

CANCER IS DEADLY!

Results Fatally in Nine Cases Out of Ten—A Cure Found at Last.

This fearful disease often first appears as a mere scratch, a pimple, or lump in the breast, too small to attract any notice, until, in many cases, the deadly disease is fully developed. Cancer can not be cured by a surgical operation, because the disease is a virulent poison in the blood, circulating throughout the system, and although the sore or ulcer—known as the Cancer—may be cut away, the poison remains in the blood, and promptly breaks out afresh, with renewed violence.

The wonderful success of S. S. S. in curing obstinate, deep-seated blood diseases which were considered incurable, induced a few despairing sufferers to try it for Cancer, after exhausting the skill of the physicians without a cure. Much to their delight S. S. S. proved equal to the disease and promptly effected a cure. The glad news spread rapidly, and it was soon demonstrated beyond doubt that a cure had at last been found for deadly Cancer. Evidence has accumulated which is incontrovertible, of which the following is a specimen:

MRS. S. M. IDOL.

"Cancer is hereditary in our family, my father, a sister and an aunt having died from this dreadful disease. My feelings may be imagined when the horrible disease made its appearance on my side. It was a malignant Cancer, eating inwardly in such a way as to cause great alarm. The disease seemed beyond the skill of the doctors, for their treatment did no good whatever, the Cancer growing worse all the while. Numerous remedies were used for it, but the Cancer grew steadily worse, until it seemed that I was doomed to follow the others of the family, for I know how deadly Cancer is, especially when inherited. I was advised to try Swift's Specific (S. S. S.), which, from the first day, forced out the poison. I continued its use until I had taken eighteen bottles, when I was cured sound and well, and have had no symptoms of the dreadful affliction, though many years have elapsed. S. S. S. is the only cure for Cancer.—Mrs. S. M. Idol, Winston, N. C.

Our book on Cancer, containing other testimonials and valuable information, will be sent free to any address by the Swift Specific Company, Atlanta, Georgia.

FARM & GARDEN

BARBED WIRE FENCE

Description of a Tried Method by Which One Man Can Build One Without Help.

At each end of the line of fence set three posts two and a half feet deep, tamping the dirt firmly about them. If the work is done in early spring, the posts can be sharpened and driven in with a maul. The posts should be just one rod apart. The intervening posts can be set about two feet deep and a rod apart. The value of the barbed wire fence depends upon the tension of the wires. If they are loose, the fence is ineffective and dangerous for farm animals. If the end posts are firmly braced and the wires tightly stretched at first there will be no difficulty in this respect.

In bracing, the plan suggested in the accompanying illustration is very desirable. Between the end post and the one next to it, set an extra post. You will thus have two spaces eight feet and three inches apart in which to put braces (aa). For braces use strong material that will not bend and then counterbrace it by means of wire (bb)

THE SYSTEM EXPLAINED.

attached to the bottom of the first post and the top of the second for the first space, and from the bottom of the second post to the top of the third for the second space, and so on. These braces should be made of two strands of wire twisted together by means of a small rod until they are very tight. If there is a tendency to loosen, the wire can be further twisted and the slack taken up in this way. This matter of end braces is very important and if the soil is soft or if there is any danger of their becoming loosened, get extra large posts and set them in the ground deeper, say three and a half to four feet.

To unroll the wire, place a tough pole four feet long through the spool and lay it across the wagon bed, so that the wire will roll off the top of the spool. Stick small standards in the staple at each side of the bed to keep the spool from rolling off. Take out the end gate, fasten the wire to the end post at the required height and drive the team slowly, watching to see that the wire does not become entangled as it unrolls. When you get to the twentieth post, stop the team, brace the wagon so that it cannot run backward. Fasten one end of a chain to the spoke of the hind wheel next the posts, and the other end of the chain to the wire, now turn the wheel by hand and wind the chain up on the hub until the wire is tight, and then staple the wire fast to the posts. If it is a long stretch of fence, it is best to put in braces occasionally to assist in stretching. By this method, one man can build a wire fence by himself. If anyone has a better plan I will be glad to hear of it.—American Agriculturist.

DEWBERRY CULTURE

Each Fruit Grower Should Make an Effort to Raise at Least a Few of the Plants.

