### Eczema! The Only Cure.

Eczema is more than a skin disease ad no skin remedies can cure it. The setors are unable to effect a cure, and sir mineral mixtures are damaging to the most powerful constitution. The whole trouble is in the blood, and Swift's Specific is the only remedy which can reach such deep-seated blood

Smema broke out on my daughter, and con sed to spread until ter head was entirely red. She was treated by several good doctors, but grow worse, and the andful disease spread to her face. She was taken to two celebrated beaith springs, but reentred no benefit. Many

delines were taken, but without ree decided to try S. S. S., and by the
t bottle was finished, her head beA dozen bottles cured her comleft her skin perfectly smooth. She
een years old, and has a magnificent
of hair. Not a sign of the dreadful
thas ever returned.

H. T. Shone.

H. T. SHORE, 2704 Lucas Ave., St. Louis, Mo.

Don't expect local applications of coaps and salves to cure Eczema. They reach only the surface, while the dicomes from within. Swift's

S.S.S.Fir. Blood

is the only oure and will reach the most obstinate case. It is far ahead of all similar remedies, because it cures cases which are beyond their reach. S. S. S. is purely vegetable, and is the only blood remedy guaranteed to contain no pot-

ges of Volunteer Offices The war department has decided to change its policy in the matter of granting applications of volunteer officers for discharge, and bereafter no such application is to be considered unless indorsed by a superior officer and forwarded through him. Heretofore the discharges have been granted without applying any general rule, upon application of officers for themselves, indorsed by the representatives or senators from their states. Now that the president has definitely prescribed the regiments that are to constitute the army, it is felt to be impracticable and injurious to the army to continue this indiscriminate method of making discharges under stress of political influence, and hereafter political influence is not to be allowed to have weight in this matter. Inasmuch as the president looks to the regimental officers to maintain the efficiency of their organizations, it is not regarded by him as fair to them to allow discharges to be made, which may seriously interfere with their organizations, without consulting them. therefore the rule is to be rigidly ap-

A couple who were separated by the civil war were a few days ago, after nearly 40 years apart, reunited by accident, in Newark, O. Samuel Gassaway resided at Mount Vernon when the war broke out. He had been married a short time before he enlisted, and went to the front. After the war was over he returned to his home, but all trace of his wife was lost. She had heard that he had been killed, and had gone away. He, too, wandered away, and settled near Steubenville, where, after several years passed, he married a second time, believing his wife dead. Mrs. Gassaway also married again, and, a few years ago, her second husband having died, she returned to the seene of her early home. Gassaway's wife and children having died, he went to Mount Vernon the other day, and was dumfounded to find the woman he had married long ago. Her name was Mrs. Jesse Headington. Mutual explanations followed, and the couple decided to renew their marital relations.

This story is by an Iowan, but it concerns Missouri, and is put in print by the Macon Republican. The Iowa man was traveling with his little girl south on the Wabash a few days ago. It seems she had been told by prejudiced and misinformed relatives that Missouri was the home of the James boys and desperadoes in general, who were continually chooting people. She has asked her father to be sure and tell her when the train passed across the line and entered Missouri. The father promised, but it appears he forgot to inform her, until the train got below Coatesville, where the shooting affray occurred between Heaton and the Currys. As soon as the first shot was fired the little girl took her father's hand and screamed: "Oh, papa! we are in Missouri now, I know. Let's get off!" In fact, the train was just a few miles across the Missouri

Though only two of the largest American shells took effect on the Cervera fleet, it must not be forgotten that a 13-inch gun on the Oregon caused the surrender of the Colon. The range was five miles, and the huge gun was fired four times. The first shot fell astern, but covered the Colon with water. The third dropped near her bow and the fourth under her stern. At this point the Spaniard headed for the beach and struck her colors. Yankee target practice with a gun of the largest caliber was too much for her.

When the Princess Eulalie was at the world's fair everybody got a mild type of the Spanish fever. A Wichita man couldn't think of any other souvenir of her visit and so he had the Spanish flag tattooed on his wrist. The Eagle says that ever since the opening of the war he has been trying to get rid of the ugly mark. He has succeeded in blotting out the colors, but still has the form of the flag.

Premier Sagasta declares that all the financial difficulties of the government have been removed. The sum of 35,000,000 francs has been forwarded to Capt. Gen. Blanco, with a repetition of the order to disband the volunteers. It is understood that the government is willing to provide unemployed Spaniards in Cuba with free passage home.

One of the members of the Sixth ineye. Even a discolored optic, it seems, may assume the form of a herois halo.

DR. SWALLOW'S LATEST CHARGE

Allegation That Garman Wanted to Sell Out the Democra

Williamsport, Pa., Nov. 1.—Dr. Swallow, the Honest Government candidate for governor, made a startling accusa-tion in his speech here last night. He boldly charged that Chairman Garman had made a proposition to Senator Quay to sell out the Democratic party, and read an affidivit made by E. C. Miller, a traveling man of this city, in support of his statement. Mr. Miller's affidavit declares:

On or about Sept. 8 last he met Charles E. Keck, a lawyer of Wilkesbarre, on a railroad train between Williamsport and Philadelphia, and they engaged in conversation, during which Keck stated: "I am going down to see Quay on a mission from Mr. Garman. I have a proposition from Mr. Garman to the old man which, if accepted, will positively assure the election of Stone." I said to Keck: "It's a funny thing that Garman would send you, a Republican," to which Keck replied, "Garman told me that he had lots of men in the Democratic party, but none that he could trust with a mission of that kind. The proposition is that if certain legislation and favors in certain counties are given to Garman he will insure those counties for Stone, and he will offer positive evidence that he can deliver the goods."

Miller's statement gones on to tell of Keck's visit to Atlantic City to see Quay, and of Keck's declaration to Miller afterward that he "thought he had fixed it up all right with the

Harrisburg, Nov. 1 .- Senator Quay passed through here late last night on his way from Philadelphia to his home in Beaver. Shown the charges madby Dr. Swallow of a proposition from Democratic State Chairman Garman to 'sell out" to Quay, the senator said: "The charges are absolutely untrue. I have never had an interview with either Mr. Keck or Mr. Garman."

#### SOLDIERS IN A WRECK.

Six of Them Injured, and One Will Lose a Hand.

Middletown, Pa., Oct. 29.-The last long train of weary soldiers from Philadelphia reached Camp Meade last evening, and the men went direct to their quarters. General Graham arrived this morning, and the last arrangements for moving the troops south are being made. It is expected that there will be a movement made by Nov. 7, and the entire corps will get away by Nov. 20.

An accident that might have resulted very seriously occurred to the train on which the Ninth Ohio colored troops were going to Camp Meade from Philadelphia. The train had reached Hummelstown, on the Reading road, and was waiting to be switched on to the branch road that goes to Middletown. While standing on the switch a freight train from Harrisburg came along on the same track, and before it could be flagged it crashed into the troop train, smashing the rear car and injuring six men, all of Company C. Floyd Stewart had his hand crushed, and it will have to be amputated. The cause of the accident is alleged to be the carelessness of the flagman in not going back far enough to stop the freight train, he not taking the usual distance customary where a train is flagged. Half a dozen freight cars were smashed, and the ca containing the horses on the troop train was broken open and the animals escaped, adding to the confusion.
