Skin Diseases

When the excretory organs fail to carry off the waste material from the system, there is an abnor-mal accumulation of effete matter which poisons and clogs the blood, and it becomes sour and acid. This poison is carried through the general circulation to all parts of the body, and upon reaching the skin surface there is a redness and cruption, and by certain peculiarities we resognize Bezema, Tetter, Acne, Salt Rheum, Psoriasis, Brysipelas and many other skin troubles, more or less severe. While the skin is the seat of irritation, the real disease is in the blood. Medicated lotions and

powders may allay the itching and burning, but never cure, no matter how long and faithfully continued, and the condition is often aggravated and skin permanently injured by their use.

The disease is more than skin deep; the entire circulation is polsoned.

The many preparations of arsenic, mercury, potash, etc., not only do not cure skin diseases, but soon ruin the digestion and break down the constitution.

\$. S. S., nature's own remedy, made of roots, herbs and barks, of great purifying and tonical properties, quickly and effectually cures blood and skin troubles, because it goes direct to the root of the disease and stimulates and restores normal. healthy action to the different organs, cleanses and enriches the blood, and thus relieves the system of all poisonous secretions. 6. S. S. cures permanently because it leaves none of the original poison to referment in the blood and cause a fresh attack.

ing these 12 men. First comes Simon, has a had effect on the boys, and is the whom Jesus had called "Peter," meaning a rock. He fulfilled Jesus' expectations and became the "rock" of the early church. Andrew was Peter's brother. They were among the first five of Jesus' disciples. They were brothers whom Jesus had called "sons of thunder" (Boanerges), because of their flery dispositions. John afterward so learned to control his temper that he became "the disciple whom Jesus loved." Bartholomew is said to be the Nathaniel of John 1:45. Lebhaens is the same as Thaddeus and flower farm, and as Judas (Jude). Simon was a Canaanite, which means that he was one of the sect of fanatic untionalists who were always in revolt against the foreign yoke. Judas Iscariot was the only disciple who was not a Galilean. beariot means "man of Kerlott," a Judean town.

The Apostles Sent Forth .- The commission of the disciples was to preach among the Israelites, and not among Gentiles. This was because Jesus had been sent to the chosen people of God first. They were better prepared for the message (at least should have been) by their long national training. First to the Jews, then to the Gentiles was the order. Their message was to be: "The Kingdom of Heaven is at hand." The King had come, remission of sins might be had through repentance and faith. They were further to heal the sick, cleanse the lepers and cast out devils. Jesus says to them: "Freely ye have received, freely give." They had been with Him, drunk in His message of cheer and salvation, now they were to spread forth to the people what they had received.

Teaching of John the Baptist. John the Baptist, the greatest of the prophets, gathered together the scattered rays of Old Testament prediction into these two sayings, which will be forever associated with his name: "Behold the Lamb of God, that taketh away the sin of the world!" and "He shall baptize you with the Holy Ghost, and with fire." The first is the Gospel of atonement; the second is the Gospel of regeneration; and both together give a comprehensive ummary of all that Jesus brings to men.-William M. Taylor.

Prairie dog meat is now said to be "white, tender and delicate," with a 'rich, toothsome flavor" superior to that of spring chicken or quail. There has always been a theory that the prairie dog must have been created for some useful purpose, but the information as to its food qualities comes late.
