A GITY WIPED OUT BY FLAMES.

DISASTERS IN JAPAN.

Earthquake and Floods Make Wreck and Ruin.

The city of Kobe, Japan, was wiped out by a disastrous confingration on August 26, and floods and storms and earthquakes caused the loss of 2,500 lives and the destruction of millions of dollars' worth of property in Northern Japan. The steamer Dorie, from the Orient, brought news of a series of catastrophes that have befallen the mikado's realm that are unprecedented in its history. In Gifu prefecture, 4,300 homes were blown down, and along the Haji-Gawa 400 persons lost their lives. The severest storm occurred on August 30. Along the Isatsugawa 84 lives were lost.

The great flood was preceded by severe earthquakes. Then followed a downpour such as has never before been experienced in the islands. The European residents were panic stricken and sought shelter on the high lands. The Mintogatwa overflowed its banks at midnight of the 20th inst., and the waters inundated streets and fields, sweeping away 200 houses and drowning 200 persons at Robe. After twelve hours work the broken ombankments were repaired by sand bags. To make the fate of Kobe worse, a fire broke out late in the evening and fanned by the high wind, spread over the entire city. One thousand, nine hundred blocks, including 2,269 houses and twelve go-downs were destroyed totally and ten husses, two police boxes, one fire brigade station, four temples and one theater. The burnt area comprises ten strotes. The total damage by fire was

ten streats. The total damage by fire' was one million yen. On September 1 in Rokugo district a ter-ribie series of earthquakes shock the coun-try. Nine people were killed there and more than forty at Hataya, Senya, Takanashi, Yokohori, Yokosawa, Nagashida, Shimzana and Fajik, where the disaster was especially great. The hills at Senja cracked. Fire broke out here and there. Waiter gushed out in many places and rumbings continue. At Obanasa cloven persons were killed. At Rokuga the people killed number more than twenty and houses overturned about 1,066. Iwenty and] ouses overturned about 1,080. A ferryboat at Hianma capsized and twenty Japanese and whites lost their lives,

ARRIVAL OF THE CZAR.

Received at Leith With All the Honors England Could Bestow.

The Czar and Czarina arrived at Leith Sectiond, Soptember 22, and were received with all the honors that could possibly be

shown them. The only feature which marred, the feative ities was fac fact that the presentions which have been taken for the safety of the royal party are so extraordinary that they were

party are so extraordinary that they were continually noticeable and kept constantly present a sense of impending danger. After the formalities here, the royal party went to Baimoral eastle, where they were received by the Queen in person. They spent the night at the Castle. The precautions taken afloat for the pro-tector of their Mainstles were intersected.

The pre-autions taken about for the pro-tection of their Majestles were unprecedent-od, it is believed, in naval annais. Picket boats, steam hunches and torpedo boats of the smaller class from the warships Majestic, Magnificent, Repulse and Resolution, each detachment commanded by a fleutenant, detachment commanded by a fleutenant, formed a complete net around the Russian imperial yacht, in order ostensibly to pro-vent the shore boats from crowding about the Standard, but in reality to prevent any possibility of an attempt to commit a dyna-mite or other outrage. The shore boats were in such vast numbers on the water that there is no doubt that the precautions taken by the

The precautions adopted ashore were equally thorough a difference of the second second more than a passing thought now to the al-leged dynamic compiracy supposed to have been discovered by Scotland Yard. On the Participae Castle ashore on the train which Tantallon Castle, ashore, on the train which was to take their majestics to Balmoral, at different places along the route, at Ballater and about Balmoral itself were picked memmost trusted members of the Czar's Nihillst detectives. Other Russian detectives were on board the Standard, and they were reinforced on landing by a picked squad of the very best Sectiand Yard detectives, who will remain attached to the Czar and Czarina's party until they leave Great Britain.

YALE YELLED. Every Time Mr. Bryan Tried to Speak His Voice Was Drowned.

Five hundred Yale students, assisted by a band of the First regiment of the National guard of Connecticut, broke up the address of William J. Bryan at New Haven, Conn., Thursday afternoon.

