Tells of the Great Benefits Derived From
Dr. Miles' Heart Cure.

HEART DISEASE of long standing is not easily cured, but it is CURABLE. Elder Wm. Tennon writes: "I was afflicted for thirty-five years with heart disease, in fact, troubled with it nearly all my life; I think it hereditary as my father was afflicted with it. I have suffered great distress, my heart palpitated to such an extent as to shake my whole body. So distressing was it I could only with great difficulty compose myself to sleep. About two years ago I began taking Dr. Miles' Heart Cure. The first bottle gave me no perceptible benefit, but after taking the third I began to feel much relief and I continued for some months. I have good reason to believe the cure is permanent. Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on Heart and Nerves sent free to all applicants. DR. MILES MEDICAL CO., Elkhart, Ind."

Chemisettes to Be Worn with Spring and Summer Gowns.

Black Braided Serge—How to Trim Your Sleeves—A Dainty Lounging Wrapper That is Well Recommended.

THE COMING CHEMISETTE.

Nothing is so absolutely certain in making forecasts of coming styles as the popularity of the chemisette. It is seed in the tailor gown, the silk waist, the organdie or Swiss summer dress. For the present, it is made of tuckered silk, but when the weather grows

Such a dress, with a quiet, white linen collar, will serve for a shopping or business gown; but if a dressier costume is wanted one need only add a more elaborate arrangement of lace and ribbon around the neck, clip on a hat that flares away from the face like the one in the picture, and one is ready for afternoon tea, calls, carriage rides, matinees, or anything else that may suddenly arise.

It must not be supposed for a moment that because sleeves have become less voluminous they have also become less elaborately trimmed. On the contrary, it is very much more trouble to make a small sleeve than a large one. No two arms are alike, and the pattern which just fits one will have to be taken in or let out for another. They have one saving grace, however. They do not require so much material.

One method of trimming a tailor-made sleeve suggests possibilities of economy to the thrifty soul. It is the one on the left of the picture at the top. Instead of being gathered around the top there are five darts taken in and stitched. If this sleeve is cut from fresh goods, five slashes should be made in the pattern, but if it is made from the old one, as it easily can be, this is only another means of disposing of too much fullness around the top of the arm.

A pretty sleeve for a silk or organdie gown has three ruffles edged with lace around the top and at the wrist. A velvet cap with lace applique looks well on a dressy sleeve. Wide lace at the under side of the wrist is also admissible for house dresses. Shirt waists frequently have a tiny, plaited tuft just above the cuff where it opens.

One of the sweetest morning wrappers for summer, or even now, for wear in one's boudoir, is made of white tuckered Swiss. Young women who wear warm

A LESSON ON FORGIVENESS.

International Sunday School Lesson for April 24, 1898.
[Based upon Peioubert's Select Notes.]
THE LESSON.—Matthew 18:21-35. Read chapter 18.
GOLDEN TEXT.—Forgive, and ye shall be forgiven.—Luke 6:37.
TIME.—Autumn of A. D. 23. After the Feast of Tabernacles, which that year occurred October 11.
PLACE.—Capernaum, near the Sea of Galilee.

EXPLANATION.
In these latter months Jesus gives many practical instructions to His disciples, for the guidance of their future conduct. In this lesson we should take up the whole subject of forgiveness. Jesus spoke repeatedly upon this duty, because it was very practical; it was a touchstone of the real state of the heart; the demand for its practice was very frequent; it was a duty of almost daily practice by Christ himself; it was a very hard duty, contrary to the prevailing tendency of the age.

I. The Law of Forgiveness for Personal Offenses.—Vs. 21, 22. In the previous portions of this discourse Jesus had referred to offenses which led others to sin, and had been teaching the disciples what to do when others trespassed against them. The duty seemed to lie on Peter's mind, as one difficult to perform, and differing from the prevailing opinions of the day. Hence Peter asked the question that follows, in order to gain more light. "How oft shall my brother sin against me, and I forgive him?" He foresees that his brother would probably repeat his offense. In answer Jesus enunciates the principle that always and under all circumstances we must have a forgiving heart, whatever the offense against us, or the attitude of the offender; never the spirit of hate, or revenge, or retaliation. "I say not unto thee, until seven times; but, until seventy times seven." It is a symbolical expression for never-ending forgiveness.

II. An Illustration.—Vs. 23-34. Jesus proceeds to enforce this principle by a parable in three scenes. The picture is drawn from an oriental court. The provincial governors, farmers of taxes and other high officials are summoned before a despotic sovereign to give an account of their administration.

