AN EXCELLENT DEVICE.

tering Hogs That Is Superior to Most Patented Troughs.

The hog waterer illustrated is a ome-made affair, but is superior to by patent trough or waterer I ever v. Its cost is but little. It is made two barrels, Figs. 1 and 2, a section piping, a tin float and a valve that n be bought at any hardware store. The barrel, Fig. 1, receives the water om the well. It is set into the ground ith the rim just above the surface. he float, a, can be made by a tinner d should be of galvanized iron so at it will not rust out. It should be out 10 inches in diameter and 4 inch-

HOG-WATERING DEVICE.

thick. An iron rod, b, is fastened the bottom of this float and connects ith the valve at the bottom, which oses the supply pipe when the barel is filled. The escape pipe, c, leads om this barrel to the watering barel, Fig. 2. It will be readily seen that e water in the barrels, if they are on a level, will remain the same.

For the top of the watering barrel, olt 2x4 blocks together, as shown in ig. 3. This will give the hogs and pigs ree access to the water without any langer of the smaller ones falling in nd being drowned. The supply pipe and also the pipe leading to the trough rom the barrel containing the float vill be far enough below the surface prevent freezing, and it will be found hat there are few nights cold enough winter to freeze the watering barrel it is placed so deep in the ground hat no more than an inch or two proects above the surface. The other barel, which can be placed outside the en, can be protected by banking with raw or manure and hay. The supply servoir must be higher than the barls, a large tank being suitable. The ipe where it leaves the tank enters the round at once and can readily be proected from freezing.-Orange Judd

LIVE STOCK ON FARMS.

onservative Estimate Furnished by the Statistician of the Agricultural Department.

The statistician of the departmen of agriculture has completed his anmual estimate of the number and alue of live stock on farms. Reurns from more than 50,000 correpondents show that January 1 there vere on the farms of the United ates 13.537.524 horses, 2.086.027 nules, 16,292,360 milch cows, 27,610,-54 other cattle, and 41,883,065 sheep. This is a decrease of 127,783 in the number of horses, of 48,186 in that of nules, and 384,171 in that of cattle other than milch cows. On the othhand, it is an increase of 302,245 in he number of milch cows, and of 2,768,612 in that of sheep.

The department has made no estinate of the number of swine, but will wait the enumeration to be made by the United States census in June

There has been an increase in value during the years averaging \$7.21 per ead in the case of horses, \$8.60 per head in that of mules, \$1.94 per head n that of milch cows, \$2.18 per head a that of other cattle, and 18 cents r head in that of sheep. This repsents a total increase in value durng the year of nearly \$216,000,000. sclusive of a manifestly considerable, out not definitely ascertained, inrease in the value of swine. The total increase in the value of the farm mimals of the United States during the last three years exceeds \$570,000,-. Farm horses have increased in value \$151,000,000; mules, \$19,000,000; milch cows, \$146,000,000; other cattle, \$181,000,000; sheep, \$56,000,000, and wine about \$20,000.000.

How to Care for Sheep.

There are two things that the seep need as much as any animals on the farm. They need fresh air and hey need exercise. The sheep shed hould be so built that when it rains snows so that the sheep cannot take their daily run in the field the windows or upper-half doors can be pened to allow the fresh air to enher freely. If they have not been only those who grow winter lambs ear in the fall. But whenever the weather is suitable they should have run out in the field, not a yard bare of grass, and filled with mud and mare, but in an open field. Even in damp day they may be out for a ort time, but not long enough to get their wool wet through. The unsiness of sheep when in a pasture hows their need of exercise. They rill not eat and lie down as a cow loes, and some of the smaller breeds are almost as ready to jump on a wall for the fun of jumping as goats --- American Cultivator.

The sheep eats almost everything which grows, but because the sheep the champion farm scavenger is no tason why he should have no betaser than weeds and briers.

Women Remember

That in addressing Mrs. Pinkham you are communicating with a woman a woman whose experience in treating woman's ills is greater than that of any living person—male or female. A woman can talk freely to a woman when it is revolting to relate her

private troubles to a man.

