REV. DR. JONATHAN WHITELY'S WIDOW STRICKEN WITH PARALYSIS.

But She Has Been Cured--- Long May She Live and Long Live the Remedy to Which She Owes Her Life.

From the Gazette, Meadville, Pa. The following interesting interviews conerning the efficacy of Dr. Williams' Pink Pills for Pale People, have lately been reelved at the office of this newspaper:

The first embodies a conversation with Mrs. M. A. Whitely, the widow of the late Rev. Jonathan Whitely, D. D., an eminent div ne of the Methodist denomination. Mrs. Whitely

spoke as follows:

"I consider it my duty to tell for publication the immense benefit I have derived from
Dr. Williams' Pink Pills. Three years ago I
was stricken by paralysis, and lay helpless
for months. I was at last advised to try Dr.
Williams' Pink Pills, which after many misgivings I concluded to do, as I had lost taith
in all medicines. The first box helped me
much and the continual weat the pills had much, and the continual use of the pills has worked and is working wonders. To-day I have driven twelve miles without fatigue. I cannot say too much in praise of Dr. Will-lams' Pink Pills for they have done me a world of good.'

Mr. John W. Beatty, who is a contractor and builder of Meadvide, of the highest re-

speciability, says:

"Although I have passed the meridian of life, I am glad to be able to say that I have but little or no use for medicine of any kind. But my wife is not so fortunate. During the inst few years she has been a sufferer from dropsy and disease of the heart, and at times suffered greatly. A few months ago she be-gen taking Dr. Williams' Pink Pills for Pale People and has been greatly benefited by their use. She experienced a numbness and coldness in her limbs and at times could scarcely walk by reason of poor circulation of the blood. All these unpleasant symptoms have disappeared and I confidently hope to see her a well woman ere long. I will also take the liberty to speak for a brother-in-law of mine, G. W. Myer, who resides at Shenk-leyville, Mercer County, Pa. So great was his affliction by reason of crystpe.as in the face and a general breaking down of the sys-tem that last winter he was given up to die, Dr. Williams' Pink Pills for Pale People have

made him a new man and he is as one res-cued from the very jaws of death," Mr. Prentice Fry, of Mendvide, testifies as

"My wife and daughter have been failing in health for some time and the treatments of physicians in their cases have been (mitless. So much his been said of Dr. Williams P.nk Pills for Paire People that I resolved to try them, and myself and family will always be glad that Providence threw such a medi-cine in our way. The nale faces and wasted cheeks of my wife and daughter have disap-peared, and the raddy glow of health has reopeared. Pen cannot record my feelings in the matter, and at 1 can say is that I trust all who are bowed down by the heavy hand of physical inflemity will learn that there is a remedy that cures and places suffering humanity where they can enjoy this earthly existence. God bless the maker of Dr. Wiliiams' Pink Pills for Pale People."

Dr. Williams' Pink Pills contain, in a con-

densed form, all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are an unlailing specific for such disease as locomotor ataxia, partial paralysis, St. Vitus' dance, sentica, ne craigia, rie umatism, nervous headache, the after effect of la grippe, palpitation of the heart, gate and sailow complexions, all forms of weakness either in mate or ismale. Pink Pills are sold by all dealers, or will be sent post part on receipt of price, 50 cents abox or six baxes for \$2.50, by a bressing Dr. Williams' Medicine Company, Schenectary, N. Y.

Cascaners stimulate liver, kidneys an bowels. Never sicken, weaken or gripe; 10c.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors from under the last few years was supposed to be incurable. For a great many years doctors from under the last few years was supposed to be incurable. For a great many years doctors from under the local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hair's Catarrh Cure, manufactured by F. J. Chency & Co., Toledo, Olio, is the only constitutional cure on the market, it is taken in ternanty in does from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it facts to cure. Send for circulars and test monials.

A Wonderful Statement From Mrs. McGillat to Mrs. Pinkham.

I think it my duty, dear Mrs. Pink-

ham, to tell you what your wonderful Compound has done for me.

I was dreadfully ill-the doctors said they could cure me but

times I would get so blind, I could not see for several minutes.

I could not stand very long without feeling sick and vomiting. I could not breathe a long breath without screnusing, my heart pained so.

I also had female weakness, inflammation of ovaries, painful mensteuttion, displacement of the womb, itching of the external parts, and ulceration of the womb. I have had all these complaints.

