> A DANGEROUS COUNTERFEIT. Send All Your Hundred Dollar Bills

to Secretary Gage.

Washington, Jan. 4.—One of the most dangerous counterfeits ever discovered has made its appearance. Mr. John Cramer, of the sub-treasury at Philadelphia, yesterday brought to the secret service five \$100 counterfeit sliver

certificates, head of President Monroe. The chief engraver at the bureau of engraving pronounced the counterfeit a very dangerous production. It was engraved on steel and printed on two pieces of paper pasted together after colored silk fiber had been distributed between them. The work, he said, was that of a very careful and excellent engraver, and while there was no appreciable difference between the genuine note and the counterfeit to the

ine note and the counterfeit to the casual observer, under a glass many slight differences were discovered. In view of the dangerous character of the counterfeit Secretary Gage decided to stop legaing and to call in all \$100 silver certificates, of which there are about \$95,000,000 outstanding. These will be exchanged for silver certificates of smaller denominations and the plates destroyed. As soon as new plates can be engraved a new series will be issued.

His Method of Forcing His Candidate. Dol. Stone, to Be Fought

AN IMPORTANT MEETING HELD.

entative Republicans Meet and olde That Action Must Be Taken. Other Names Canvassed for Governor-The Bosses and the Machine Must Be Halted-Peurose Pulled Off.

(From Our Own Correspondent.) Harrisburg, Jan. 4.—The discontent among Republicans in Pennsylvania vote given for Dr. Swallow is still ripe throughout the state. It will continue to grow also until the ruling powers in machine politics change their ordecide to recognize the fact that there is such a thing as public opinion in the state. The discontent expressed now is over the manner in which Senator W. H. Andrews is forcing the candidacy of Congressman William A. Stone

Heretofore there has been no open talk of opposition, in any definite way, to the methods of Andrews. But since my last letter was written this has taken shape and now several names are publicly mentioned in connection with the gubernatorial nomination of this year as representative of the antimachine, anti-Andrews element in the party. The name of Ex-Postmaster General John Wanamaker was canvassed in a quiet way at a meeting of influential Republicans held in Philadelphia dur-ing the past week. The same meeting discussed the candidacy of Congressman William Connell and canvassed the situation so far as the name of Hon. Henry C. McCormick, attorney general of the state, was concerned. Still another name, that of Major George W. Merrick, of Tioga county, was among those mentioned, and several

WERE NOT REPRESENTED.

The meeting of the Republicans referred to was held at a leading hote! in Philadelphia. Neither Senators Magee or Plinn, of Pittsburg, were present. Secretary of State David Martin was not represented, and did not know was not represented, and did not know of the meeting. Governor Hastings and Attorney General McCormick, who were in this city the night previous. left for Harrisburg two hours before the conference was held and in total ignorance that such a gathering was contemplated. None of the men prominently identified with the anti-Quay element in the late legislature were present at this meeting. Loss than 15 gentlemen were invited, but everyone of them attended. The newspapers of phis did not know of the meeting, and thus far have not published a line concerning it.

That there may be no mistake as to the character of the men who partici-pated in this conference, either as to their position in the business and finan-cial world, or as to their sterling Republicanism. It can be asserted with-out fear of contradiction that the ele-ments in the Republican party, repre-sented by them at this gathering have contributed in the past fire 22"TE not less than \$2,000 to national and state campaign expenses. It can thus be seen that the very bone and sinew of Republicanism was represented at this tor Quay and his friends to their present positions in the party, but who have grown tired of the arrogance, unfairness and total disregard of public sentiment displayed by these men whom they have made.

ANDREWS' METHODS OF WORK. chine politics generally. One gentle-man writing from Cumberland county

"Thus far the Andrews campaign has made no headway here. The record of the man is injuring the chances of his candidate, Colonel Stone, because our people figure out that master and man must possess something in com-mon, and so with a man like Andrews engineering his campaign there must be something wrong with the candidate. And yet, Senator Andrews has distributed enough buttons of Colonel Stone through the county to hold up the suspenders of half the schoolboys within our borders."

