Squire Steely took in the sights in New Lancaster one day last week having been clerk at Moser's sale. He was prevented from being torn to pieces by a herd of wild cats by his son, James. It was after night and on the top of the mountain when the cats made themselves heard.

My advice is it parties who attend public sales and expect to purchase fifty or a hundred dollars worth of goods on the strength of the credit, they should be prepared with their bondsmen. Otherwise, it puts the owners in a bad shape as the goods will be left on their hands.

Try Grain-O! Try Grain-O.

Ask your grocer today to show you a package of GRAIN O, the new food drink that takes the place of coffee. The children may drink it without injury as well as the adult. All who try it, like it. We have saved many doctor bills since we began using Chamberlain's Cough Remedy in our home. We keep a bottle open all the time and whenever a y of my family or myself begin to catch cold we begin to use the Cough Remedy, and as a result we never have to send away for a doctor and incur a large doctor bill, for Chamberlain's Cough Remedy never fails to cure. It is certainly a medicine of great merit and worth.—D. S. MEARLE, General Merchant and Farmer, Mattie, Bedford county, Pa. For sale by all Druggists.

ASK YOUR DOCTOR!

Ask your physician this question, "What is the one great remedy for consumption?" He will answer, "Cod-liver oil." Nine out of ten will answer the same way. Yet when persons have consumption they loathe all fatty foods, yet fat is necessary for their recovery and they cannot take plain cod-liver oil. The plain oil disturbs the stomach and takes away the appetite. The disagreeable fishy odor and taste make it almost unendurable. What is to be done? This question was answered when we first made

SCOTT'S EMULSION

of Cod-Liver Oil with Hypophosphites. Although that was nearly twenty-five years ago, yet it stands alone today the one great remedy for all affections of the throat and lungs.

The bad taste and odor have been taken away, the oil itself has been partly digested, and the most sensitive stomach objects to it rarely. Not one in ten can take and digest the plain oil. Nine out of ten can take SCOTT'S EMULSION and digest it. That's why it cures so many cases of early consumption. Even in advanced cases it brings comfort and greatly prolongs life.

It is very hard to stand idly by and see our dear ones suffer while awaiting the arrival of the doctor. An Albany (N. Y.) dairyman called at a drug store there for a doctor to come and see his child, then very sick with croup. Not finding the doctor in, he left word for him to come at once on his return. He also bought a bottle of Chamberlain's Cough Remedy, which he hoped would give some relief until the doctor should arrive. In a few hours he returned, saying the doctor need not come, as the child was much better. The druggist, Mr. Otto Scholz, says the family has since recommended Chamberlain's Cough Remedy to their neighbors and friends until he has a constant demand for it from that part of the country. The illustrated lecture of Ben Hur given by Dr. Heisler in the college lecture course on Tuesday evening of last week was well attended and to say the lecture was excellent is putting it mildly. Every person was delighted with it and there is a general desire to have it repeated in the near future.

A. R. De Fluert, editor of the Journal, Doylestown, Ohio, suffered for a number of years from rheumatism in his right shoulder and side. He says: "My right arm at times was entirely useless. For sale by all Druggists.

A Cheerful Liar.

A Pennsylvanian, writing home of his travels in Kansas, says: "In Kansas barbers die of starvation. When you see a wagon on the road looking as if it was loaded with corn-silk, it's only the the old farmer man's whiskers stacked up behind him. Most of the streets are paved, the grains of corn being used for cobblestones, while the cobs are hollowed out and used for sewer pipes. The husk when taken off whole and stood on end makes a nice tent for the children to play in. It sounds queer to hear the feed man tell the driver to take a dozen grains of horse feed over to Jackson's livery stable. If it were not for soft, deep soil here I don't see how they ever would harvest the corn, as the stalks would grow up in the air as high as a Methodist church steeple. However, when the ears get too heavy their weight presses the stalk down in the ground on an average of ninety-two feet; this brings the ear near enough to the ground to be chopped off with an ax."
