ATTORNEY AT LAW, MIDDLEBURGH, PA.

All business entrusted to his care will receive prompt attention.

CHAS. NASH PURVIS, Collections, Loans and Investments.

Real Estate and Private Banker, Williamsport, Lycoming Co., Pa.

A. R. Pottieger, VETERINARY SURGEON, SELINGROVE, PA.

All professional business entrusted to my care will receive prompt and careful attention.

Newly Established.

WEST PERRY HOTEL,

one-fourth mile East of Richfield. Rooms free for traveling men to drive to town, before or after meals. Rates 75 cents per Day.

J. E. Ross, Pro.

PATENTS OBTAINED. TERMS EASY.

Consult or communicate with the Editor of this paper, who will give all needed information.

## BLOOD POISON

A SPECIALTY Primary, Secondary BLOOD POISON permanently cured in 10 to 30 days. You can be treated at home for some price under same guarantee. If you prefer to come here we will treat you on railroad fare and hotel bills and charges. If we fail to cure, if you have taken mercury, iodine, potash, and still have aches and pains, Mucous Patches in mouth, Sore Throat, Pimples, Copper Colored Spots, Ulcers on any part of the body, Hair or Eyebrows falling out, it is this Secondary BLOOD POISON we guarantee to cure. We solicit the most obstinate cases and challenge the world for a cure we cannot cure. This disease has always baffled the skill of the most eminent physicians. \$500,000 capital behind our unconditional guarantee. Absolute proof sent on application. Address COOK REMEDY CO., 307 Masonic Temple, CHICAGO, ILL.

# STOVE: NAPHTHA

The Cheapest and Best Fuel on the Market. With it you can run a vapor stove for one-half cent per hour. Give us a call and be convinced.

Schoch & Stahlneck, Middleburgh, Pa.

WANTED—Agents to sell washing machines Jones L. Knoll, 107 S. 4 St., Lebanon, Pa. Jy 14.

A Common Danger.

If you have ever had a cold which you permitted to "wear away" it may interest you to know it was a dangerous proceeding. Every cold and cough which is neglected paves the way for consumption, bronchitis, asthma or catarrh. Otto's Cure, the famous German throat and lung remedy, will cure any cough or cold and save you from consumption. Call on W. H. Herman, Trezeville, Middleburgh & "Shah, McClure, H. A. Ebricht, Altoona and get a sample bottle free. Large sizes 25c and 50c.

## India The Horror-Stricken Empire. A NEW BOOK FOR AGENTS,

describing the great plague, famine, and earthquake. Accurate and authentic. English and German. Contains over 100 illustrations from actual photographs. No other book like it. Sell it right. Agents wanted everywhere. Liberal Terms. Write us at once. Address, MENNONITE PUBLISHING CO., Elkhart, Indiana.

## A Physician's Tribute

To the Benefits Received From Dr. Miles' NEW HEART CURE.

HEART DISEASE is curable. It is not surprising that all cases are not cured, since no physician has made the heart a special study for a quarter of a century as Dr. Miles has done. The following tribute from a physician prior to taking Dr. Miles' New Heart Cure may be read with interest. "For six years prior to my wife's terrible sufferer from heart disease. She had a constant fluttering of the heart and severe palpitation and pain in the left side. She took three bottles of Dr. Miles' New Heart Cure and was completely restored to health, and has not taken a drop of medicine during the past two years. Under these circumstances I cannot do otherwise than recommend it to others." Friendship, N. Y. W. H. Scott, M. D. Dr. Miles' Remedies are sold by all druggists under a positive guarantee first bottle benefits or money refunded. Book on Heart and Nerves sent free to all applicants. DR. MILES MEDICAL CO., Elkhart, Ind.

## COMFORT FOR COWS.

Animals That Are Well Treated Return the Kindness.

After milking in the way the average farmer does for a number of years, in an open lot, with a straw stack for shelter, and concluding that if a cow house would not be a paying investment it would at least add very much to the comfort of both cows and milker, we built one this fall. It is not an elaborate or costly affair, and is within the reach of almost any farmer who keeps a few cows. If there is anything more expediting than milking a restless cow in a muddy lot, I have failed to find it. It not only tries the patience, but injures the health and at least part of the cow's feed is wasted.

But I started to tell you about the cow house. It is 40 feet long and 11 feet wide with shingle roof. The stalls are a little less than four feet wide, and there is room for nine cows, and a place to store feed. Milking, which has always been a burden, is now a pastime; each cow knows her place and the weather does not interfere with milking time. We have broken three halves without any clubs or profanity. Two or three weeks before calving they were put in the cow house, taught to stand tied, and fed regularly with the right kind of feed, and gave no trouble either with calving or milking.

The total cost, labor included, was less than \$50. The interest on that sum at ten per cent. would only be five dollars, and it does seem that the saving in feed, comfort and health ought to be worth that. The dairy business does not seem to be very encouraging at present, but it gives a regular income, and there is generally a demand for a good article of butter; and with a lot of thrifty pigs to utilize the waste products, there ought to be some profit in it. —J. M. Terrell, in Journal of Agriculture.

