Only Thirty and Gray. How is this? Perhaps sleepless nights caused it, or grief, or sickness, or perhaps it was care. No matter what the cause, you cannot wish to look old at thirty. Gray hair is starved hair. The hair bulbs have been deprived of proper food or proper nerve force. Ayer's Hair Vigor. Increases the circulation in the scalp, gives more power to the nerves, supplies missing elements to the hair bulbs. Used according to directions, gray hair begins to show color in a few days. Soon it has all the softness and richness of youth and the color of early life returns. Would you like our book on the Hair? We will gladly send it to you. Write us! If you do not obtain all the benefits you expected from the Vigor, write the doctor about it. He may be able to suggest something of value to you. Address, Dr. J. C. Ayer Co., Lowell, Mass.

HILL'S SPEECH FOR BRYAN.

His Tribute to the Nebraskan Touched a Sympathetic Chord. Chief among the speeches seconding the nomination of Bryan was that of ex-Senator Hill, of New York. When Colorado was reached that state yielded to New York. The audience had anxiously awaited the appearance of the distinguished New Yorker, and as Hill took the platform he was accorded a splendid reception, the entire audience rising and cheering wildly, with the single exception of the little group of Tammany leaders, who sat silent throughout the cheers for their New York associate. Mr. Hill was in fine voice, and his tribute to the Nebraskan touched a sympathetic chord in the hearts of the audience. Other seconding speeches were made by Governor Benton McMillin of Tennessee, Mr. Perkins of Texas, Senator Daniel of Virginia, Judge Thompson of Illinois, ex-Senator White of California, W. B. Moore of North Carolina, H. L. Fuqua of Louisiana, T. E. Barkworth and T. Garcon of Michigan, Mrs. Cohen of Utah, T. W. Maloney of Vermont, L. G. Bohmrich of Wisconsin, Charles Slater of the District of Columbia, Blair Lee of Maryland, ex-Governor Robert E. Pattison of Pennsylvania and John H. Wise of Hawaii. Then came the voting. State after state recorded its vote in behalf of the Nebraska candidate, and giving him the unanimous vote of all the states and territories. As the roll call proceeded the shouts of approval of the unanimity of the vote seemed to increase. All of the large states were cheered heartily as one after another they cast their votes for Mr. Bryan. Georgia, Indiana, Illinois, Kentucky, Massachusetts, were cheered cordially, but when Missouri and a minute later Nebraska were called the convention fairly palpitated with enthusiasm. So it was, too, when the state of New York was called, the convention rising to its feet and cheering. The list of states and territories was completed with the calling of the territory of Hawaii. When Chairman Richardson announced the unanimous nomination of Bryan there was another season of hilarity, which continued until the adjournment for today's session. When the convention came to order this forenoon the hall was even more densely crowded. If that were possible, than it was last night. In the vice presidential quotations Stevenson was in the lead at that hour. Hill informed everybody who asked him his attitude that he considered Stevenson a proper man, and expressed the belief that his own friends would be able to head off any attempt to make a stampede for him. It was reported that Alabama was planning to storm the convention for Hill and that several other delegations were being sounded to join in the movement. Little time was lost after prayer in proceeding with the call for the roll of states for the naming of candidates, but it was interrupted by explanations and by the usual Hill clamor. Williams, of Illinois, placed Stevenson in nomination in a short speech, and was followed by Rose, of Minnesota, who spoke for Towne. Then Thomas F. O'Grady, of New York, placed Hill in nomination, and the convention shouted itself hoarse in a frenzy of excitement. As soon as O'Grady finished Hill walked to the front of the platform and made an earnest speech protesting against his nomination. There were several other speeches for Hill and the others, but when Snowden, of Pennsylvania, read a five minute speech for Stevenson the delegates had become tired of speech making, and called "time" on him.

MORE HOPEFUL OUTLOOK

This Is the Latest Report From the Chinese Uprising. FOREIGNERS PROBABLY SAFE.

The Ninth United States Infantry Arrives at Taku and Will Be Promptly Sent to the Front—The Need For Speedy Action.

London, July 10.—With the foreigners in Peking probably safe amid civil war, with Prince Ching on their side, with the powers united and their forces constantly increasing, the outlook in China is now rather more hopeful than it has been for a month past. The Ninth United States Infantry, under Col. Liscum, has arrived at Taku, and will be promptly forwarded to the front to act in conjunction with the allied forces.

The feeling of unrest in the southern and center provinces continues. The members of the official class in those provinces strive to remain neutral, with a leaning toward the foreigners, until they shall see whether the moderate or extreme factions will win in Peking. Prince Ching seems to be standing for the dynasty and the old order against Prince Tuan's inordinate ambition.

From a foreign point of view the capture of Peking is the key to the situation, as there is a fear that delay now means a hundred recruits for the Boxers for every soldier of the allies in the land.

Two couriers arrived at Tien Tsin on July 1 from Peking. One brought a letter from Sir Claude Macdonald, the

COLONEL LISCUM.

British minister, to the same effect as that previously received from Sir Robert Hart. The couriers confirm the reports of the death of Baron Von Ketteler. They say that Prince Ching is doing his utmost to protect the foreigners, but that the native feeling against the whites is strong. Two high officials opposed to the Boxers are reported by the couriers to have been assassinated.

