How the Continents Were Formed

If molten matter exists beneath the crust of the earth, it must contract on cooling, and in so doing it must disturb the level of the portion of the crust already solidified. But an important difference of opinion arose as to the exact rationale of such changes. Hutton, and practically every one else who accepted his theory, had supposed that there are long periods of relative repose, during which the level of the crust is undisturbed, followed by short periods of active stress, whea continents are threw up with volcanic suddenness, as by the throes of a gigantic earthquake. But now came Charles Lyell with his famous extension of the "uniformitarian" doctrine, claiming that past changes of the earth's surface have been like present changes in degree as well as in kind. The making of continents and mountains, he saide is going on as rapidly to-day as at any time in the past. There have been no gigantic cataclysmic upheavals at any time, but all changes in level of the strata as a whole have been gradual, by slow oscillation, or at most by repeated earthquake shock such as are still often experienced.

In support of this very startling level of continental areas. He corro-borated by inspection the claim which had been made by Playfair in 1802, and by von Buch in 1807, that the cost-line of Sweden is rising at the rate of from a few inches to several feet in acentury. He cited Darwin's obsevations going to prove that Patagonia is similarly rising, and Pingel's claim that Greenland is level of continental areas. He corro-Pingel's claim that Greenland is rents. slowly sinking. Proof as to sudden changes of level feet, over large areas, due to earthquakers, was brought forward in abundance. Cumulative evidence left it no longer open to question that such oscillatory changes of level, either upward or downward, are quite the rule, and it his parents at this place Edward could not be denied that these ob-served changes, if continued long loarn the milling trade......Milt. enough in one direction, would produce the highest elevations. The possbility that the making of even the highest ranges of mountains had been accomplished without exaggerated catastrophic action came to be freely admitted.

once have risen miles in height have in many cases been worn entirely away, so that now a valley marks the location of the former eminence. Where strata are level, as in the case of the mountain of Sicily, the Scotch, and the familiar Catskills, the evidence of denudation is, if possible, even more marked ; for here it is clear that elevation and valley have

been carved by the elements out of and that rose from the sea as level piateaus .- From "Geological of the Century," by HENRY SMITH WILLIAMS. M. D. , HARPER, 8 MAGAZINE for May

AN EXTRAVAGENT JOB.

The alleged report of the "Bill Au

drews Lexow" investigation of Phil delphia, is having hard sailing. Senator Grady, one of the members of the Committee, refuses to sign the report on the grounds it is said, that Silas W. Pettit, the lawyer who examined the witnesses summoned before that body has written the re port, not to suit himself. In it ru mor has it that Pettit has inserted some ginger and paper phrases on which he has worked long. They are said to be "hot stuff." Senator Grady says he will not sign while they are in, and Pettit refuses to expunze them. It is said that this committee has done little or nothing beyond serving factional purposes. If this is true, the bill of expenses which is said to be \$48,000 and which it is ex pected that the people of Pennsylva nia must pay, is an outrage. Think of it : \$48,000 of money wrung from the tax payers to feed factional fires. The people will not stand it. They will not endure it. \$48,000 of the people's money to feed Senatorial "bloods" on "asparagus at \$1 a plate?" If the Pennsylvania Legislature passes this bill and Governor Hastings approves it, it will cause a revolution. The people want "Bill" Audrews appeared and asparagused, but not to the tune of \$48,000 -Wellsboro Advocate.

-A Few Testimonials :-

After Having Tried S of the Best Doctors in the County, Without

Avail, Dr. Salm Cured Her. Aviali, Dr. Saim Curred Her. For more than 12 years I have suffered a good deal of path, in fact, I was in distress and mis-ery nearly all the time, particularly on sitting down. The missery was in my left side, in the region of the heart. It was very seldom that I could attend to my labors. I tried s different doctors, so said, the best in our county, but I got worse instead of better, at last, I went to Dr. Salm, who makes regular visits to Sunbury, and thanks to bis skilling treatment. I am now en-threly cured. MRS I. 8 MUNSELL Dewart, Northumberland Co., Pa.

