How To Gain Flesh

Persons have been known to gain a **pound a day** by taking an ounce of **SCOTT'S EMULSION**. It is strange, but it often happens.

Somehow the ounce produces the pound; it seems to start the digestive machinery going properly, so that the patient is able to digest and absorb his ordinary food, which he could not do before, and that is the way the gain is made.

A certain amount of flesh is necessary to health; if you have not it, you can get it by **SCOTT'S EMULSION**.

You will find that in summer as in winter, and if you are thriving upon it, don't stop because the weather is warm.
