# LETTER HE HANDED TO THE TRUSTEES

The Opinion is Freely Expressed by a Trustee That the Resignation Will Not Be Accepted Should He Win or Lose.

NEW YORK, Oct. 5 .- At a meeting of the trustees of Columbia university yesterday President Low handed to the board the following letter:

"As I have felt constrained by a sense of public duty to accept the nomination for mayor of the city of New York at the hands of the Citizens' union, I feel it to be my duty to the university to place in your hands, for such action as you may see fit to take, my resignation as president of the uni-

"I need not say that nothing but a deep sense of the imperative nature of the call to public duty would have led me to accept the nomination."

The letter was referred to a committee of five, which was appointed by Chairman Schermerhorn and which will make a report Nov. 15.

It was said that an agreement had been reached by which the matter will be left in abeyance until after election, when, if Mr. Low is defeated, he will be asked to withdraw his resignaclon. A trustee of Columbia university

made a statement before the meeting began as to what he believed would be the action of the trustees in relation to President Low's candidacy for the "In the first place," he said, "there

isn't any reason in the world to believe that President Low entertains a thought of withdrawing from the mayoralty campaign. He certainly stands a fair chance of being elected. He realizes this, to put it no stronger, and he will surely continue to the end.

"Now, as to the action of the trustees -and in this I am simply giving my wiews-I am convinced that they will

not accept President Low's resignation either at this meeting or at any other time through the campaign, not should the campaign result in his election. There is surely no reason why he should resign now, because between now and election he can be spared from the university, as it is not necessary for a president to be there constantly. More than that, he would be in town, so that be called upon should any emergency arise.

"Now, suppose that he should be elect-Then I believe the trustees would ask him to accept a four years' leave of absence, and it would be as though he were on a long vacation. He would continue as president of the college, yet at the same time his duties would be delegated to another, and he would be able to devote himself entirely to the task of governing the Greater New York. At the same time the fact that he was in the city would give confidence to him who should be acting president, being assured that he could at almost a moment's notice consult with Mr. Lor should a consultation be nec-OSSHITY.

"I feel convinced that the trustees will look upon the matter in this way, and that they will resolutely and unanimously refuse to accept the resignation which Mr. Low will offer."

FIFTY MUST HAVE PERISHED.

News Brought to Halifax of a Terrible Tragedy at Sec.

HALIFAX, Oct. 4.-The British barkentine St. Peter, which was reported as having been passed at sea and making for this port in distress, arrived yes-terday. She was partially dismasted in a hurricane on the night of Sept. 8 and was forced to put about for this city

in order to repair the damage. Captain Scaling of the St. Peter is authority for the statement that the storm through which his vessel passed was the cause of sinking a four masted iron sailing ship which must have carried a crew of at least 45 or 50 men. The St. Peter and the other vessel had been sailing within sight of each other all day on the 8th, but never came within hailing distance. The name of one could not be distinguished from the deck of the other.

When evening closed in, the big ship could be seen from the deck of the St. Peter. Her lights were in sight for some time after dark. Then the hurricane swept the ocean, and the crew of the St. Peter had all they could do to keep their vessel affoat.

She was thrown on her beam ends and remained thus for ten hours, during which time the crew were lashed to various parts of the deckwork. The jibboom and all head sails, the maintopgallant mast, the maintopmast and other spars and sails were carried away. as well as the deck load and nearly alt the water casks.

When the St. Peter righted herself on the 9th nothing was to be seen of the four masted ship sighted the day before, but soon after the barkentine passed the floating wreck of a ship's deck and deckhouse, which the crew identified as belonging to their sailing

companion of the previous day.

The condition of the St. Peter rendered it impossible for the crew to make an examination of the wreckage in order to learn the name of the ship but Captain Scaling is satisfied that the other vessel went down with all on

The disaster occurred in latitude 33 longitude 38. The St. Peter, which halts from Windsor, N. S., was on a voyage from Bears River for Buenos Ayres, with a cargo of lumber.

Mysterious Wholesale Poisoning In

Nebraska Family. SCHUYLER, Neb., Oct. 4.-Frank Steinad yesterday came hastfly in from Shell Creek precinct, nine miles southwest, to summon a physician to the home of Frank Divis, where he said the whole family had been poisoned. Dr. Sixta hastened out and found four of the seven children in the family and their mother dead, a fifth child in a dy ing condition and a sixth very ill. Mr.Divis and his eldest son went away early in the morning, leaving before the rest of the family breakfasted. When the meal was prepared, those remaining sat down, and early in the course of the meal Mrs. Divis made some such remark as, "Eat a good breakfast, and we'll all go together."

One of the older sons was affected by the remark to the extent that he did not appease his appetite. A daughter younger than the son, after drinking about half a cup of coffee, became sick and vomited. The rest of the family continued the morning meal, although the children made wry faces and said the coffee did not taste good. Strychnine had been put into the coffee, which soon showed its effect. Those not prostrated spread the alarm, but not soon enough to avoid the fatal ef-

SPRINGFIELD, Mass., Oct. 4 .- A special to The Union from East Long Meadow says: A horrible house burning tragedy in which three lives were lost occurred yesterday in the center of this village.

The home of George Brownlee caught fire from a chimney, and although Mrs. Browniee, her husband and two sons, Thomas, aged 21, and James, aged 19, escaped in their night robes, Mrs Brownlee and her son Thomas were, a few minutes later, burned in the building, their bodies being buried in the ruins. Mrs. Brownlee, losing her head, rushed back into the house, thinking her sons had not come out.

Thomas rushed after her to save her, with James after Thomas. The two former were overcome, while James got out, but burned so severely that he died later. Mr. Brownlee himself was badly burned on his hands and feet, but will recover. The bodies of Mrs. Browniee and her son Thomas, which were nothing but shapeless masses of flesh, have been recovered. Thousands of people went out from this city to view the ruins and talk of the horrible tragedy.