The pains I had to stand were something dreadful. My husband told me to try a bottle of Lydla E. Pinicham's medicine, which I did, and after taking it for a while, was cared. No other kind of medicine for me as long as you make Compound. I hope every woman who suffers will take your Compound and be cured. -MRS. J. S. McGillas, Kilburn avenue, Rockford, Ill.

WITHOUT A MOMENT'S WARNING.

BLOWN TO DEATH.

An Oil Well Boiler Explodes with Fatal Besults.

Callery Junction, on the Fittsburg & West ern railroad, was shaken by a boiler explosien Monday morning, which killed John

Dunlap, an oil driller, and injured Charles McKeever, a tool dresser.

The explosion occurred on the A. L. Staples farm. The boiler which exploded was used to furnish steam for the drilling of well about fifty rods from the station at

The drillers did not work on Sunday, and The drillers did not work on Sunday, and were just preparing to start the machinery when the explosion occurred. They had fixed up the boiler, and at the time of the explosion both men were in the engine house. A few moments before they had been at the boiler and noticed that steam gauge showed a pressure of 80 pounds. This being sufficient to start the engine, Dunlap was in the act of turning the throttle valve when the boiler let go. bofler let go.

boiler let go.

The engine house was blown completely away, and both men were hurled some distance. Dunlap was crushed so badly that he died within a few minutes. McKeever was more fortunate, although he was thrown into the fly-wheel of the engine. The wheel had just started to revolve, and he narrowly escaped being crushed by it before it stopped turning. He was able to get up and look for Dunlap, whom he found lying about twenty feet away, and dying.

UNDER AN AVALANCHE.

Four Miners Killed and Four Injured By a a Sweep of Snow.

A disastrous snow slide swept down early Sunday morning upon the works of the Daly mine at Park City Utah, burying eight men. Four were recovered and resuscitated, the dead bodies of three were dug out by the miners and one is not yet recovered, although miners and one is not yet recovered, atthough it is certain he is dead. The names of the dead are: James W. Keating, N. Russato, Nicholas Paffin and Joseph Zueen. The four men who are alive were more or less injured, although they are likely to recover. Their names are: Thomas Hodges, Harry Pinney, James Hallman and Charles Mathison. The eight men were asicep when the avalanche struck their cabin and carried it for hundreds of feet until it reached the mill of the Daiy Mining company, demolishing the engines and boilers and doing damage to the extent

John Mackinsw had \$5,600 in greenbacks, gold and notes in a trunk in the cabin which was swept away, and crowds of people are

TWO SENATORS APPOINTED.

A Republican from Oregon and a Democrat from Elorida.

H. W. Corbett, appointed United States Senator by Gov. Lord to fill the vacancy caused by the expiration of Senator Mitchell's term and failure of the Legislature to elect a successor, left Salem, Ore., for Washington Saturday night. Mr. Corbett represented Oregon in the Senate as a Republican from 1866 to 1872. He is vice president of the First National bank of Portland, and is very pronounced in favor of the gold stand-ard. At the recent session of the Legislature, while not open y a candidate, he was one of the choices of the opponents of Senator Mitchell. He is about 66 years of

Gov. Blexham, of Fiorida, appointed John A. Henderson, of Tallahasser, vice president of the Fiorida Central and Peninsular rail-road, ad interim United States Senator, to fill the vacancy caused by the expiration of Senator Call's term. Mr. Henderson is a Georgian by birth, and about 50 years old.

THE PRESIDENT'S SUNDAY.

Attended Church in Company With His . Mother.

President McKinley's first Sunday in the were received and the President had an opportunity of resting from the fatigues of the week. He aroused later than usual much refreshed from a hard days work on Saturday. Breakfast was served at 9 o'clock. At 10 o'clock he prepared for church, and accompanied by his mother, at-tended the services at the Metropolitan Methodist Episcopal church, where President Grant was accustomed to attend. As the President's intention had been announceed, the crowd was very large, and the President and his venerable mother had considerable trouble in making their way from the sidewalk to the vestibule. They were sidewalk to the vestibule. They were shown to what is called the Presidential pew. The other occupants were Abner Me-Kinley and private secretary and Mrs. Por-

Rev. Dr. Johnston, the pastor, opened the services by prayer, and Bishop Newman, of Omaha, Neb., formerly pastor of this church when Gen. Grant was President, preached

ANOTHER TOWN FALLS.

Candano in Crete Taken By the Insur-

The town of Candano has fallen into the ands of the insurgents. Lateradvices as to the capture of Candano by the insurgents states that the Greeks first took the fortress of Vavaros, which dominates the town, where there were 3,000 Mussulmans.

