Let harmony be practiced among all members and the entertainment will be sure to be a success. In almost every community there are some people who always mind other people's business. Some people take delight in circulating news among their neighboring people, especially such news as are nothing but bare faced lies. This is a very plain statement, but while criticizing your neighbor's character, it would be good to glance at the diagram he has of yours, and then what a nice place this world would be to live in if women were as nice as they look and all men were as good as they seem. Miss Annie Gift of Sunbury is spending a few days with her parents.

It will not be a surprise to any who are familiar with the good qualities of Chamberlain's Cough Remedy, to know that people everywhere take pleasure in relating their experience in the use of that splendid medicine and in telling of the benefit they have received from it, of bad colds it has cured, of threatened attacks of pneumonia it has averted and of the children it has saved from attacks of croup and whooping cough. It is grand, good medicine. For sale by all druggists.

To speak with perfect frankness, I must say that there are few ladies' quartets that I care to hear, but I must make one exception of the CAROL CLUB. I have heard them in a variety of selections, both secular and sacred, and I was simply delighted with their singing. The voices blend beautifully, their interpretation is intelligent and their rendering very skillful. It gives me genuine pleasure to recommend them to all who may be seeking artistic musical combinations. I do not see how one can fail to be delighted with their work.—REV. GEO. L. PERIN, D. D., pastor of the Every Day Church, Boston.

Instruction for a Farm Boy.

Enormous Cost of Uneducated Labor Pointed Out by Dr. Schaeffer.

Chambersburg, Nov. 14.—Superintendent of Public Instruction N. C. Schaeffer was the principal speaker at the session of the Franklin County Teachers' Institute to-day. He told the teachers the value of a boy is the difference between uneducated and educated labor. An educated man is not paid by the day, but by the month or year. An estimated value of an uneducated man for forty years has been made, at \$18,000; that of forty years of educated labor at \$40,000. The farmer who keeps his boy at home to plough to save paying a ploughman robs his boy of \$9 each day.

The time of the boy, he said, may be wasted by his idleness or truancy by the teacher who misdirects the boy's efforts or by superintendent, in requiring unnecessary examinations. "Are we teaching our children self-reliance," said the State Superintendent, "or are we teaching them to rely on others? There are marvels and glories surrounding the farmer's boys that are shut out from the boys who are crowding the cities. There seems to be the lack of the right kind of instruction for the farm boy."

The Adamsburg Herald of last week says: Register and Recorder John H. Willis came to town with Prof. Bowersox on Monday and while here paid the Herald a short visit. Mr. Willis will be a candidate for re-election at the next Republican primary, and as the two-term rule has generally been in force in connection with this office and Mr. Willis has given excellent satisfaction as an official. He will no doubt be renominated without opposition.

Attempt to Rob a Store.

The store of E. G. Shaffer, at Oriental, Juniata county, was entered by burglars Thursday night of last week. Mr. Shaffer has the electric alarm at all windows in his store room, connected it with his bed room in the dwelling house, a distance of about ten rods. About 12 o'clock that night he happened to get awake and looked out the window, seen light in his store room, getting his shot gun and raising his window he fired through one of the store windows, the shot lodging deep in the wall on the opposite side, but did not hit the rascals. He then went to the room and found his safe ready to shoot off. The money drawer was broke open, and the change, consisting of a few dollars, was out and some lying on the floor. If Mr. Shaffer would not have seen the light and scared them off they would undoubtedly have helped themselves to a good many things and destroyed the safe. Mr. Shaffer had no money in the safe. This is the third attempt in a few years to rob this store. If another attempt is made we hope Mr. Shaffer will be able to get a little closer and give them a hot reception.—Herdon Star.