A platform had been erected on the historic "New Haven green," and about that plat-form, for more than an hour before the nominee arrived, from 10,000 to 15,000 people had surged to and fro. To the right of the stand the students had congregated, await-ing the arrival of Mr. Bryan. At 2,15 o'clock Mr. Bryan was driven for a contract the state Mr. Bryan was driven in a carriage through the crowd to the platform. Immediately all was confusion in front. The students broke forth in the college cheer of the frog chorus from Aristophranes, following with three long Yale's nine "Rahs," a Yale and "Me-Kinley." The crowd surged to and fro in Kinley. The crowd surged to a policemen front of the stand and a dozen policemen fought it from the platform. There were fought it from the platform. There were cheers for the nominee, but from the right of the stand the students repeatedly broke forth with their yell, and for 25 minutes it was impossible for Mr. Bryan to make him-

Joseph B. Sargent, the Democratic nomince for governor, who was to introduced Mr. Bryan, tried to quiet the yelling mob in tront, but he could not be heard ten feet In vain did Mr. Bryan attempt to re-Way. store order, but it was many minutes before anything like quiet was obtained.

Then the crowd began to surge again and the police to fight those in front, Women fainted and several persons were taken from the erowd overcome by the crush. The police used their clubs and one of their number, mounted on a spirited horse, forced the animal in front of the stand, near-ly creating a panic. Then again Mr. Bryan tried to speak, but he was interrupted, by the yails of the students. This lasted altogether or 25 minutes, and when at last the noise and subsided sufficially for him to make himif heard by those immediately in front, Mr. Bryan started to speak. As he proceeded the noise gieted, but every few minutes he would be interrupted by the frog chorus, until he gave it up in disgust.

MARTIAL LAW IN LEADVILLE.

The Citizens Have Lost Confidence in Local

Authority.

At a meeting of the citizens' committee of Loadville, Col., it was decided to make a rejuest through the militia to Gov. MeIntyre declare martial law. Adjt.-Gen. Moses conversed with the governor over the tele-phone relative to this demand. phone relative to this demand. The citizens of Lendville have lost con-fidence in the sheriff and his deputies, in the mayor and the board of aldermen, and even in the civil courts. They declare that no punishment is dealt out to offenders, as numerous recent events show, and they be-lieve the only way to suppress the desperate characters of the minors' union is through martial law and martial courts. Gov. McIntyre sent a telegram of instruc-

Gov, McIntyre sent a telegram of instruc-tion to Gen. Brooks, at Leadville, giving that officer full power to act as his representative in suppressing riot in that city or district. Gen. Brooks is specifically instructed to permit no interference from any source what-ever, and to act with or without the co-operation of the local authorities as he may deem This gives the military all the instruc-WING tions they need, and practically places the camp under martial law, so far as is required to compet the sheriff to do his duty.

IT CANNOT BE STOPPED.

Importations of Gold From Europe Will

Keep Up.

Representative foreign banking houses stimate that of the first \$15,000,000 in gold imported in the movement to this country, about \$10,000,000 was shipped against steriing loans and about \$5,000,000 against com-mercial bills. Of the balance of the \$40,000,-000 or thereabouts, engaged in all to date, \$25,000,000 was drawn against commercial bills. It is still believed that the efflux of gold from Europe to the United States can only be temporarily, if at all, interrupted, A number of the sterling loans mature next

SOME IMPROVEMENT IN BUSINESS. **DUN'S REVIEW.**

The Inflow of Gold Gives Tone To Trade.