The Beys having appealed to Tewfik Pasha to get the sultan's protection for besieged Mr. L. Mussuimans, he replied that the sultan was bruised. powerless to insure it, and that they must look to the powers. Thereupon the Beys went to the English consulate to ask for as-

Vetord.

Governor Hastings sent to the Legislature a veto of the concurrent resolution which provides that all material used in the censtruction of the proposed Capitol building or buildings shall be of Pennsylvania product, whether natural or manufactured; and, sec-oudly, that all architects, contractors and laborers, whether skilled or unsattled, in and about the erection and construction of the proposed new Capitol building or buildings. shall be citizens of Pennsylvania

Two Killed in a Wreck,

On the crossing of the Mineral & Southern railroad at North Birmingham, Als., two heavy freight trains collided at right angle. Both locomotives were wrecked and several cars mashed. The trainmen jumped, but Engineer Charles Eyan of the Mineral train was caught in the debris and fatally injured. Engineer Frank Mosby had an arm broker and was otherwise seriously injured, and an unknown tramp was fatally scalded,

The Chilean Chamber of Deputies has passed a bill providing for a guarantee of \$125.

Out to any company that will establish iron works in that country. Iron ore is exceedingly abundant in many parts of Chile, and the mines are easy of access.

Maj. Dick, of Akren, O., who was offered the position of fourth assistant postmaster general has declined to accept it, and so notified President McKinley before the inauguration.

BETTER BUSINESS DOING.

The Blow and Gradual Improvement in

Trade Continues. R. G. Dun & Co.'s Weekly Review of

Trade says: The slow and gradual improvement observ-

ed for some time has continued during the past week, and without material change. There is a better demand for most products

on the whole.

While the demand for Bessemer pig has sustained the recent advance to \$10.75 per ton, at Pittsburg, and gray forge is still quoted at \$9.40 there, and there is also less quoted at \$9.40 there, and there is also less cutting of prices to get more business in finished products, the general range of prices still continues very low. There is less evidence of the eastern mills selling rails below \$20, except for export, some sales of that character having been made at \$18. Western makers are said to be firm at \$21 per ton, but the demands of the most important railways have been supplied for the present. ways have been supplied for the present. The consumers of billets are not in the market just now, but with somewhat larger production of pig from it may be doubted whether outside of rails demand for finished products equals the capacity of works. The new administration, the certainty of an extra session of Congress within a fort-

night and the promise of a new tariff at an early day, which shall provide adequate revenue and protection, have done much to stimulate a better feeling in trade circles, and increase confidence in the near approach of an improvement in business. Favorable features are found in higher prices for wheat, Indian corn, pork, lard and spirits of turpen-tine, as well as for steel billets. Recent low quotations for various forms of iron and steel have been withdrawn, notably for wire and structural material.

There were 262 business failures through-out the United States this week, compared with 258 last week, 270 in the week a year ago, 252 in the week two years ago, and smaller totals in like weeks in the two preeeding years. This marks a return of the ratio of business more nearly to the normal. There were 51 business failures reported from the Canadian Dominion this week, against 50 last week, 66 in the week a year ago a 53 two years ago.

OLNEY'S REPORT ON RUIZ'S CASE.

He Refuses to Furnish the Documents Ask ed for by the Senate

The President sent to the Senate a report made by Secretary Olney on the resolution requesting the correspondence in the case of Dr. Ricardo Ruiz. The report suggests the inadvisability of supplying the correspondence at this time, which suggests the President indorses, saving that it would be "incompatible with the public interest to do so pending the public and exhaustive investigation about to be instituted."

"That the Consul General should have professional aid in such investigation, though that matter, together with the selection of the particular persons to act with him, properly devolves upon my successor in of-

Instead of transmitting the official corres poudence, the Scenetary supplies an account of his own composition, covering the essen-tial facts in the case. He says: "Bulz, a native of Cuba, came to this coun-try during the revolution which terminated

in 1876 and studied dentistry at Philadelphia. Declaring his intention to become a ettizen of the United States in 1877, he received his final papers in 1880. After this he returned to Cuba and has resided there

The conclusions of the official reports of the two Governments being radially conflicting the Secretary says another open and thorough investigation seemed to this Government indispensable, and that the Spanish Government concurred in this view. The Secretary incloses a copy of Minister de Lome's letter acceding to this request. He Lome's letter acceding to this request. He says that Ruiz did not make known his Americanship when arrested, a circumstance which, he says, often cours, and slways leads to conplication.

