There is good prospects for an abundant peach crop as the trees in this vicinity are all loaded with healthy buds.

Coleman Seebold is planting a peach orchard, using a new method for fertilizing the trees at time of planting. His method consists of placing old leather around the bottom of the roots.

Our correspondent has just received a letter from a friend near Kinsey, Kansas, which says that there the cherries are budding and the people are planting corn, which shows that they have spring earlier there than we have here.

In almost every neighborhood there is some one whose life has been saved by Chamberlain's Colic Cholera and Diarrhoea Remedy, or who has been cured of chronic diarrhoea by the use of that medicine. Such persons make a point of telling of it whenever opportunity offers, hoping that it may be the means of saving other lives. For sale by all druggists.

Snyder County's Death List.

DANIEL D. BOHNER.

Daniel D. Bohner died near Oriental, Pa., Apr. 19, 1900, aged 79 years, 2 months and 16 days. He was married, Dec. 24, 1839, to Elizabeth Crawford. They lived together as husband and wife for over sixty years. This union was blessed with twelve children of which three sons and five daughters with the widowed mother survive. At the time of his death he had forty grandchildren and twenty four great grandchildren. The community deeply sympathizes with the family in this sore bereavement. He was a cripple all his lifetime; could not walk without a crutch, but his deformity, we trust, has been transformed into an eternal youth of perfection and happiness. He had a kind and affectionate disposition and was much thought of by the people of the community as was plainly evidenced on the day of his funeral (Sunday, April 22) by the large concourse of people that assembled to pay their last tribute of respect to him as he was laid to his last resting place in the burial plot of Leininger's church to await the message of the resurrection morn. H. M. T.

**Half Sick
Half Well**

Many persons have their good day and their bad day. Others are about half sick all the time. They have headache, backache, and are restless and nervous. Food does not taste good, and the digestion is poor; the skin is dry and scaly and disfigured with pimples or eruptions; sleep brings no rest and work is a burden.