Everybody Ought to Know What Dr. Salm Did For Me. He Cur-

ed Me of a Fearful Skin Disease. ed Me of a Fearful Skin Disease, For more than 4 years I have had a most ter-rible skin trouble. I see also to be covered, like a fish, with scales all over my holdy, even to my face, not excepting my eyes. The pain was al-most uner-trouble, and I walled the floor many anight a account of my across To work, was out of the gravitation for could I walls myself. I first a account of any across the wash myself. I first a account of any across the wash myself. I first a account of my across the start of the set of the start out best doctors, spear money on pat-en a schemer, of the start, Galden Med-car 0 reservery. Ontiments, etc., got medicine from the Pierce Medical Institute, fulfalo, but it went from worse to worse. Then I heard of Dr. Saln's wonderful curres in this heighbor-hood, took his treatment, and to day I am a new may. No more skin trouble. I am working acain, and as well as ever. Every body ought to know this. FRANK RICHARDSON. Jounio, Cambria Co., Pa.

Bad Case of Sore Eyes Cured by

Dr. Salm.

Dr. Salm. Ever since I was a babe I have suffered with sore eyes. They became very painful, and with every cold I took, and that was often enough, they became worse and worse. Little scales had to be removed from the lashes every morning, and the margin of the lids became to look like raw beef, of course all this didn't enhance my eyesight, nor improve my appearance. The doctors around hear didn't do any good, my eyes got worse and worse. Iam now 20 years old. I went to Dr. Saim and he iams done wondertuil work. No more rednees, no scales forming, soreness has almost entirely left, and my eye-sight is better. I know I will be cured in a short time. GRITCHUES MARTIN, Grisemor, Indiana Co. Pa.

Catarrh and Eye Trouble Cured by Dr. Salm.

For several years my daughter, Dilla, has had a bid case of catarrh accompanied by all the usual symtons attending the disease. Catching cold continually. At last the Eyes became al-flicted, they became weaker and weaker from inflamation, then we became diarmed, and brought her to Dr. Salm. After a course of treat ment, she is now, thanks to his skill, entirely curred. JACOB B. MAURER. Globe Mills, Snyder Co., Pa.

It became clear that the supposediy stable land surfaces are in reality much more variable than the surface of the "shifting sea"; that continental masses, seemingly so fixed, are really rising and falling in billows thousands of feet in height ages instead of moments being consumed in the sweep between crest and hollow.

These slow oscillations of land surfaces being understood, many geological, enigmas were made clear -such as the alternation of plarine and fresh-water formations in a vertical series, which Cuvier and Brongniart had observed near Paris; or the sandwiching of layers of coal, of of subaerial formation, between layers of subaqueous clay or sandstone, which may be observed everywhere in the coal measures. In particular, the extreme thickness of the sedimentary strata as a whole, many time exceeding, the depth of the deepest known sea, was for the first time explicable when it was understood that such strata had formed in slowly sinking ocean-beds.

All doubt as to the mode of origin of stratified rocks being thus removed, the way was opened for a more favorable consideration of that other Huttonion doctrine of the extremely slow denudation of land surfaces. The enormous amount of land erosion will be patent to any one who used his eyes intelligently in a mountain district. It will be evident in any region where the strata are tiled -as, for example, the Alleghaniesthat great folds of strat which must

It is Piles, or no pay required. It is guaranteed to give perfect satisfac-tion or money refunded. Price 25 cents per box. For sale by Graybill, Garman & Co., Richfield and al Druggists.

HOW TO FIND OUT.

Fill a bottle or common water glass with urine and let if stand twenty-four hours; a sediment or settling indicates a diseased condition of the kidneys. When urine stains linen it is positive evidence of kidney trouble. Too frequent desire to urinate or pain in the back, is also convincing proof that the kidneys and bladder are out of order.

WHAT TO DO.

There is comfort in the knowledge to often expressed that Dr. Kilmer's Swamp Root, the great kidney rem-edy fulfills every wish in relieving pain in the back, kidneys, liver, blad-der and every part of the urinary passages. It corrects inability to hold action and could be used as the second could be added as the second term of the urinary passages. urin and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compell ed to get up many times during the night to urinate. The mild and the extraordinary effect of Swamp Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases; If you need a med-icine you should have the best. Sold Sold by druggists price fifty cents and one dollar For a sample bottle and pamphlet, both sent free by mail, mention Post and send your full post-office address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee the genuineness of this offer.
