THE WAR IN AFRICA.

British Column to Drive Boers Out of Griquatown.

THE SMALL FORCES OF BOERS.

It Is Said They Could Not Put More Than Thirty Thousand Men on the Firing Line-President Stevn Fled Against His Own Judgment.

London, March 27 .- Military observers here, and even those in close affiliation with the war office, are considerably confused as to what is being done for the succor of Mafeking. Some 5,000 or 6,000 men are engaged with Lord Methuen at Warrenton and Fourteen Streams, and now another column is about to leave Kimberley, if it has not already started, for Griquatown, 18 miles westward. Its ostensible purpose is to drive out the Boers. The force is described as "a strong one," and the expedition as "likely to attract much attention."

General French is reported from Bloemfontein Sunday as returning from Thaba Nchu, without apparently having headed off Commandant Olivier, with his 15 guns and miles of baggage.

The Times prints a statement from Cape Town to the effect that the Boers, after deducting heavy losses, are probably unable now to put more than 30,-

000 men on the firing line. Boer horsemen are in contact with the British outposts from Biggarsberg to Warrenton.

General Buller's patrols had a sharp skirmish Sunday at Waschbanh. Lord Roberts' infantry have now

been quiet for 14 days, and news of an lotine. advance is hourly expected at the war The Bloemfontein correspondent of The Morning Post, telegraphing Sat-urday, says: "I learn that Mr. Steyn fled against his own judgment, and on

the persuasion of Mr. Fischer that duty to his country required that he should remain uncaptured as long as resistance was possible." A Pretoria dispatch says: General

Joubert has returned from Kroonstad. He is full of hope, and may return to Natal shortly. Messrs. Wolmarans, Fischer and

Wessels, the peace envoys from the federal forces, are due at Naples in a few days. After visiting two or three European capitals they will go to New York by way of Antwerp. It is un-derstood at The Hague that they are invested with large powers, and are prepared to agree to anything looking to intervention.

Last Friday Lieutenant Lygon was killed and Lieutenant Colonel Crabbe, Lieutenant Colonel Codrington and Captain Trotter were wounded by members of the Johannesburg mounted police. The Britons had ridden eight or nine miles beyond their camp on the Modder river without escort except one trooper. They met a party of five Boers, whom they tried to capture. The Boers took refuge on a kopje, where three of their comrades were hidden, and within five minutes every member of the British party was hit. After dressing the wounded the Boers sent them to the British camp in an ambulance.

Interesting Statistics From New News Items of Interest From All York's Labor Bureau.

RAN AWAY DOWN THE MOUNTAIN THE SOUTHERN ITALIANS LEAD

In the Number of Arrivals, Followed by Hebrews, Slovaks and Poles. Small Percentage of Irish Immigrants-Demand For House Servants

Albany, March 26 .- The annual report of John McMackin, state superintendent of labor statistics, says:

"The building outlook in New York city is very good, plans having been filed last December for 2,038 buildings, to cost \$28,753,000. Immigration returns for the guarter ended Dec. 31. 1899, show an increase of 17,914 arrivals at New York over the preceding quarter, and 23,012 more than in the last three months of 1898. In the latter quarter the arrivals numbered 51,-380; in the same three months of 1899, 74,892, and for the quarter ended September, 1899, 56,978.

Comparing the returns for the clos ing quarter of 1899 with those of the corresponding period of 1898 it is seen that the largest proportional gain of those races recording at least 2,000 arrivals, was made by the Slovaks, the increase being 3,418, or 121.7 per cent. The Polish race was second, with an increase of 94.2 per cent, or 3,105 in number; the Croatians and Slavonians show a gain of 1,845, or 35.4 per cent The increases among other races were Hebrew, 3,303, or 63.2 per cent; Scan-dinavian, 1,236, or 40.8 per cent Northern Italian, 1,046, or 33.6 pe cent; Southern Italian, 3,038, or 20.1 per cent; Magyar, 2,017, or 20.1 pc cent; German, 558, or 10 per cent; Irish, 60, or 1.6 per cent.

In point of numbers the Southern Italians still retain the lead in immigration, the arrivals of that race be ing nearly one-fourth of the total. after Jan. 1, promising an advance to their employes to take effect April, 1, There were 15,149, or 24.2 per cent, of that class who landed during the quarter which ended last December. Next in the numerical order come the Hebrews with 10,076, or 13.5 per cent; then follow the Poles with 6,401, or 8.3 per cent; Slovaks, 6,226, or 8,3 per cent; Germans, 6,118, or 8.2 per cent; Scandinavians, 4,436, or 5.3; Northern Italians, 4,140, or 5.5 per cent Irish, 3,745, or 5 per cent.

The proportion of male and femal-

immigrants who arrived at New York

in the last three months of 1899 did

during the like period of 1898 22,835, or 44 per cent. Of the principal races

noted in the arrivals during the clos-ing three months of 1899 the greatest
