## Municipal Woman Suffrage in Kansas.

Laura M. Johns, of Kansas. The investment of Kansas women with municipal suffrage has brought to woman herself all gain and no loss. It is here demonstrated that women who vote remain in present possession not only of all our "ancient privileges" but we have "rights" added thereto. Indeed extra privilege and consideration and special attention are ours in consequence of our enfranchisement, especially when election day is at hand.

The home has not suffered any loss by reason of our women taking part in the election of city officials. The blundering prejudices which stood out against woman's enfranchisement on the score of grief to come to homes and children thereby, has been dispensed by the demonstration that voting is no more incompatible with washing little faces, sewing on buttons and sweeping floors than it is with merchandising, blacksmithing or farming. Woman suffrage in actual operation demonstrates that the exercise of the suffrage by women does not lessen mother love, diminish wifely devotion nor weaken woman's loyalty to home and its dearest interests.

Though women here are eligible to city offices on equal terms with men, only 15 of the nearly 300 mayors' chairs have been occupied by women in the 10 years of their enfranchisement. If women had held city offices in equal proportion with men about 1500 women would have acted as mayors in Kansas during the last decade; but our women have not much desired office and have been elected generally for some specific purpose.

When some violation of law has been endured far past the point of toleration, then, in at least a dozen cities, women have been put forward to perform a service from which men shrink as likely to "hurt their business" or as being an ungrateful task. As the "business" of women is mainly safeguarding their children they do not find the conducting of a city administration according to the laws of decency, sobriety and morality hurtful to their dearest interests. It is therefore that city governments are put into their hands, and they are known to have undertaken the duties of "public trust" with proper sense of the responsibility and to have performed their work in excellent fashion.

Whether women poll their whole vote or not at every election, the fact that "they are there to do it", prevents the nomination of any except the most upright men who can be persuaded to accept the burden of municipal office.

Of course we have made mistakes in our choice of men at times, and the results in such cases were distinctly disappointing but we have learned that high morality must needs be joined with executive ability and business experience to make an efficient city official. We have come in contact with those difficulties which put a representative form of government to the test, and out of this widening of our knowledge and experience comes intenser loyalty and strengthening of that "patriotism of peace" which is to make for the salvation of our nation.

The wife of Mr. Deonard Wells, of East Brimfield, Mass., had been suffering from neuralgia for two days, not being able to sleep or hardly keep still, when Mr. Holden, the merchant there, sent her a bottle of Chamberlain's Pain Balm, and asked that she give it a thorough trial. On meeting Mr. Wells the next day he was told that she was all right, the pain had left her within two hours and that the bottle of Pain Balm was worth \$5.00 if it could not be had for less. For sale at 50 cents per bottle by all druggists.

## Stopping a Train.

Some important discoveries have just been made in Europe.

How to stop a train when an accident is impending has long been a problem. Many plans have been suggested, but almost all have been considered faulty for the reason that they call for a quick stoppage. In such a case the shock would be so great that the carriage between the engine and the rear of the train would be smashed to atoms and their occupants crushed to death. Evidently, therefore, a gradual stoppage is imperative.

An admirable plan, which enables a train to slow down gradually, has recently been tested at the railroad station at Dresden. It is extremely simple, and has been found to work well. No intricate machinery is required, and the cost must be small. A track is laid, the rails of which sink or slope gradually into a bed of sand. As the train passes over this sand its wheels meet with an ever increasing resistance, which soon becomes so great that they are obliged to stop. The stoppage, however, is so gradual that there is no rough shock. The greater the swiftness of the train and the heavier the load, the more immediate is the stoppage. No damage then is possible, either as regards the train or the passengers. An experiment which was recently tried with a freight train showed clearly the usefulness of this very practical and simple plan.

## HOW TO PREVENT CROUP.

SOME READING THAT WILL PROVE INTERESTING TO YOUNG MOTHERS. HOW TO GUARD AGAINST THE DISEASE. Croup is a terror to young mothers and to post them concerning the cause, first symptoms and treatment is the object of this item. The origin of croup is a common cold. Children who are subject to it take cold very easily and croup is almost sure to follow. The first symptom is hoarseness; this is soon followed by a peculiar rough cough, which is easily recognized and will never be forgotten by one who has heard it. The time to act is when the child first becomes hoarse. If Chamberlain's Cough Remedy is freely given all tendency to croup will soon disappear. Even after the croupy cough has developed it will prevent the attack. There is no danger in giving this remedy for it contains nothing injurious. For sale by all druggists.

## A Letter From Iowa.

MAY CITY, IOWA, Nov. 7, '96.