Many women suffer in silence and drift along from bad to worse, knowing full well that they should have immediate assistance, but a natural modesty impels them to shrink from exposing themselves to the questions and probable examination of even their family physician. It is unneces-sary. Without money or price you can consult a woman, whose knowledge from actual experience is unequaled. Women suffering from any form of female weakness are invited to freely

communicate with Mrs. Pinkham at Lynn, Mass.
All letters are received, pened,

read and answered by women only. This is a positive fact-not a mere statement. It is certified to by the mayor and postmaster of Lynn and the Women's Christian Temperance Union, whose letters, all in a little book, Mrs. Pinkham has just published. Thus has been established the eternal confidence between Mrs. Pinkham and the women of America which has never been broken and has induced more than 100,000 sufferers to write her for

advice during the last few months. Out of the vast volume of experience which she has to draw from, it is more than possible that she has gained the very knowledge that will help your case. She asks nothing in return except your good-will, and her advice has relieved thousands. Here is one of the cases we refer to:

Miss Collier Writes for Mrs. Pinkham's Advice, Receives it, and is Made Well. Read Her Three Letters:

"DEAR MRS. PINKHAM-I have read in a paper of a young lady who was cured by the use of Lydia E. Pinkham's Vegetable Compound, and would like your advice in regard to my case. I have taken medicine, but do not see that it has helped me much. I have such dreadful cramps and pains at time of menstruation that it seems sometimes as though I could hardly stand it. I would be so thankful if I could find a cure for my trouble. Please tell me what to do."—Miss LILLIE M. COLLIER, Pigeon Run, Ohio, April 9, 1896.

"I received your letter in reply to mine and I followed your kind advice; have taken four bottles of your Vegetable Compound. I think it has helped me a good deal. How many bottles will effect a cure?"—Miss LILLIE M. COLLIER, Pigeon Run, Ohio, July 11, 1898

"I again did as you advised me and now I feel it my duty to tell you what Lydia E. Pinkham's Vegetable Com-pound has done for me. For five years I suffered untold agonies at time of menstruation. I have now taken twelve bottles of Compound and used three boxes of Liver Pills and am entirely cured of the dreadful pain I used to suffer. I advise all those who suffer with female weakness to write to Mrs. Pinkham, at Lynn, Mass. Miss Lillie M. Collier, Pigeon Run, Ohio, May 10, 1899.

Two More Women Who Acknowledge the Help They Have Received from Mrs. Pinkham.

"DEAR MRS. PINKHAM-The doctor says I have congestion of the womb. and cannot help me. There is aching in the right side of abdomen, hip, leg, and back. If you can do me any good, please write."—Mus. NINA CHASE. Fulton, N. Y., December 20, 1897.

"DEAR MRS. PINKHAM-I followed your instructions, and now I want every woman suffering from female trouble to know how good your advice and medicine is. The doctor advised an operation. I could not bear to think of that, so followed your advice. I got better right off. I took six bottles of Lydia E. Pinkham's Vegetable Compound and used three packages of Sanative Wash; also took your Liver I Pills, and am cured."—Mrs. NINA CHASE, Fulton, N. Y., December 12,

"DEAR MRS. PINKHAM-Have been suffering for over a year and had three doctors. At time of menstruation I suffer terrible pains in back and ovaries. I have headache nearly every day, and feel tired all the time. The doctor said my womb was out of place.
Would be so glad if you could help me."
—Mrs. Cart Voss, Sac City, Iowa,
August 1. 1898.

"Please accept my sincere thanks for the good your advice and Lydia E. Pinkham's Vegetable Compound has done me. I did everything you told me to do, and used only three bottles, and feel better in every respect."— Mrs. Carl Voss, Sac City, Iowa, March

Mrs. Pinkham has Fifty Thousand Such Letters as Above on File at Her Office—She Makes No Statements She Cannot Prove.

VIRGINIA'S BIG APPLE TREES.

Some Glants That Grow at the Foot of the Blue Ridge Mountains.