There is no more delicious berry than the dewberry when it is fully ripe. Even when only turned black and not yet as sweet as it becomes when perfectly ripened it makes delicious sauce and pies that come as nearly to wholesomeness as pies ever get.

The berries are two or three times as large as blackberries and the plants of most varieties are perfectly hardy. The Lucretia is probably the best one ever introduced, as it was the first, this variety having been found growing wild in Virginia by an Ohio soldier during the rebellion. Noticing its good qualities, he marked the place, and after the war was ended he went back and got the original plant, naming it after his wife, Lucretia.

The difficulty with and chief cause of complaint against the dewberry is its trailing habit, although its dreadful spines come in for considerable criticism. As there is no rose without a thorn, so it seems one of the best berries must have the longest and sharpest thorns of any of its family.

With all these faults it pays to have a few dewberry plants, and usually these make a place for themselves that leads to an increase in the original plantation. They should be trained to a low trellis or over a frame and given the very best cultivation, remembering that it is impossible to make the soil too rich for them. If this is kept in mind, dewberries will add to the value of the berry products of the farm and produce crops that will overbalance any physical failing its habit of growth may develop.—Farmers' Voice.

Bisulphide of Carbon

Inhaling bisulphide of carbon is death to anything that moves. It can be used safely and with certainty of accomplishing the desired results, if the infected regions are air tight. Its application does not injure corn, wheat or other grain, as it is very volatile and soon passes off, leaving no traces. It is, moreover, very inflammable and should never be used in proximity to any light or great heat. It can be used in houses for killing moths and other vermin, but the odor generated is something sickening. It will, however, soon pass away with the creation of a draft.

RECENT INVENTIONS

A New York woman has patented a fan and umbrella combined, the handle of the latter being hollow, with a screw knob at the end, to which the fan is attached, so that it can be closed and slipped into the handle when not in use.

Electricity is used to drive a new dental engine for operating drills and cleaners, the motor being mounted at the base of the bracket and connected with a gear shaft running through tubing, with a short, flexible shaft at the outer.

A Canadian has patented a chimney which increases the amount of light diffused by a flame, a number of glass rings of triangular shape in cross-section forming a tube to surround the flame, the inner surface being smooth and the outside corrugated.

A handy counting device for scoring games is formed of a fan-shaped plate, with pointers pivoted at the base to swing around the curved edge, the latter having graduations for units, tens and hundreds, with notches which hold the pointers from slipping.

To change eye-glasses into spectacles a new attachment has a semicircular rim with a bow extending from its center and spring clamps at the ends which engage the rim of the glass and hold the bow in position to extend back to the side of the head.

In a toy cue for a small billiard table a cylinder is fitted with an internal spring, a sliding rod being placed inside the spring and engaging it at the front end to propel it forward and drive the ball, the rod carrying a tip at one end and a grip at the other.

Railway cars are easily changed from broad to narrow gauge by an Australian patent, the wheels being attached to the axle by screw threads, several turns in either direction drawing the wheels together or spreading them, with levers and ratchets to lock them in either position.

POINTED PARAGRAPHS

Hospital doctors are merely ward healers.

When a man loses faith in humanity he hits himself a solar-plexus blow.

Treat a dog kindly and he will not desert you when your money is gone.

Beauty is but skin deep, but homeliness measures 12 inches to the foot.

Wise is the man who knows that he doesn't know it all.

A girl isn't necessarily an angel because she is flighty.

Any fool can talk, but wise men know how to think.

An up-to-date woman says her husband is the very latest thing out.

If a painting is not a work of art it is a work of art to sell it.

Hunger may sharpen the wits, but it puts a rough edge on the temper.

Every time a great actress makes a farewell tour she usually does fare well.

Both the wily liveryman and the blighted bondholder use cutters in the accumulation of wealth.

What this country needs is a few converted heathen to do a little missionary work in our large cities.

A mother may realize that her baby says and does things similar to other babies, but she also realizes that her baby says and does them much better.—Chicago Daily News.

BITS OF SCIENCE

A scientist declares that, in the course of centuries, blue eyes will be eliminated from the human economy.

A German scientist claims that the memory is stronger in summer than in winter. He says that among the worse foes of the memory are too much food, too much physical exercise, and too much education.

