Insurgent Junta Becoming Active and Lenders Have Been Placed Under Arrest-Brigands Committing Atrocities-Perfidy of Officials.

Manila, March 19.-General Ofis considers Manila the most troublesome center in the situation today. The insurgent junta here, in conjunction with that in Hong Kong, is growing active. The military authorities have been forced to put a stop to Mabini's intercourse with the public. The local and foreign press considers his recent utterances calculated to incite the Filipinos to a continued revolt and prejudical to American control.

Flores, who has just arrived here, says he comes trusting to American leniency, and that he would not have dared come to Manila if Spain were in control. He cherishes the hopes and aspirations which actuated him when in the field, and desires to watch congressional action upon the question of the Philippines. The insurgents, he says, do not expect to vanquish the Americans, but are maintaining a resistance with the idea of forcing congress to accord them the best possible terms.

A number of representative insurgent leaders from different parts of Luzon have recently been in conference in Manila. Some have been placed under arrest, but the others thus far have not been interfered with.

Louis Spitzel, head of the firm of Louis Spitzel & Co., contractors to the Chinese government, and himself a suspected filibuster, came from Hong Kong to Manila last week and was temporarily detained in custody on suspicion. It is asserted upon good authority that three loads of arms and ammunition have recently been landed on the east coast of Luzon. Captain Taylor, of the Thirty-ninth regiment. recently captured 12 new Mausers near Calamba.

Reports are current here of active rebel reorganization in the provice of Morong, where the insurgent leaders are said to be assisted by prominent Spanish residents. Inhabitants of this province who are now in Manila have been advised not to return to their homes, but to remain under the protection of the Americans.

It is also reported that the rebels at reorganizing in the province of Zanbales, under Mascardo. Brigands are committing atrocities in the province of Nueva Eciga, where they have murdered 20 natives and Chinamen. Eight other murders have been committed near Tarlac. The Nueva Eciga in-surgents are heavily taxing local traders and farmers, with the result that business is paralyzed and there is a general scarcity of food.

The funds for maintaining this guerrilla warfare are collected from the various towns of the island, whether occupied by the Americans or not, even including Manila.

In the province of Albay the insurgents have ceased harrassing the Americans, owing, it is reported, to a lack of ammunition, but they continue ravaging the country side, burning and looting. The natives are tiring of this sort of thing, and threaten to turn against the marauders. Already the mine laborer, to be used for the aid of townspeople of Legaspi, Albay and Donzol are slowly returning to their

MANILA A TROUBLESOME CENTER CREMATED BY AN EXPLOSION.

Not a Vestige of George Martin's Body Recovered From a Terrible Accident-A Condemned Murderer's Confession-Killed by a Bull.

Pittsburg, March 17 .- By the fall of a "hang" at the Monongahela Furnace company at McKeesport yesterday one man was cremated, two fatally burned and two others hadly injured. Ceorge Martin is the cremated man. George Curvan and Sydney Jackson were so badly burned that their recovery is impossible. Stephen Stoboswick and John Boreneck were badly burned, but will recover.

Explosions of this character are frequent in this section, but the absolute disappearance of Martin lends on air of mystery to the affair that makes it unique. Three hundred tons of meral. coke and minerals used in the ption of pig iron became fast in the furnace and Martin and Curvan, as top fillers, tried to dislodge it. Suddenly the entire mass fell, compressing the gas below and causing a terrific explosion.

Not a trace of Martin's booy can be found. Curvan, when discovered, was in horrible shape and cannot possibly survive. The other men who were at the bottom of the furnace failed some better, but Jackson is so had's burned that his recovery is next to incluse sible.