## RIPENING OF CHEESE.

The Changes Which Usually Occur During the Process.

A well-cured cheese contains a higher percentage of fat than the same cheese does when green, and this gave rise to the idea that the action of rennet, or of the fermentation process, causes certain of the constituents of the cheese to be converted into fat. Partly by the object of testing this theory, Dr. Caldwell has undertaken an investigation of the changes which occur in the curing of cheese. The course pursued was to take several green cheeses fresh from the hoop, analyze the same, and then keep them in air-tight receivers to cure. By daily examination of the air in the receivers, everything that was given off from the cheese, or absorbed by it, was traced and noted.

Without going into minute details, it will be enough to say, in brief, that the examination of the air in the receivers showed that the cheeses all alike rapidly gave off carbonic acid and water, and as rapidly absorbed oxygen, in the early stages of curing, but afterward this steadily diminished. The weighing showed a steady loss in the total dry substance of the cheese from oxidation, and a loss in the cheese of each solid constituent—fat and casein—and that the casein lost more than the fat, thus leaving the fat in the cured cheese in larger proportion than in its green stage, and demonstrating that the increased percentage of fat in the ripe cheese over that in its unripe condition was not due to any increase of fat in the curing process, but to a greater loss of casein than of fat by oxidation. —C. G. Freer-Thonger, in Farm and Home, England.

## ECONOMY OF LABOR.

It Is Secured by the Building of the House Here Described.

The cut shows a unique idea in the establishment of a dairy and ice house. In many dairy sections it is now the practice to set the milk in cold water, or run it through a separator. Keep the

## DAIRY AND ICE HOUSE.

cream in a cold place until the creamery team makes its daily round, when the cream is sent away, and the skimmed milk retained for feeding to hogs or calves. Where this plan is practiced, the house shown in the accompanying illustration will be found exceedingly convenient. It is built against the north side of the barn, in the shade and away from the cattle, which are usually on the south side. The ice is stored in the part next the barn, the other part being used for milk tank, etc. This gives great economy of labor. The milk has but a few steps to be carried, while the skimmed milk is right at hand to be fed to calves, or to pigs whose quarters can either be in the barn cellar or in a near-by shed. The ice is also just where it is needed. —Farm Journal.

## Cheese from Sheep's Milk.

In the district of Roquefort, France, there is a cheese factory which uses the milk of some 250,000 sheep, turning out during the season from 3,000 to 3,500 tons of cheese. This is the celebrated Roquefort cheese, which is largely exported, and commands a very high price, both at home and abroad. The ewes give such an abundance of milk their lambs get sufficiently well grown to be safely weaned at two months old, leaving the dam then to be milked for the purpose of making cheese.

Inbred cattle inherit the leading defects of their parents or breed.

## Her Choice.

A lady who saw that her servant girl seemed to take a certain interest in the objects of art in her parlor said to her: "Which one of those figures do you like best, Mary?" "This one, mum," said Mary, pointing to the armless Venus of Milo. "And why do you like the Venus best?" "Sure, it's the aisiest to doost, mum," answered the girl.—Harlem Life.

## No Danger of Divorce.

"Yes," said the Soulful Artist, "yes, I am wedded to my art." He looked at his unhung picture and smiled sardonically. "Well," remarked The Brute, "I don't think you will ever have cause to sue anyone for alienating her affections."—Cincinnati Commercial Tribune.

## Getting Ready.

Dear woman now is cleaning house, and 'tis not strange she should; She thus has time to ride her wheel As soon as roads are good. —Chicago Record.

## A CASE OF EVOLUTION.

"I may not be very learned myself, but all my ancestors have been educated in the higher branches, anyway." "So I should think!"—London Idler.

## Creal.

"If I'm not right in what I say," quoth he, "I'll eat my head!" "Would not be hard," the maid replied; "Calves' brains are good," 'tis said. —N. Y. World.

## Under Difficulties.

"Boys, if you don't stop that racket in there I'll thrash you till you can't stand! Don't you see I'm trying to write?"

"What are you writing, papa?"

But papa didn't answer. He was evolving an article on "Irritability, Our National Foe," for one of the magazines. —Chicago Tribune.

## Might Be So Interpreted.

"Oh, my angel!" cried the lover. "Promise me that you will be ever my angel!" "Now, look here," returned the prosaic girl of the period, "none of that. I don't like it. It sounds as if you wanted to marry me in Heaven, and I don't want to wait that long."—Chicago Post.

## An Important Point.

"Here," said Mrs. Perkaskie, as she glanced over the daily paper, "is the account of the arrest of a man for stealing \$10,000 worth of diamonds." "Genuine diamonds," asked Mr. Perkaskie, "or did they belong to an actress?"—Detroit Free Press.

## A Strictly Correct Answer.

Cumso—What is the difference between the north pole and the south pole? Fangle—If that is a conundrum, I'll give it up. What is it? Cumso—All the difference in the world.—Harlem Life.