A dispatch to a news agency here, dated Tien Tsin, July 2, says:

"The empress dowager, so far from being dead, is actively striving to prevent the factions fighting. Prince Ching has informed her that he would rather lose his head than be constantly obliged to warn her of the consequences of the prolongation of the present anarchy. Prince Tuan is quite willing that Ching should be decapitated, but the empress dowager will not allow this. Prince Tuan has decided that he will take full responsibility. He purposes to retake Tien Tsin and Taku. Outside of Peking, except in the Pe-Chili and San Tung country, the people are supremely indifferent."

However all this may be, the allies at Tien Tsin are having an exceedingly unpleasant time. The last engagement of which news has come through occurred on July 6. The Chinese artillery opened at dawn. Their fire was more accurate and their ammunition better, the shells exploding with precision and setting fire to several buildings. H. M. S. Terrible's guns again quieted the Chinese, who, shifting their artillery, reopened the attack in the afternoon, but a thunder storm breaking, the Chinese suddenly quit. The allies immediately attacked and drove the Chinese from their works, but lost 30 killed and wounded in so doing. The non-combatants are leaving Tien Tsin, and the opinion of a minority favors the military leaving also. Stories of colossal Chinese armies gathering continue to worry not only the rank and file, but the commanders, who admit the uncertainty of reconnaissances and the complete absence of an effective intelligence department. Chinese information is received with extreme distrust.

It is obvious that, though there are many thousands of Chinese camped behind the guns, nothing can be done at present except to wait the arrival of reinforcements. The rainy season has set in, and this makes going into the interior most difficult. The country between Peking and Tien Tsin in other years has been frequently flooded. River transportation is almost impossible, and the railway is practically non-existent and must be entirely rebuilt.

Military opinion is unanimous that if the legations did not need relief it would be foolish to attempt to advance before September.

AN INEXCUSABLE TRAGEDY.

Bad Seamanship Resulted in the Loss of Six Female Lives.

Cleveland, July 10.—No attempt has been made to recover the bodies of Mrs. James Corrigan, her three daughters, niece and granddaughter, who were drowned by the capsizing of the yacht Idler off this port last Saturday afternoon. A terrific gale blew all day Sunday and continued until late yesterday afternoon, making it impossible for tugs to get near the scene of the wreck for the purpose of making a search. A party went out to the wreck with divers this morning.

Captain Martin O'Toole, of the steamer Ogemaw, which was close to the yacht when it capsized, says the accident was entirely inexcusable. Captain O'Toole said:

"There was plenty of warnings of the approach of the squall, and the Idler would have ridden the storm all right if preparations had been made. Not a yard of her canvas was struck, however. When she went over she had no mainsail, staysail and two jibs set. There was no sea to speak of contrary to the assertions of the crew, and if sails had been taken in there would have been no trouble. A smaller schooner and a little naphtha hauled near went through the squall without difficulty. There was no more reason why the Idler should have capsized than that the Ogemaw should have gone over."

Philadelphia's Fourth of July Horror.

Philadelphia, July 9.—A ninth victim was on Saturday added to the list of those who perished as a result of the deadly explosion of fireworks on South Eighth street, on the morning of the Fourth of July. This terrible fatality was caused by a 13-year-old colored boy, Isaiah Harris, who fired his revolver into a pile of Italian torpedoes. Harris, who was himself severely injured, is in the hospital. The dead include three children of Mrs. Di Ienna, the eldest 13, who were in charge of the stand where the explosives were on sale. The oldest of the killed was 15 years old and the youngest 8. Mrs. Di Ienna and three others are under arrest.

The St. Louis Boycott Resumed.

St. Louis, July 10.—It was decided yesterday afternoon by the Union employees of the St. Louis Transit company to resume at once their strike and boycott, which was settled recently after being on nearly two months. In a letter to the members of the union President Whitaker declared that a number of the men had already been reinstated, and that others will be as rapidly as possible. The letter states that the company has broken its agreement with the men, as asserted by them.

Russia Accepts Japan's Aid.

St. Petersburg, July 10.—Authoritative information just received confirms the report that Russia has consented to aid in even desiring that Japan should co-operate in the pacification of China. Russia places no limit on the number of Japanese troops to be employed, and only stipulates that this agreement is not to constitute a mandate whereby Japan will obtain a privileged position. Japan, it is added, must co-operate in the work of pacification on the same conditions as the other powers.

Family Killed by Falling Tondostools.

Little Rock, July 10.—An entire family of nine persons died yesterday near Calico Rock, Marion county, from eating poisonous tondostools, mistaking them for mushrooms. The victims were W. J. Fink, aged 40; Mrs. Mary Lee Fink, 39; John E. 18; Kenzie, 13; Sigel, 11; Vell, 9; Ross, 7; Melan, 6; and an infant child. The family ate a hearty dinner, which included the supposed mushrooms.

Went Through Whitepool Rapids.

Niagara Falls, July 10.—Peter Nielsen, of Chicago, or Mr. Bowser, as he styles himself, went through the white pool rapids of the Niagara river yesterday afternoon in the presence of about 10,000 persons, in his craft, the Fool Killer. He declares he would never have attempted the trip had he known the rapids were so bad. He appeared little the worse for his mad ride.

Death of Rear Admiral Cochran.

Philadelphia, July 10.—Pay Director George Cochran, of the United States navy, died yesterday at his home, 322 Woodland Terrace, West Philadelphia, from a complication of diseases. He was 61 years of age, and would have been retired in another year. With the rank of rear admiral, to which rank he was promoted eight months ago.

Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes. The kidneys are your blood purifiers, they filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work. Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble. Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries. It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble. If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail. Home of Swamp-Root, free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.
