign countries. Under-graduates, or those who sit here have been over ten thousand, and are still more widely distributed. The roll of students for the past year represents twelve different states.

All these facts prove that the public are finding out where the most and best education for the least money.
The Fall term opens Tuesday, September 1st.
Since 1878 there have been nine epidemics of dysentery in different parts of the country in which Chamberlain's Colic, Cholera and Diarrhoea Remedy was used with perfect success. Dysentery, when epidemic, is almost as severe and dangerous as Asiatic cholera. Heretofore the best effects of the most skilled physicians have failed to check its ravages, this remedy, however, has cured the most malignant cases, both of children and adults, and under the most trying conditions, which proves it to be the best medicine in the world for bowel complaints. For sale by all Druggists.

MASS OF ULCERS
Four years ago, Mrs. Markham, of First St., Albany, N. Y., suffered from a mass of ulcers, which had eaten their way to the bone. She used

DR. DAVID KENNEDY'S FAVORITE REMEDY
and the ulcers all healed up, and but a few scars left to show what she had suffered.

Cancer of the Face.

Mrs. Laura E. Mims, of Smithville, Ga., says: "A small pimple of a strawberry color appeared on my cheek; it soon began to grow rapidly, notwithstanding all efforts to check it. My eye became terribly inflamed, and was so swollen that for quite a while I could not see. The doctors said I had Cancer of the most malignant type, and after exhausting their efforts without doing me any good, they gave up the case as hopeless. When informed that my father had died from the same disease, they said I must die, as hereditary Cancer was incurable. At this crisis, I was advised to try S.S.S., and in a short while the Cancer began to discharge and continued to do so for three months, then it began to heal. I continued the medicine a while longer until the Cancer disappeared entirely. This was several years ago and there has been no return of the disease."