R. G. Dun & Co.'s review of trade asys: A very moderate and yet distinct improvement is seen, no longer only in the buying of materials, which continues and stiffens prices, but also in orders for products of some industries in money markets, and in exdorts of staples. It is as yet little more than a step toward better things, but has al-ready started some important works and prompted a few cansiderable contracts. Continuing arrivals of gold have raised the trens-ury reserve above \$125,000,000, strengthening the banks and relaxing the stringency in commercial leans, so that at about 1 per cent ower rates more business was done than in three previous weeks. Hoarding is no longer reported, but some hoards are being unlock-ed. The movement of erons continue lock-The movement of crops continues large ed. The movement of crops continues large, and purchases for exports have advanced prices or prevented depression. While the gain in working force is not great, it seems clear that for the first time in many months

there is some net gain. An important change is the general ad-

An important change is the general ad-vance in produce markets, especially in wheat, which rose sharply on Thursday and Friday, closing 51cc higher for the week, with much buying, apparently on foreign account. Reports of the crops abroad were supposed to be the chief cause, as visible sup-plies in this country increased inrgely, but for the first time since like 1 westers to or the first time since July 1 western re-cepts feil below those of the same week last cenr. They are still large, and for the first juarter of the crop year thus far have been 2,721,158 bushels, against 40,414,351 last year, a gain of about 30 per cent and it is concel-vable, but cannot be considered quite pro-bable that such receipts have come from a erop smaller than last year's, although prices average 10 jc lower in July and 6.86 lower in August than last year's in september because of the sharp decline then, and as much advance now

Cotton advanced an eighth a week ago, but lost three-sixteenths, and with full re-celpts might have gone farther, but for the resumation of work by several important mills. Speculative buying of wool does not abate, sales for four weeks having Leen 24,-854,400 pounds against 23,758,970 pounds inst year, and 31,021,000 pounds in 1892, but no gain in prices results. The sales are largely for each and by holders who have maturing notes to meet, though some have been for export in spite of a decline of 5 per cent in the London opening. A few of the woolon mills are resuming, the belated dewoord mins are resuming, the beated de-mand for heavy goods constituting most of the gain visible, but manufacturers show confidence that more goods will be wanted when the future is more clear. Finished products of iron meet more inquiry.

COLLEGE IN FLAMES.

Mount Holycke College for Women De-

stroyed by Fire.

Mount Holyoke college at South Hadley, Mass., the pioneer institution for the higher ducation of women, received a severe blow sunday in the burning of the main building with a probable loss of over \$150,000. The buildings have cost over \$300,000, and could Fortunately none of the 400 students or faculty was injured, there being ample time for their escape with part of their personal effoots.

It is supposed that the fire originated in the laundry from an overheated steampipe, as no one had been in the laundry during the day, nor hdd there been a fire there. The building and its contents were insured

A. T. Williston, of Northampton, treasurer of the institution, says that steps will be taken toward rebuilding. Instead of having one large structure, it is probable that the modern style of cottage dormitories will be adopted, each cottage costing about \$25,000 to #35,000, and accommodating 50 stu A new gymnasium will probably be built what after the plan of the one at Northfield Seminary, which cost about \$35,000, and there will also have to be a chapel build-ing, which may cost almost any amount up to \$100,000.

EUROPE'S WAR CLOUD. Germany Denies Being the Special Pro-

tector of the Sultan. The Turkish question is still the upper-

most one in European politics. In opposition to the statement that Germany is the power that is most prominently defending the Sultan, the foreign office has issued a statement that complete harmony exists among the powers, but that communications are passing between the European govern-ments as to what should be done in the event of further bloodshed at Constantinople. It is reported from London that Lord Salisbury is determined upon the deposal of Salisbury is determined upon the deposal of the Sultan or the administration of the Turkish government through the council of embassadors, which would be equivalent to a European protectorate. Another an-nouncement from London is that Lord Wolsley had advised the chiefs of the ad-miraty that it would be easy for a fleet to force the passage of the Dardanells, silene-ing the fire of the Turkish forts, but that it would require 40 000 troops to occupy Con-stantinopie and prevent a reign of anarchy. The German newspapers do not speak fa-The German newspapers do not speak facorably of Mr. Gladstone's anti-Turkish al-lrees, most of them considering that it may end to a renewal of the massacres. The North German Gazette says that Mr. Glad-stone threatens the Sultan and at the same time confesses that his threats could not be followed by action.

TWO LIVES WERE TAKEN.

Double Murder the Sequel to West Virginia Political Debate.