Nicola Tesla thinks that a man has just so many hours to be awake, and the fewer he uses up each day the more days will they last. "I believe," he adds, "that a man who slept most of the time might live 200 years."

ELECTRICAL NOTES

A trolley road in Maine has a rotary snow-plow.

There are 1,000 electric lamps in the white house at Washington.

It is estimated that the incandescent lamps in use in all parts of the world have over 400,000,000 candle power.

In the United Kingdom, in 1870, there were 6,539,177 telegrams dispatched. Last year there were 83,029,999.

It has been found that in bald people the growth of the hair is stimulated, and its color changed, by the judicious application of electric currents.

Tests were recently made in Pola, Austria, with an improved Marconi system of wave telegraphy which enabled the presence and the course of a vessel six to seven miles distant to be determined. The name of the inventor of the system is Schefler.

THE ANIMAL KINGDOM

There are 48 kinds of the house fly. Arctic animals turn white every winter.

The West India humming-bird weighs only 20 grains.

The best bridge-builder in the world is the common spider.

In proportion to their weight, dogs can absorb without danger 16 times as much arsenic as would kill a human being.

Lovely Women in the Lagar at the Quinto Colteiros, Portugal.

Girls treading Grapes, to music, wearing short jackets and short linens, but a great variety of headgear. A violinist, seated on the edge of the vat, idles while one or two of the dancers join in with their voices, keeping time with their feet, treading the grapes.

Rubber Rollers are Used for Crushing the Grapes to Make Speer's Port, Burgundy, Claret and Other Wines.

Which, as is well known, rival the world in excellence, for invalids and aged persons, and are made from the Oporto grape grown on vines imported from Portugal forty years ago. The soil of northern New Jersey, containing iron, is just suited for them. Mr. Speer, however, uses the improved way of mashing the grapes. He employs large rollers of rubber run by an engine which crush grapes at the rate of a barrel a minute. Speer's Wines, especially the Port and Burgundy now in market, are of very old vintage, and have no superior. Physicians far and near prescribe them for weakly females and aged persons. They are blood-making, adding iron to the system, and tend to prolong life. Extensively used at parties, weddings and general family use. SOLD BY DRUGGISTS AND GROCERS WHO DEAL IN WINES.

Shadow and Light

Blend most softly and play most effectively over a festive scene when thrown by waxen candles.

The light that heightens beauty's charm, that gives the finished touch to the drawing room or dining room, is the mellow glow of

BANQUET WAX CANDLES

Sold in all colors and shades to harmonize with any interior hangings or decorations.

Manufactured by STANDARD OIL CO. For sale everywhere.

BUY COPPER SHARES FOR LARGE PROFITS.

Buy now, before the price rises. The following table shows the steady and rapid rise in value of shares of copper mines since the first of January, 1903.

Arizona	11.97	8.16	14.99
Colorado	11.97	8.16	14.99
Idaho	11.97	8.16	14.99
Montana	11.97	8.16	14.99
Utah	11.97	8.16	14.99
Wyoming	11.97	8.16	14.99

It can be seen that a specially low price is a limited number of shares in one of the very best of the low-priced copper stocks and in one of the largest companies in America, already having many Pennsylvania stockholders. Pennsylvania investors know that investments in good low-priced mining stocks have made fortunes for many people. The copper share is a good investment in all cases and can be bought by this is your opportunity. Local representatives wanted.

VICK'S SEEDS

Sales and Plants have gone to thousands of satisfied customers for half a century, and to celebrate the 50th year in business we have issued a Golden Wedding edition of

Vick's Garden and Floral Guide

which is a work of art. It is now lithographed in color, 4 pages souvenir, nearly 100 pages filled with handsome full-color illustrations of Flowers, Vegetables, Plants, Fruits, etc., elegantly bound in white and gold. A manual in catalogue making, an authority on all subjects pertaining to the garden, with care for the same, and a descriptive catalogue of all that is desirable. It is too expensive to give away indiscriminately, but we want everyone interested in a good garden to have a copy. Therefore we will send the Guide and a far DUE BILL for 25c, worth of seed 15c. It tells how credit is given for Full Amount of purchase to buy other goods.

Vick's Little Gem Catalogue... A perfect little gem of a free list. It is simple, the Guide condensed, fully illustrated, and in handy shape, making it convenient for reference. FREE.