Near Stuart, Va., at the foot of a spur of the Blue Ridge mountains, there is an apple tree which measures nine feet and five inches around, says the Philadelphia Record. Five feet from the ground are four branches, the largest being six feet around, the next five feet six inches, the next five feet, the smallest four feet five inches. The tree is 52 feet high and 71 feet broad. Although it is about 70 years old it bore this year a very large crop. It has been known to produce 110 bushels in a season, and, as might be supposed, the soil in which it grows is exceeding-

On a neighboring farm there is an apple tree which is eight feet five inches around. In 1880 85 bushels of nice picked apples were gathered from it and sold at the apple house for \$60. The tree is 75 years old and is still bear-

Two miles from Stuart, on the farm of J. W. Robertson, stands the famous Robertson apple tree, the parent of all the apple trees of that name in the United States. It bears a large red apple, which keeps well, and it has produced at one bearing 85 bushels, is IF YUU WISH TO BECOME about 80 years old and is still in bear-

A few years ago there was on a farm near Stuart an apple tree which produced at one bearing 130 bushels. 11 shaded at meridian 90 feet of ground in diameter. Apple trees grow very large in Patrick county, and the flavor of the fruit is unsurpassed.

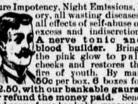

Remarkable Cure of Rheumatism. Kenna, Jackson Co., W. Va.

About three years ago my wife and an attack of rheumatism which confined her to her bed for over a nonth and rendered her unable to valk a step without assistance, her imbs being swollen to double their termal size, Mr. S. Maddox insisted n my using Chamberlain's Pain Balm. I purchased a fifty cent bot le and used it according to the di-ectains and the next morning shealked to breakfast without assis oree is any manner, and she has not had a similar attack since,-A. B. Parsons. For sale by all drug

THE REST OF ALL.

ECZEMA = SATANIC

rating and tormenting of all skin diseases is caused by an acid condition of the blood, and unless relieved through certain instrumentalities too much of this acid poison reaches the skin and it becomes red and inflamed. The itching and burning are

of this soid poison reaches the skin and it becomes red and inflamed. The itching and burning are almost unbearable, especially when overheated from any cause. The skin seems on fire, sleep or rest is impossible, the desperate sufferer, regardless of consequences, scratches until strength is exhausted.

This burning, itching humor appears sometimes in little pustules, discharging a sticky fluid, which forms crusts and scales. Again the skin is dry, hard and fissured, itches intensely, bleeds and scabs over. This is a painful and stubborn form of the disease.

While Resema, Tetter, Erysipelas, Salt Rheum and many like troubles are spoken of as diseases of the skin, they are really blood diseases, because

THERE CAN BE NO EXTERNAL IRRITATION WITHOUT AN INTERNAL CAUSE.

If the blood is in a pure, healthy condition, no poisonous elements can reach the skin.

External applications of washes, lotions and salves sometimes mitigate the itching and soothe the inflammation, but cannot reach the disease. Only S. S. S., the real blood medicine, can do this.

S. S. S., the only purely vegetable remedy known, is a safe and permanent cure for Eczema and all deep-scated blood and skin troubles. It goes direct to the seat of the disease, neutralizes the acids and cleanses the blood, re-inforces and invigorates all the organs, and thus clears the system of all impurities through the natural channels; the skin relieved, all inflammation and blooms of the disease disease.

subsides, and all signs of the disease disappear.

Mrs. Lefa M. Hoffmin, of Cardington, Ohio, says she was afflicted with Scrofulous sores and Eczema from birth. Her face at times became so badly swollen that she was not recognizable, and her limbs and hands were very sore. She was treated by all the doctors in town without being benefitted, and in her researches for relief, was told by an old physician to take S. S. S. She followed his advice and was promptly cured, and has never had a return of the disease. This was seventeen years ago. She sincerely believes she would have been in her grave years ago but for S. S. S., and adds, "what it has done for me it will do for others."

Send for our book on Blood and Skin Diseases, and write our physicians fully about your case; they will cheerfully give any information or advice wanted. We make no charge for this. Address, Swift Specific Co., Atlanta, Ga