Ac details Zubi's arrest of February 4, of which he says the department was immediately informed, but that nothing more was heard to research the authority of the leads to research the says the department was immediately informed, but that nothing more was heard to research the says that the says that says the says th

heard in regard to the matter until February 17, when the Consul General reported that Buiz had been found deal. He said that the President McKinley's first Sunday in the department had assumed that the case was White House was a quiet one. No callers being attended to during this interim, and that a demand would be made that a demand would be made that the pris-oner should be put incommunicade, but that it afterward developed that no such demand had teen made, and the prisoner had re-marked constantly in solitary confinement. The circumstances attending the death were such as to lead to a demand for immediate investigation.

DEATH IN THE FOG.

Baltimore and Ohio Train Hit by a Freight Near Cincinnati.

Passenger train 105, west bound on the Midland branch of the Baltimore & Obio Southwestern railway, was stopped by a and slide near Hills station, five miles east of Loveland. A heavy freight came thun-dering through the log and crashed into the siveper, whose occupants were all in their terths. It telescoped three-fourths of the length of the sieeper, throwing occupants out of their beds and pinioning them in ageny in the detris of seats and broken glass and splinters and beams of wood. Rescuing was prompt and energetic. Of the occupants injured beyond slight injury, two were fatalhurt, two very seriously and two painfully

but not dangerously, Dead-P. B. Doodins, Wheeling, W. Va. scalded; right leg crushed and was ampu-

tated. Died at 5 o'clock. Fatally injured are: R. H. Wardock, su perintendent of parks, Cincinnati, shoulders cut and bruised, and burt internally.

Seriously injured: G. H. Rispe, Richmond, Ind., scaled and injured internally. Mr. L. Myers, St. Louis, legs and head

Destructive Rainfall.

A special from Birmingham, Ala., says: Reports from over the state say that Satur-day's tremendous rainfull was more destructive than at first supposed. At the town of Prattsville a number of stores, and dwellings were wrecked and the cotton factories heavily damaged. At Seema the loss from high water flooding factories and washing out ratiroads is also quite large. In the in-terior hundreds of bridges have been swept away and terrible bavon wrought to farm work and small grain crops, entailing en-vere less to the farmers. The Aintanna, War-rior and Tombighee rivers all reached the danger line and overflows are forred.

NEWSY NOTES.

Vaca's brigands pundered Borejo Hail-onda near Leon, Mexico, and in a fight while the rural guards Vaca and three of his men were killed.

Andrew Carnegie, who has been seriously angew carrogs, we has even scrious; ill at his residence in Greenwich, Conn., for several days from pourisy, is out of danger, and it is expected that he will be up and about the house again in a few days.

Charles Green has been appointed receiver of the Peoples Street Railway company of St. Louis on the suit of the trustees of the

empany store. Elina Reed was seriously burned in the destruction of his house at Port Norria, N. J., by fire, and his 4-year-old daughter, Bertha,

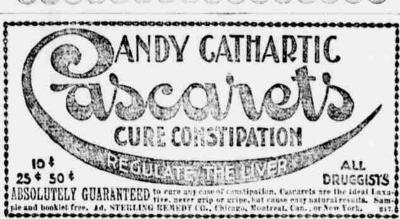

was burned to death.

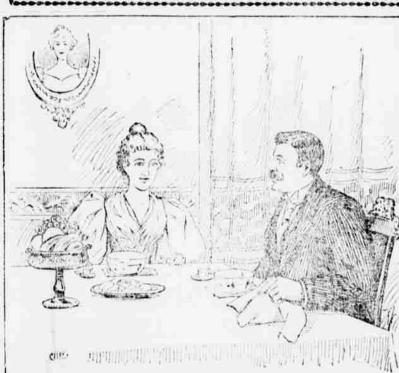

Pill Clothes.

The good pill has a good coat. The pill coat serves two purposes; it protects the pill, enabling it to retain all its remedial value, and it disguises the taste for the palate. Some pill coats are too heavy; they will not dissolve in the stomach, and the pills they cover pass through the system as harmless as a bread pellet. Other coats are too light, and permit the speedy deterioration of the pill. After 30 years exposure, Ayer's Sugar Coated Pills have been found as effective as if just fresh from the laboratory. It's a good pill with a good coat. Ask your druggist for