Word has just been received from Gray, Mingo county, W. Va., of a double killing near that place early Sunday morning as the

result of a political joint debate. There was a joint debate Saturday night at a country school house between two local orators, and the attendance of members of both parties was numerous. After the dis-cussion, which was conducted in an orderly manner, a party of Democrats, among whom was Dr. F. L. Estep, and a party of Republi-cans, which included John Roberts, started for home by the same read

two parties taunted each other till The finally they got into a fight. Stones and clubs were used by both sides. Finally Es-

clubs were used by both sides. Finally Es-tep drew a revolver and, firing into the erowd, killed Roberts instantly. Roberts was carried home by his companions. When King Roberts, a brother of the dead man, learned of the murder, he took his Winchester and went in pur-suit of Estep, overtaking him a few steps from his home. Roberts toid Estep he was going to kill him and fired five shots, one of which folied Estep. Estep was car-ried into his home and died in a few min-utes. Roberts made his escape over the river into Kentucky and has not been cap-tured.

SHE HAS THREE HUSBANDS.

And This Ohio Woman Now Admits Her Trio of Ventures.

Three men, two of them residing in Cleveland, have just discovered that they are posassed of the same wife, and the third man, Frank E. Dowd, of Defiance, has quietly begun sult against Mrs. G. M. Crowl, of Cleve-land. Mrs. Crowl was married July 3, 1893, to her present husband, who is a stre conductor. Sunday another husband turned up by the name of J. U. Smith, a musician. He alleges that he married the woman in 1891, and was never divorced.

Mrs. Crowl acknowledges the three husbands, but says she thought two of them were dead. Her maiden name was Eliza Ann Russell, and was afterward changed to Eberly by a second marriage of her mother. She was born and raised in Ashtabula county, O. She had children by her last two husbands. All of the husbands aver that they knew nothing of their wife's other marriages until recently, Mrs. Crowl-Dowd-Smith is a pretty, buxom woman of 25 years, vivacious and fond of society.

TIRED OF GEN. WEYLER.

LATEST NEWS FROM WASHINGTON. COLLEGE MILITARY SERVICE.

War Department Makes Improvements in Details of Military Instruction.

There will probably be some changes in the regulations relating to the detail of army officers as professors of military science and tactics at colleges.

The recommendations now before Secretary Lamont will be of special interest to Pennsylvania State college, Allegheny col-lege, at Mendville; the Chester Military college, Grove City college, Girard college and Franklin and Marshall college, at Lancaster —the colleges in Pennsylvania where army officers are stationed gratuitously by the department. The institutions are to be classified in the

order of merit, and it will probably be stipu-lated as one of the conditions of the detail that the military department be placed on the same footing as other departments, and that proficiency in the military course be made an incident of graduation and diploma. It is suggested also that a prescribed sys-em of records and books be kept by the military processors. Details to colleges may also be limited to such institutions as can show 100 cadets in the military department, as it is not considered worth while to send an officer away from his regiment for four years to give instructions to any less attend

A more careful consideration of an officer's A more carried consideration of an officer's fitness for the work is hereafter to be a fea-ture of the selection. Officers will be requir-ed to report to the college authorities or to the war department their inability to main-

tain good order and discipline. It is recommended that cadet officers and hon-commissioned officers in college buttalions be selected as at West Point, that is, that the officers be chosen from the first and highest class, and the non-commissioned of-fleers from the second or third classes, by the president of the college, upon the recom-mendation of the military instructor.

The Torpedo Boat Builders.

The Bath iron works, of Maine, will build two of the 30-knot, torpedo boats and the Union iron works, of San Francisco, the re-maining one, Wolff & Zwicker, of Portland, Ore., two 22%-knot boats, and of the little 20-knot boats Herreshoff will have three, Columbia iron works, of Baltimore, two and Hiliman Brothers, of Philadelphia, one. This is the decision finally reached by Chief Constructor Hichborn and Engineer-in-Chief Melville, to whom the numerous and com-Melville

They Took a Nice Pile of Money From a Chicago Office.