Editor of the Post. Dear Sir—

Inclose you will find a check for \$1.50 for my subscription for your paper. We have cold weather just now also a little snow. The farmers are busy picking corn, which we have a bountiful crop this year. Our harvest was excellent except the wheat. Prices are low but since the people see how the election is going the people again see what Republicanism does. The little town of Hartley shipped 90,000 bushels of grain in five days. That is pretty good for a little town. Yours Resply,

JOSEPH STAUFFER.

**Electric Bitters.** Electric Bitters is a medicine suited for any season, but perhaps more generally needed when the languid, exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alternative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting and freeing the system from the malarial poison. Headache, Indigestion, Constipation, Dizziness yield to Electric Bitters. 50c. and \$1.00 per bottle at Graybill, Garman & Co.'s Store, Richfield, Pa. and all druggists.

**PERFECT** and permanent are the words by Hood's Sarsaparilla, because it makes pure, rich, healthy, life and health-giving **BLOOD**.

## CHRISTIAN ENDEAVOR.

The seventh annual convention of the Northumberland-Snyder Union of the Y. P. S. C. E. to be held in the Lutheran church, Sunbury, Thursday and Friday, November 12-13, promises to be the largest ever held. A large number of delegates have already sent their names for entertainment. The program will be a good one and the local committee is sparing no pains to make it a grand success. All societies that have not reported or received a call should report to F. E. Welch, Sunbury, at once.

## WEST BEAVER.

The late rain was a great help to the heavy loaded boats in going up Salt river after the returns of Snyder county were made public for McKinley and Hobart. The auction at McClure on last Saturday was well attended and things brought a fair price. The farmers are busy plowing, some for corn ground and some for oats. T. F. Swineford and W. H. Knepp spent a few days last week near Siglerville in search of bears, deer and cotton tails; their reward was one poor orphan cotton tail. Hen, the Siglerville blacksmith, shot its father and mother before they got over. Strangers should be very careful into what company they get if they wish to keep their reputation at par. Tommy Marks, W. Howell's jolly teamster, is always in good spirits going through our town, no matter rain or shine, late or early.

## PAXTONVILLE.

Charles Boyer was to Philadelphia last week to purchase a new supply of goods. Mrs. D. R. Harner has been sick for some time. She is recovering very slowly again. Jno. Boardman has been repairing his house inside by plastering, painting, etc. Mrs. S. Bowersox visited at Middleburgh a few days last week. Miss Daisy Gift attended the Christian Endeavor Convention at Selinsgrove last week. The flood just came at the right time for those who had to sail up Salt river. It was easy sailing over the riffles. Quite a number of our boys came home to cast their vote for McKinley last week. We expect to put a new roof on the United Evangelical church this week.

## Conundrum "T."

The K. L. of C. E. of Paxtonville will hold a Conundrum "T" on Saturday evening, Nov. 28, 1896. We kindly invite all to come and enjoy a good feast. Suppers will be served to all families or individuals who desire it at 5 o'clock P. M. or later, as you desire. The prices will be exceedingly reasonable.

# LOEB, A CHANGE OF BUSINESS

SUCH AN OPPORTUNITY AS THIS HAS NEVER BEEN OFFERED IN THE COUNTY

A CHANGE OF BUSINESS

THIS BONIFIDE SALE GIVES CLOTHING PURCHASERS AN OPPORTUNITY OF A LIFE TIME

## Discovery of a New Metal.

Emanuel Wilvert of Sunbury, has lately discovered a new and rare metal, known as cadmium. In investigating a vein of zinc ore near that city he made the discovery and sent it to an expert mineralogist, who pronounced it cadmium of good percentage and zinc silver and lead. Mr. Wilvert has long contended that strange minerals existed in our mountains and has discovered obsidian and cadmium, the first time it was ever known to exist here. He says there is an abundance of cadmium lands leased by him, connected with zinc ores. Cadmium is a tin white metal, malleable and ductile and its salts are used in some lines of medicine, and is very rare.

Good advice: Never leave home on a journey without a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. For sale by all druggists.

I furnish all sizes from a hand cutter to a cutter that will cut and split from 8 to 9 tons per hour. Farmers will get twice the value out of their corn fodder by cutting it. The Tornado Feed Cutter prepares the fodder in such an elegant style that your cattle will not get sore mouths. It will pay for itself twice in one season. Fellow farmers, who are especially short in feed, give it a thought. Call or write for catalogue giving full information.

## GEO. N. ERDLEY, Selinsgrove.

**Fire, Life and Accident Insurance.** SNYDER'S OLD, AND RELIABLE Gen'l Insurance Agency, SELINSGROVE, SNYDER COUNTY, PA. Elmer W. Snyder, Agent. Successor to the late William H. Snyder.
