The Gazette is in bad shape. Our debtors won't pay, we have worn our clothes until they are old and pulled our belt in heu of square meats until now we hardly know our stomach from our back bone. We dances over the great sheet of Delaware Bay and along the glorious curve of the shore from Sand Point to "The Cedars" and beyond. Old people who require medicine to regulate the bowels and kidneys will find the true remedy in Electric Bitters. This medicine does not stimulate and contains no whiskey nor other intoxicant, but acts as a tonic and alterative. It acts mildly on the stomach and bowels, adding strength and giving tone to the organs, thereby aiding Nature in the performance of the functions. Electric Bitters is an excellent appetizer

by physicians.

After the birth of my babe I was very miserable. I had a drawing pain in the lower part of my bowels, no strength, and a terrible backache. Every day I failed. My husband said if I would try a bottle of your Vegetable Compound, he would get it for me. The change was wonderful. After I had taken the first half bottle I began to have great faith in it. When I had taken three bottles, I was well and growing stout. It is a pleasure for me to write this to you. I only ask women in any way afflicted with female troubles to try it."-Mrs. ANNA IVOR, Pittsford Mills, Rutland Co., Vt.

The Growth of the National Idea. No more important question could

be discussed in American circles,

than the progress of the national idea upon this continent. This, of course, will involve the late civil conflict, which sealed the bond of the Union between the North and South. The growth of the national borders of our country, a bulwark of national power and independence. Almost every event and circumstance connected with the history of our country, had its mission to per form in advancing the growth of the national idea. The present constitution and laws are of the footprints of colonial times. Before the adoption of the constitution, each state exercised peculiar powers though none was really severeign. The Continental Congress had only advisory powers, and no authority to enforce its acts. It could lay tariffs and assess duties upon the states. but it had no nower to collect the same. Some states paid their apportionment and some did not. Congress

The national idea was much re-tarded by being constantly con-fronted with the odious claims of state rights. "Squatter Sovereign-ty" was every day striking severer forces came in rapidly upon the advocates of national jurisdiction.

The tide of ruin, once started opened its flood gates and spread broadcast the cdious waters of secession, submerging as many acres as its wide extent could touch. The lines, once broken, the heat of the conflict began to increase; the deep roar of the cannon was thundering on all

The result of this crisis must establish the foundation for national power, or destroy its foot-hold on the American continent, and might even effect its entire abolition from the face of the globe. Fortunately, for the liberties of our nation, the former prevailed.

Through the intervention of the Civil War, the national idea became a living and a lasting reality. By means of it, the uncertain powers of the united forces of the nation as-serted their dominion. The war proved that the United States could maintain the power and fully established the national idea upon this continent. It unified the differences between the North and the South and sealed the bond of the Union with the blood of the truest patriots.