The other letters read at the meeting were largely of this character. Some of them detailed the efforts that have been made by Andrews to get organisations to endorse "his man." The information imparted at this meeting as to the progress of the Andrews cam-paign and the methods employed was of a very interesting character and indicated very widespread dissatisfaction, for it is openly asserted that Senator Andrews expects to be secretary of the commonwealth in the event of "his man" being elected governor.

TO OPPOSE THE BOSSES' CANDI-DATE.

The consensus of opinion at the meeting was wholly in favor of placing a conspicuous, clean cut and wholly irreproachable candidate before the people in opposition to the slated can-didate of the machine. The opinion was expressed that so thoroughly had Republican sentiment in the state been aroused that with anything like an efficient organisation the state convention could be carried against boss domination. The meeting adjourned, however, without having taken any decisive action, and subject to the call of the chair. Another meeting will be held in this city about the middle of aroused that with anything like an January, when further reports as to the feeling in the state will be re-

The names of the gentlemen participating in this meeting are immaterial at this time. They represented all secat this time. They represented all sections of the state, and are men of sound judgment and irreproachable character in their respective districts. Lest there be a minunderstanding it can be said that names and facts will be given in due time in connection with this movement, but at present it is deemed prudent fo restrict the knowledge of its operations to a limited number. It is not improbable that before the next meeting a committee of three will walk on Senator Quay for the purpose of informing, him fully on the subjects the

ANDREWS IN PHILADELPHIA. Considerable interest has been added to the local fight in Philadelphia by reason of the discovery that Senator Andrews has been quietly at work setting up Stone delegates in the various districts. The revelation was first made by the daily newspapers, and this in great part explains the frequent appearance recently in Philadelphia of the state senator with the asparagus appetite. Every power that can be exerted in being used by Andrews to fulfill Sen-ator Quay's wishes that Colonel Stone be the next governor of Pennsylvania. This extends as far even as to the disappearance of Senator Penrose from the Philadelphia sampaign.

Up until last Friday night Senator Penrose was stumping Philadelphia on behalf of Newitt, the ward leaders' candidate for tax receiver. It has been who is an unknown young lawyer, proposed to bolt the Republican city convention and set himself up as an independent candidate with the hope of receiving Democratic aid. Such action as this would furnish a fresh precedent for a bolt in the state convention, which will meet on June 2 to nominate a governor. For that matter a bolting precedent was established when "Sandy" Crow, with the aid of Democrats, was elected sheriff. But anyhow Congressman Stone is mortally afraid of being defeated, although Andrews, his boss, swears that he will carry him through.

PENROSE PULLED OFF.

On last Friday Colonel Stone went to Philadelphia, where he held a meeting with Senator Penrose, who was booked to speak that night at a big Newitt meeting in Germantown. The result of the meeting between Stone and Penrose was that the junior United States senator did not show up at the Germantown meeting that night. It was given out at the headquarters of the Leaders' league that he had been called unexpectedly to Washington. At his home it was announced that he had gone to Atlantic City. It was universally conceded among those who were familiar with the situation that Stone had pulled Penrose off. That he had represented to him how his (Penrose's) position in a factional scheme which contemplated a bolt would be a first clase excuse for a boit of disgruntled Republicans from the next state con-vention, and this would mean death to all his hopes. To avoid unpleasant ex-planations Senator Penrose took the next train out of town.

minerals.

A few years ago I was taken with inflammatory Rheumatism which, though
mild at first, became gradually so intense that I was for weeks unable to
valk. I tried several prominent physicians but was unable to get the slightest relief; the pain spread over my entire body, and for six months I suffered
gony. I tried many patent medicines,
but none relieved me. I then decided
to try S. S. S., but before allowing me
take it, my guardian, who was a
themist, analysed the medicine, and
pronounced it free from potash, mercuy and all other harmful mineral ingretients. I felt so much better after
aking two bottles, that I continued the
emedy, and in two months I was cured
to I have never since had a touch of
theumatism, though many times excosed to damp and cold weather.
