Chairman Babcock Is Looking Among other things Congressman Loudenslager said: "I have written Babcock urging him

to be with you on the 17th. I notice in the Philadelphia papers the publication of his letter to you containing suggestion about the Third district. I sincerely hope that the matter of congressional elections in Pennsylvania will be given much more of a place in this campaign than it has received up to this time. There is no reason why with united efforts on the part of the Republican managers in the state of Pennsylvania we should not reclaim at least six districts now represented by Democrats, and it ought to be the desire of every earnest man residing within the limits of that state to do whatever is within his power to secure this additional support in the house of representatives to a continuance of Republican administration of affairs. I shall endeavor to be present with you on the 17th if possible."

ASHBRIDGE TAKES A HAND.

Congressman McAleer, who desires to succeed himself in the Third distriet, called on Mayor Ashbridge last week and was in close conversation with him for quite a while. After he had gone the mayor was seen and asked as to the cause of the Democratic congressman's visit. Mayor Ashbridge in response said: "Mr. McAleer called on me for the purpose of soliciting the support of my administration in his canses for re-election. I told him that while I had no personal interest in the candidate for congress in any of the districts, that I had been asked several times by Chalrman Mark Han-na to do all I could to elect a Republlean in the Third congressional district. That in addition to that both Chairman Babcock and sub-Chairman Loudenslager had seen me several times in relation to the matter and had urged upon me the necessity of sending a Republican from that district.

Continuing the mayor said: "In my talks with Mr. Babcock ho told me that the Republican party expected to gain at least six congressmen from Pennsylvania, and I have told him that unless he and Mr. Hanna put a stop to the work of some of their alleged friends in this state we were more likely to luse three or four coagressmen instead of gaining six."

Reystone State's Representation

May Be Cut Down Through the Insurgent Deals With the Democra-

ey on the Legislature.

(Special Correspondence.)

Philadelphia, Sept. 11.-Chairman Babcock, of the Republican congressional committee, is worried over the composition of the next house of representatives, which he fears may have a Democratic majority and which will be able to thwart the efforts and work of the McKinley administration, if the latter should be re-elected. He has been moved to write a letter to the Allied Republican clubs regarding the Third district of Pennsylvania, which at present is represented by a Democrat, but which ought to be represented by a Republican, if in that district there are a majority of Republican voters, as it is claimed that there is.

DANGER IN FUSION.

The one thing that more than anything else will ensure the election of Democratic members of congress, not only in the Third district, but throughout the state, is fusion, and Mr. Guffey and his followers make no secret of their intentions to fuse with the insurgent Republicans to that end. Mr. Guffey has no more love for an insurgent Republican than he has for a stalwart, except so far as he can use him to advance the cause of Demoracy and Bryanism. The Democratic party in Pennsylvania is entering into fusion deals in Penasylvania for the sole purpose of increasing the Democratic delegation in congress and also, according to The Record, of possibly electing Col. Guffey or some other Democrat as United States senator. Or, possibly, by securing the balance of power in the legislature they hope to prevent the election of a Republican United States senator. This would mean one Republican vote less in the senate. DEMOCRATIC HOPES.

Guffey's principal organ in this city,

The Record, is urging the Democrats to look after the election of congress-

men. On this subject it said a few

"The chairman of the Democratic

congressional campaign committee believes that the outlook is favorable for

the gain of several Democratic repre-

sentatives-enough to ensure a major-

has been as important as it is now to

He Was Astonished.

"Do you mean to say that the horse ran away with you?" said Mr. Meekton, aghast.

"Yes," answered his wife.

"And wouldn't stop when you told him to?"

"Of course he wouldn't?"

"Well, Henrietta, I don't know what to say, except that the horse wasn't acquainted with you, or else he wouldn't have dared to act in that manner."-Washington Star.

Shares Them with Everyone,

"It is a base slander to say that the average woman is stingy," she exclaimed. "She may not give as much in 'tips' as man does, but in many other ways she is generous." "Yes," he replied. "She surely is

generous with some things." She feared a trap, but she could

not refrain from asking: "With what, for instance?"

"With secrets," he answered .- Chisago Post.

party with their accustomed enthusiasm. To them the election of Mr. Bryan would mean an untimely attack on the financial policy of the government and an agaitation in favor of the absolute abandonment of territory justly acquired and consecrated to the service of American civilization by the blood of our soldiers. The election of Mr. McKinley, they foresee, would be construed by the Republican leaders as a popular endorement of the administration's policy and a warrant for longer withholding from the annexed Islands the protection of the constitution. The ardent patriotism of the American citizen is not satisfied with a choice of evils, and it should be the business of the Democratic congressional committee to offer a positive purpose for which perplexed voters could labor with enthusiasm. "It is the part of the Democratic

congressional committee to organize an opposition to the Republican candidate in every congressional district that is not hopelessly in the control of the Republican machine. It should carry on its campaign without regard have suffered under the McKinley adto the presidential contest, except where that could be made to serve a good purpose. It should consider the election of Democratic representatives as of the first importance to the country, and its task to be of greater consequence than that of the national committee, which body has hitherto overshadowed It. A heavier responsibility rests on the congressional committee than it has ever borne, and it should do its work independently and with unprecedented energy."

WOULD HURT M'KINLEY ADMIN-ISTRATION.

Thus it will be seen that while Guffey is asking Republicans to desert their party nominees for his fusion legislative candidates, he is hard at work striving to defeat regular Republican candidates for congress and is using all the power of his newspaper supporters to elect a Bryanite congress.

Chairman Babcock needs to devote considerable attention to the fusion schemes at present being carried on in all parts of this state. Mayor Ash-bridge is right in insisting that the committees represented by Mr. Hanna and Mr. Babcock should go to work at once, and if possible put an end to these fusion movements.

To fuse with the Democratic party in the present important crisis is to give incalculable aid and comfort to the enemies of the Republican party. It places the administration of President McKinley in jeopardy. No Re-publican who values his party principles or his country's welfare will lend himself to fusion in any way.

CLUBMEN WILL HELP.

The State League of Republican Clubs proposes to make the congressional situation in Pennsylvania a

stead of that he has switched off on to the farmer issue and has informed the farmers of West Virginia how they ministration. He tells them that the times are hard, and that they havn t got any money, or if they have it is not due to the Republican policy. He also promises to give them more money, but neglects to say that this new money will not be worth half as much as their present money. To be sure, he says it has happened that the farmers have never had better crops of a better demand for them at home or abroad and that money is pouring into this country from Europe; but this only happen--the Republicans had nothing to do with it. And so forth. It really is an interesting question whether Mr. Bryan or any other same man can actually believe that the intelligent farmers of America take nny stock in such transparent nonsense as this, when the simple fact is that the farmers are in much better condition than they were tour years ago, and, indeed, were never so well off as now. This is the universal testimony o fthe farmers themselves in all sections. Here are a few figures:

The average value of farm animals has teadily increased from 1897 to 1900. The average for horses advanced from \$31 in 1896 to \$44 in 1900; the average value of mules from \$41 in 1896 to \$53 in 1900, and of cows from \$23 to 31. In 1896 the average value of corn was 211/2 cents a bushel; in 1899 the average value was 30.3 cents. In 1900 the total wealth in the hands of the farmers of America was \$2,000,000,000 more than at the close of Cleveland's administration. Their exports of breadstuffs last year amounted in value to \$263,000,000, or \$100,000,000 more than in any year of Cleveland's term. The audacity of standing up before the farmers and telling them that they are not pros-perous in the face of such figures as these is amazing."
