# Cause of the L. V. Wreck.

Air Brake on the Northbound Train

Refused to Work. The cause of the wreck on the Lehigh Valley Railroad, which occurred Friday morning near Wilkes-Barre, has been explained by John Rohlfing, the engineer on the run-

away train. ENGINEER ROHLFING'S STORY.

Engineer John Robling, of Mauch Chunk, who had charge of the engine that got beyond control on train No. 5, said: "My train was late and at White Haven I received orders to meet train No. 6 at siding No. 7. At Fairview I stopped and telegraphed for a pilot to pilot me W. J. H. Spiegelmyer, attorney- to Sayre, I having received orplace. Usually I run only as far as Wilkes-Barre, From Fairview I "Tramp, Tramp, Tramp, the Boys twp. containing 100 perches. Con- often ran as fast before and had no trouble in keeping my engine under control. But this morning about a mile above Newport station the ennot give any cause for it: I only know that my efforts to slacken its speed were in vain. I tried hard to regain control of the nuchine, but it was lapsesible. I was powerless to avoid the crash that I felt was sure to come, and I whistled down lankes as land as I could. My fireman, John Boyle of Manch Chunk. jumped below the collision, but my ancation sens so taken up trying to regain control of the engine that I and always multi the crash came.