Two robbers late Friday afternoon entered the office of the Western Foundry com-pany, at the corner of Thirty-seventh street and Albany avenue, Chicago, and heid up the cashier, M. A. Burke, took \$1,600 from the safe and escaped. They were pursued by a crowd collected by the foundry people, and were in a fair way to be captured at Thirty-sixth and California streets, but again cluded their nursuers. At this cluce the cluded their pursuers. At this place the buggy in which the men were riding broke down, and as they were about starting to escape on foot, Frank Nyhoft, a milkman, came along. The two men jumped into his wagon and demanded that he vacate. On refusing, they shot him in the leg, pitched him out and drove away at a furious pace.

Officers from Brighton police station were soon on the scene, and started in pursuit of the flying robbers in a patrol wagon. The men were lost sight of, however, but the police, after following in the direction in which they were supposed to have fled, found, nearly two miles from the foundry, the milk wagon, which had also broken down. The southwestern police district was notified and a large detail of officers were

sent out. There was five men in the office of the foundry when the holdup occurred. It is claimed by one of these that the men were former employes. One of the robbers was fashionably dressed, while the other was rather shabbily dressed in a suit of brown.

been expecting has happened at last, according to Senor Don Juan Vicente Gonzales, who arrived in New York last week. The Spanish sympathizers in the island have revolted against the misrule of Capt. Weyler and are taking steps to procure his immediate removai.

Aiready they have communicated with their friends in the mother country, and the Liberal, Republican and Socialistic parties in Spain have united in demanding from the erown the instant recall of "the butcher" and a radical reform in the military and political methods thus far practiced in Cuba. As yet the agitation has been conducted privately, but none the less urgently, and it is about to assume the form of a public movement.

Bicycle Craze in Bavaria

A general bicycle craze has struck Bavaria, coording to a report from United States Commercial Agent Carpenter, at Furth. He says the old and the young can be seen daily practicing in back yards, vacant lots and along country roads, desperately struggling to maintain a equipose, and the apothecaries are consequently doing a brisk business in liniments and court plasters.

A Turkish Tale.

The Turkish legation at Washington'received from the sublime ports the following: "The Armenian revolutionists of Pinkan, a village situated in the province of Sivas, after putting fire to their own houses, ran away. Buy they returned again and put fire to the houses that had not been Eurned the first time. The local authorities took every precaution to extinguish the fire. The ob-ject of the revolutionists is evidently to make the people believe that there is no as-curity in their country, but their efforts to provoke again safiguinary troubles have been frustrated, thanks to the efficient meas-ures adopted by the imperial government." "The Armenian revolutionists of Pinkan, ures adopted by the imperial government.

A Victory for Lee.

The State Department has received official information from Consul General Lee at Havana that Samuel T. Tolon, who was taken into custody by the Spanish authorities in Cuba September 4, had been released. To-lon, who is said to be a citizen of the United States, and until recently a resident of Matanzas, was arrested as he was about to board the Ward line steamer Seneca for the United States. His detention was protested against by Consul General Lee.

Malleable Iron Factory.

Eastern capitalists are arranging to establish a big malleable from plant at Urbana, O., to utilize the discovery of George W. Hartley, the foundryman of Springfield, of making malleable from direct from molds. It is said to be a big thing.

A CLOUDBURST.

Destruction of Life and Property at San

Marcos, Texas. A cloudburst struck the city of San Mar-

cos, 50 miles north of San Antonio, Texas,

and almost destroyed the lower portion of the town. All the bridges over the San Mar-cos river, which runs through the city, were

washed away, and scores of houses are in ruins. The tracks of the M. K. & T. and I.

and G. N. Hallroads were washed out for three quarters of a mile. Many people were

injured by failing buildings. Three families living in the lower portion

of the city, close to the banks of the river, have not been heard from, and it is feared they have been drowned. The rush of water

was so great that it swept everything befor it, and the damage to property will exceed

\$100,000. While the loss of life will be heavy, all telegraph and telephone wires are down,

and the only information that has reached

the outside world was sent by messenger to Kyle, Texas, 10 mile distant and telephoned to
