

Royal

BAKING POWDER

-Absolutely Pure-

For the third of a century the standard for strength and purity. It makes the hot bread, hot biscuit, cake and other pastry light, sweet and excellent in every quality.

No other baking powder is "just as good as Royal," either in strength, purity or wholesomeness.

Many low priced, imitation baking powders are upon the market. These are made with alum, and care should be taken to avoid them, as alum is a poison, never to be taken in the food.