One was brought before the king who owed him 10,000 talents. This is estimated to be worth \$10,000,000 or \$20,000,000 if weighed by Hebrew talents; a Greek talent was about half the weight of a Hebrew talent. In either case it was a sum impossible to pay. So his lord commanded him to be sold, and his wife, and children, and all that he had, and payment to be made. It is still common in oriental countries to inflict all this upon a man of the highest station. "The servant therefore fell down and worshiped him, saying: Lord, have patience with me and I will pay thee all. Then the lord of that servant was moved with compassion and loosed him, and forgave him the debt." There was no other way of deliverance.

The immense debt of this guilty officer represents the magnitude of the debt which the sinner owes to God, and the hopelessness of ever paying it. Sins are compared to debts, because they represent all that duty and love which we owe to God, but have never by our lives paid; all that in which we have come short of the glory of God. All this unmeasured debt of sin God freely forgives for the sake of Jesus, His Son. He forgives in such a way as to take away both the sin and the penalty of sin. Some of the consequences of sin are not immediately taken away, because they are needful for the taking away of the sin itself. But the penalty and the worst consequence of sin are taken away immediately by forgiveness—the separation and alienation of the soul from God.

Scene Second.—Then this same servant went out and found a fellow servant who owed him 100 pence. The silver penny was about the same as a denarius, and 100 of them were worth \$16 or \$17, about one millionth part of the debt the unmerciful servant owed the king. And he took him by the throat, saying: Pay me that thou owest. "And his fellow servant fell down at his feet, and besought him, saying: Have patience with me, and I will pay thee all. And he would not, but went and cast him into prison, till he should pay the debt." The man who is most sinful toward God is apt to be the hardest in dealing with those who sin against himself.

Scene Third.—The other servants felt great pity for the unfortunate man, and told unto their lord all that was done. They were sure he would listen, since he had been so compassionate toward the first debtor. "Then his lord, after that he had called him, said unto him: O thou wicked servant, I forgave thee all that debt, because thou desiredst me: Shouldst not thou also have had compassion on thy fellow servant, even as I had pity on thee? And his lord was wroth, and delivered him to the tormentors, till he should pay all that was due unto him." His heart must have been very hard and cruel. The mercy of his king could not soften it. He had sought forgiveness from fear of loss, not because he was sorry for his wrong doing. The sufferings of others did not move him.

Then Christ adds the moral: "So likewise shall my Heavenly Father do also unto you, if ye from your hearts forgive not everyone his brother their trespasses." And our forgiveness is not to be merely in form and words, but from sincere love, with true forgiveness.

through the winter? If so, we are sure it quieted your cough, healed the rawness in your throat, increased your weight, gave you more color, and made you feel better in every way. But perhaps your cough has come back again, or you are getting a little thin and pale. Then, why not continue the same helpful remedy right through the summer? It will do you as much good as when the weather is cold. Its persistent use will certainly give you a better appetite and a stronger digestion. warmer it will come out in thinner materials, such as white organdie or mull.

The one here shown is made of white silk laid in tucks. The stock, also, is tucked, but horizontally. The waist with which it is worn is a blue plaid in rather fine pattern. It fastens at the left side with a square notch near the top, and the edge is trimmed with a fine knife-plaiting of the silk. The sleeves have the same trimming at the waist. A white leather belt finished the bodice at the waist.

Plaid silk shirt waists are among the latest importations. They come in the boldest of patterns and are very stunning. Red plaid with a red sailor hat will make a very gay-looking summer girl for the beaches and boardwalks, but that is a long way ahead.

Black serge made in the manner here indicated will make a stunning street dress for spring. Its simplicity recommends it to the amateur who is courageous enough to attempt a gown "out of whole cloth" as well as to her who would renew last year's dress. The only trimming is black braid sewed on the lower part of the scant blouse, on the upper sleeves, and around the hips

clothing in a warm room as is required out on the street in cold weather. Many young girls wear this organdie waists when receiving friends in the evening, and never experience the least discomfort or injurious results from the change.

The wrapper has both daintiness and comfort to recommend it. It has three rows of shirring around the neck to give the effect of a yoke, and there is a heading of pink ribbon next the throat. Below the rows of shirring are two flounces of white Swiss, bound with pink satin ribbon, which run down the front edges almost to the bottom, growing narrower all the way, and finally ending in points. The sleeves are shirred to the elbow, where they also are trimmed with two flounces bound with ribbon. The flounces which edge the yoke meet in a point at the back.

THE LATEST.
Where Blankets Originated. In the reign of Edward III, there were at Bristol, England, three brothers, who were eminent clothiers and woolen weavers, and whose family name was Blanket. They were the first persons who manufactured that comfortable material which has ever since been called by their name, and which was then used for peasant's clothing.