Vicks Illustrated Monthly Magazine Entered, improved and up to date on all subjects relating to gardening, horticulture, etc. 50 cents a year. Special 1903 offer—the Magazine one year, and the Guide for 25 cents. See new plan of getting Vegetable Seeds gives you more for your money than any seed house in America.

James Vicks Sons, Rochester, N. Y.

A SUMMER SAIL

in ladies' shoes is a pleasant voyage afoot. For the pleasure it gives, there's no sail like our sale. Crowds are enjoying it, and securing the prettiest, coolest, and best fitting Summer shoes now manufactured, at prices which buyers find it a pleasure to pay. For house or street wear, pleasure or every-day practical purposes, walking, riding, or driving, we supply the ideal shoes demanded by fashion and the dictates of individual taste. Ladies, whoever claims your hands, by all means surrender your feet to these shoes.

BIGGLE BOOKS

- A Farm Library of unequalled value—Practical, Up-to-date, Concise and Comprehensive—Handsomely Printed and Beautifully Illustrated.
- By JACOB BIGGLE
- No. 1—BIGGLE HORSE BOOK. All about Horses—a Common-Sense Treatise, with over 74 illustrations; a standard work. Price, 50 Cents.
 - No. 2—BIGGLE BERRY BOOK. All about growing Small Fruits—read and learn how; contains 43 colored life-like reproductions of all the leading varieties and 100 other illustrations. Price, 50 Cents.
 - No. 3—BIGGLE POULTRY BOOK. All about Poultry; the best Poultry Book in existence; tells everything; with 33 colored life-like reproductions of all the principal breeds; with 103 other illustrations. Price, 50 Cents.
 - No. 4—BIGGLE COW BOOK. All about Cows and the Dairy Business; having a great sale; contains 8 colored life-like reproductions of each breed, with 132 other illustrations. Price, 50 Cents.
 - No. 5—BIGGLE SWINE BOOK. Just out. All about Hogs—Breeding, Feeding, Butchery, Diseases, etc. Contains over 50 beautiful illustrations and other engravings. Price, 50 Cents.
- The BIGGLE BOOKS are unique, original, useful—you never saw anything like them—so practical, so sensible. They are having an enormous sale—East, West, North and South. Every one who keeps a Horse, Cow, Hog or Chicken, or grows Small Fruits, ought to send right away for the BIGGLE BOOKS. The

FARM JOURNAL

Is your paper, made for you and not a misfit. It is 22 years old; it is the great booted-down, hit-the-nail-on-the-head, quit-after-you-have-said-it, Farm and Household paper in the world—the biggest paper of its size in the United States of America—having over a million and a half regular readers.

Any ONE of the BIGGLE BOOKS, and the FARM JOURNAL 3 YEARS (remainder of 1903, 1904, 1905 and 1906) will be sent by mail to any address for a DOLLAR BILL. Sample of FARM JOURNAL and circular describing BIGGLE BOOKS free.

WILMER ATKINSON, CHAS. F. JENKINS, Address, FARM JOURNAL PHILADELPHIA

Comrades, Attention. I served from '62 to '64, and was wounded May 10, 1864, in the Battle of the Wilderness. I would like to have my comrades know what Celery King has done for me. In 1890 my old complaint, chronic diarrhoea, came back. The doctors could not stop it, but Celery King has cured me, and I am once more enjoying life.—FRANK BEHNER, OWSOSS, Mich. (Co. F, 9th N. Y. V. I.). Celery King for the Nerves, Liver and Kidneys is sold in 5c. and 25c. packages by W. H. Herman, Trosseller; Middleburgh & Ush, McClure; H. A. Ebricht, Allentown.

A Cure for Nervous Headaches. For eight years I suffered from constant and severe headaches, the headache usually lasting three days at a time. Headache powders relieved me temporarily, but left too bad an effect. Since I began taking Celery King I have greatly improved in health, seldom or never have headache, have gained in flesh, and feel decidedly well.—Mrs. E. S. Hatch, Temple, N. H.; Celery King for the Nerves, Liver and Kidneys is sold in 5c. and 25c. packages by W. H. Herman, Trosseller; Middleburgh & Ush, McClure; H. A. Ebricht, Allentown.
