Washakie, Head Chief of the Entire Tribe of Shoshones.

Lived to Be Over a Hundred and Was Respected by AU Who Knew Him-Rode a Wheel in His Old Age.

Plans are being made by officials of he Indian office in Washington for the ection of an artistic and suitable nument upon the plot where the resains of the noble Indian Chief Washawere buried in February last. His rave is situated in a peaceful, pictursque section of the Post cemetery at ort Washakie, which was named after he old man a long time ago. Washakie as a sworn friend to the white peole, endenvored always to maintain ace, is quoted in history as never peritting a white man's blood to be shed he could prevent it, and he was essemed by all persons with whom he ame in contact, both Americans and is own people. The report of Agent ickerson, of the Shoshone agency, hich contained news of Washakie's eath, said that there was a larger atndance at his funeral than had been en in the vicinity of the Wind River servation in the last 20 years.

Washakie was born, as nearly as can estimated, although some authories say that he was much older, in 196. He fought in many battles, disaving fine qualities as a warrior, and all times treating his enemies and ptives with great kindness. He was btle and active until a few months fore he died, when he became physally weak and feeble, but his mind is clear, and his last wish, which he pressed through an interpreter a day so before he died, was that he be ried a Christian in the Fort Washakie metery and have a military funeral. is wish was gladly fulfilled, for he is loved by all the officers of the post,

His remarkable cal ability has been commented by all the government officers ave visited the Wind River resern, and a member of the bureau ethnology once heard him preach e sermon. He said it showed conrable familiarity with the Bible was expressed in plain but attive words of the Shoshone lange. Washakie was a great pror of Christianity and education, the present intellectuality of the shones, as a band, is largely due to streamons efforts. He compelled all he children of his tribe to go to the ic schools in the rural district re he lived, 150 miles from a railand was instrumental in sending ral of his tribe to the Carlisle ol. One of these has since become inister in the Episcopal church, to h Washakie belonged.

ashakie also had the unique dis ion of being the only Indian who propelled a bicycle at the age of ears. On the anniversary of his hundredth birthday the agent of reservation placed him upon a el and photographed him as he pedalong for a few yards. This tickled old man greatly, for he appreciated fact that it is a rare occurrence for an of that ripe old age to ride a el. He remarked, when he had disuted, that "he believed that he soon learn to be an expert

Cigar Bean of Batavia. The "cigar bean" of Batavia is a wild fruit recently discovered in Batavia. The pod is like a cigar in shape and color, but only an inch long, and when put into water it rests on the surface for several minutes, then explodes like a torpedo, hurling the seed in all directions. If allowed to ripen in a warm place the ped gradually splits lengthwise from point to base. If left to ripen on the plant it splits open more suddenly.

Giving Up Rome to Hierarchy. London, Aug. 28 .- "As the result of the outery against the declaration of The Osservatore Romano," says the Rome correspondent of The Daily Express, "that the late King Humbert had mediated giving up Rome to hierarchy, the clerical papers have been instructed to publish a statement giving confirmation and details.

"According to this account, King Humbert, some months before his death, wrote to Cardinal Giuseppe Prisco, archbishop of Naples, requesting that a trustworthy priest be sent to hear his confession. A priest was sent, but absolution was refused unless Humbert would agree to abdicate and give up Rome. The king asked time to consider, as he was anxious to receive the sacrament, and, according to the clerical version, 'it was this communication to the priest that induced the Holy See to grant Christian

"King Humber's letter to Cardinal Prisco will be published. A circular note from the Vatican to the Catholic powers declares that, so long as Italy contests the rights of the Holy See the pope will only recognize Victor Emmanuel as king of Sardinia. The note appeals to the powers to relieve the pope from an intolerable situation declaring that the condition of the papacy under Italian rule is steadily growing worse."

While the skin is the seat of irritation, the real disease is in the blood. Medicated lotions and powders may allay the itching and burning, but never cure, no matter how long and faithfully continued, and the condition is often aggravated and skin permanently injured by their use.

The disease is more than skin deep; the entire circulation is poisoned.

The many preparations of assenic, mercury, potash, etc., not only do not cure skin diseases, but soon ruin the digestion and break down the constitution.

S. S. S., nature's own remedy, made of roots, herbs and barks, of great purifying and tonical properties, quickly and effectually cures blood and skin troubles, because it goes direct to the root of the disease and stimulates and restores normal, healthy action to the different organs, cleanses and enriches the blood, and thus relieves the system of all poisonous secretions.

8. S. S. cures permanently because it leaves none of the original poison to referment in the blood and cause a fresh attack.

Healthy blood is necessary to preserve that clear, smooth skin and beautiful complexion so much desired by all. S. S. S. can be relied upon with certainty to keep the blood in perfect order. It has been curing blood and skin diseases for half a century; no other medicine can show such a record.