## Willie's Herotam.

Mamma—How did you get your clothes so badly torn? Willie—Tryin' t' keep a little boy from being licked.

Mamma—That was a brave deed. Who was the boy?

Willie—Me.—Up-to-Date.

## A Misapprehension.

"Do you think that glasses tend to weaken the sight?" asked Col. Stillwell's friend.

And after pensive consideration, the colonel replied: "It depends, suh, intially on how many you take."—Washington Star.

## Satisfactory.

Ada (pensively)—I hope you'll invite me to the wedding when you get married.

Jack (boldly)—I'll invite you the first one, and if you don't accept there won't be any wedding.—The Rival.

## His Stock in Trade.

Black—Brown is always borrowing trouble.

White—That isn't the worst of it.

Black—What then?

White—He insists on everybody sharing the loan with him.—Up-to-Date.

## Reassuring Him.

Guest—The last time I was here I found flies in the soup.

Waiter—You won't find none in this soup. I fished 'em out wid my finger befoah I brung de soup outer de kitchen.—Tammany Times.

## In Doubt.

"Here is a story of an 18-year-old boy who has already had three wives." "Indeed?" said the thoughtful man. "Now, I wonder whether he should be termed foolhardy or courageous."—Chicago Post.

## Faithful Comparisons.

She—I suppose a cigar is company for a man, is it not? He—Oh, yes, almost as much company as a looking-glass is for a girl.—Vonkers Statesman.

## Quite Likely.

Brown—What would you do if some one should leave you \$100,000? Jones—I suppose I'd begin to realize how little a hundred thousand really is. —N. Y. Trib.

## ROAD IMPROVEMENT.

ORGANIZED EFFORT.

Good Roads Arrogation in Wisconsin Assumes Practical Form.

The Wisconsin division of the Century Road Club of America has sprung a sensation. Ever since the publication of the fact that the Century Road club members were going to shame the great state of Wisconsin into building better roads, there has been a real interest manifest in the project. This new-born activity is not confined to Milwaukee, but extends throughout the state, as wide publicity has been given to the plan of building better highways.

Due credit should be given State Centurion H. L. Marshall, whose untiring energy is responsible for the new movement. Mr. Marshall has outlined the work in an ingeniously constructed circular addressed to local centurions. It is proposed to petition the state legislature to appropriate the sum of \$500,000 for road improvements. For every dollar given by the state, another dollar will be contributed by riders of wheels. The whole arrangement is exceedingly comprehensive. For the purpose of obtaining signatures to the petition, the

We want two State roads through the State, built and maintained by the State.

ARE YOU WITH US?

ADDRESS: H. L. Marshall, Milwaukee, Wis.

STATE CENTURION, WISCONSIN DIVISION, CENTURY ROAD CLUB OF AMERICA.

AN IDEA FROM WISCONSIN.

state will be divided into districts, co-extensive with the political divisions set apart for the election of state assemblies. Each of these districts will be in charge of a captain, who will see to it that his lieutenants obtain the signatures of every citizen who is interested in road improvement. It is proposed to have each assemblyman head the list in his respective district, so that the legislature will simply be petitioning itself.

Every wheelman and wheelwoman who signs the petition agrees to give one dollar for road building as soon as the state has made the appropriation. When the monstrous petition is completed, it is proposed to have 1,000 wheelmen visit the state capital and present the document to the legislature in support of a good roads bill. Of course the local centurions in all the towns will lead their respective delegations to the capital. As an aid to the enterprise, State Centurion Marshall has caused to be made a sketch of the state in outline, with the proposed roadways running through it. A cut of the design is published herewith, and it will be used on the backs of envelopes by all enthusiastic cyclists and their business friends. Speaking of the project, State Centurion Marshall said:

"Members of the Wisconsin division have long realized that only by active work could anything be accomplished in the way of road improvements. In such an enterprise we are dealing with politicians and the only way to treat with a politician is to allow him to make no promises. Performance is the thing, and we propose to make the politicians perform. All the talk in the world would not build a mile of road. What you need is sand, and perhaps gravel, not to disdain a few rocks to help out the plan.

"I have realized all along what a great task this is, but I think it can be accomplished. Our petition cannot be signed by all the members before it is presented. It takes a nifty politician to deny his own signature. We who ride only on the highways are competent to judge of what is needed. We propose to give dollar for dollar with the state, and shame the commonwealth into an act of civilized progress. The design I have made is for use on the backs of envelopes, and we want all the members of the legislature to begin using these designs, even if we have to present them with their stationery. We do not expect to do much talking about this matter, except where it will promote the project. What we need more than anything else is a little action."—Cor. Cycling Gazette.

Benefits of Good Roads. The financial benefits of good roads are numerous and pretty well understood by those who have given the subject careful thought, but the questions of increased convenience and greater values must not be considered of any more importance than the civilizing effect that passable highways would bring to the community at large. Men are gregarious by nature, and the freer intercourse between all parts of a country, the greater will be its development, commercially, intellectually and morally.—Outlook.
