# You

need not lose flesh in summer if you use the proper means to prevent it. You think you can't take SCOTT'S EMULSION in hot weather, but you can take it and digest it as well in summer as in winter. It is not like the plain cod-liver oil, which is difficult to take at any time. If you are losing flesh, you are losing ground and you need

## Scott's Emulsion

and must have it to keep up your flesh and strength. If you have been taking it and prospering on it, don't fail to continue until you are thoroughly strong and well.

There is more catarrh in this section of the country than all other diseases put together and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proved catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Hall's Family Pills are the best.

Jams.

In making jams, fruit should be carefully cleaned and thoroughly bruised, as mashing before cooking prevents it from becoming hard; boil 15 or 20 minutes before adding sugar, as flavor of fruit is thus better preserved (usually allowing three-quarters pound of sugar to pound of fruit), and then boil one-half hour longer. Jams require almost constant stirring, as slightest degree of burning ruins the flavor. Try a little on a plate, and let cool. If no juice gathers, and it looks dry and glistening, it is done thoroughly. Keep jellies and jam in cool, dry and dark place.—Boston Globe.

A Mother Tells How She Saved Her Little Daughter's Life.

I am the mother of eight children and have had a great deal of experience with medicines. Last summer my little daughter had the dysentery in its worst form. We thought she would die. I tried everything I could think of, but nothing seemed to do her any good. I saw by an advertisement in our paper that Chamberlain's Colic, Cholera and Diarrhoea Remedy was highly recommended and sent and got a bottle at once. It proved to be one of the very best medicines we ever had in the house. It saved my little daughter's life. I am anxious for every mother to know what an excellent medicine it is. Had I known it at first it would have saved me a great deal of anxiety and my little daughter a great deal of suffering.—Yours truly, Mrs. Geo. F. Bunker, Diberty, R. I. For sale by all Druggists.

Some Mexican Laws.

A Topeka man who recently toured Mexico tells that they have some very curious criminal laws down there. For example, the statutes make it twice as much of an offense to mutilate the face of a woman as that of a man. While in the City of Mexico he attended court one day and saw a man sentenced to one year in prison for cutting his paramour across the face with a knife. If his victim had been a man the sentence would not have been more than four months at the outside. The law seems to be based on the idea that a woman's best possession is her beauty, and that to mar it does her a great injury. There is another curious law. If a person should be wounded in an encounter the punishment to the offender is fixed by the number of days his victim has to stay in the hospital or under a doctor's care. A line is fixed at 40 days in the way of a general division. If the injured man occupies more than 40 days in his recovery the penalty doubles up. As we understand the Topeka man these are not court customs, but statutory enactments.

Drink Grain-O

after you have concluded that you ought not to drink coffee. It is not a medicine but doctors order it because it is healthful, invigorating and appetizing. It is made from pure grains and has that rich seal brown color and tastes like the finest grade of coffee and costs about as much. Children like it and thrive on it because it is the genuine food drink containing nothing but nourishment. Ask your grocer for Grain-O, the new food drink. 15 and 25c.

## Nearly Fifty-Eight Years Old!

It's a long life, but devotion to the true interests and prosperity of the American People has won for it new friends as the years rolled by and the original members of its family passed to their reward, and these admirers are loyal and steadfast to day, with faith in its teachings, and confidence in the information which it brings to their homes and firesides.

As a natural consequence it enjoys in its old age all the vitality and vigor of its youth, strengthened and ripened by the experiences of over half a century.

It has lived on its merits, and on the cordial support of progressive Americans.

It is the "New York Weekly Tribune," acknowledged the country over as the leading National Family Newspaper.

Recognizing its value to those who desire all the news of the State and Nation, the publisher of THE POST, (your own favorite home paper), has entered into an alliance with "The New York Weekly Tribune" which enables him to furnish both papers at the trifling sum of \$1.25 per year.

Every farmer and every village owes to himself, to his family, and to the community in which he lives a cordial support of his local newspaper as it words constantly and untiringly for his interests in every way brings to his home all the news and happenings of his neighborhood, the doings of his friends, the condition and prospects for different crops, the prices in home markets, and, in fact, is a weekly visitor which should be found in every wide-awake, progressive family.

Just think of it! Both these papers for only \$1.25 a year. Send all subscriptions to "THE POST," Middleburgh, Pa.
