

# ROYAL

The absolutely pure  
**BAKING POWDER**

ROYAL—the most celebrated of all the baking powders in the world—celebrated for its great leavening strength and purity. It makes your cakes, biscuit, bread, etc., healthful; it assures you against alum and all forms of adulteration that go with the cheap brands.

Alum baking powders are low priced, as alum costs but two cents a pound; but alum is a corrosive poison and it renders the baking powder dangerous to use in food.

DEAFNESS CANNOT BE CURED by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When the tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

## NO DREAD HERE OF IMPERIALISM

Pennsylvania Voters Will Not Follow Bryan and Encourage Aguinaldo.

## ROOSEVELT ON "CONTRACTION."

The Gallant Rough Rider Meets the Issue Squarely, and Many Democrats in the Keystone State Will Vote For Commercial Expansion.

(Special Correspondence.) Harrisburg, Sept. 25.—Reports from different counties in Pennsylvania, carefully gathered within the last few weeks, all show that the cry of "imperialism" is having no effect upon Republican voters, and that many Democrats are denouncing Bryan for his course on this issue, which has been encouraging the insurgents in Luzon to continue their hostility toward the United States.

Leading politicians identified with the state committee of the Democracy in Pennsylvania have been making wild boasts about the Democratic gains that are to be recorded at the coming election on account of the policy of the McKinley administration regarding the Philippines. The president has put himself squarely on record on this issue, and in his recent letter of acceptance of the nomination for vice president Col. Roosevelt was equally emphatic in expressing himself on this subject. His letter contained one passage which presented Bryan's false "paramount" issue in a novel aspect, and made a valuable addition to the literature of the present campaign.

## ROOSEVELT TELLS THE STORY.

Col. Roosevelt said: "Properly speaking, the question is not whether we shall expand—for we have already expanded—but whether we shall contract. The Philippines are now part of American territory. To surrender them would be to surrender American territory."

Bryan's position could not be more clearly explained nor more forcibly expressed in five times the space allotted to him in these three sentences.

Bryan is not an anti-imperialist, for no such thing as imperialism threatens the United States, and no American is an imperialist. Bryan is a contractionist; a contractionist of American territory, if he has his way. Governor Roosevelt is an anti-contractionist.

The governor's letter effectively supplemented McKinley's discussion of the Philippine policy with this straightforward proposition:

"To turn over the islands to Aguinaldo and his followers would not be to give self government to the islanders; under no circumstances would the majority thus gain self government. They would simply be put at the mercy of a syndicate of Chinese half breeds, under whom corruption would flourish far more freely than ever it flourished under Tweed, while tyrannical oppression would obtain to a degree only possible under such an oligarchy."

Many Democrats throughout Pennsylvania and the Union at large have refused to follow Bryan in the present canvass on account of his so-called "anti-imperialist" campaign.

## WANTS COMMERCIAL EXPANSION.

A well known Democrat of this city, who, for years, was prominent in the councils of the Democracy of Pennsylvania, in commenting upon the Bryan plan of campaign yesterday, said: "For years the Democratic party has been clamoring for a return of the old commercial prosperity; the prosperity which sent the clipper ships of the United States into every sea on the globe, but now that an ideal opportunity is offered whereby the long sought and may be attained the party turns its back squarely upon it. The Democratic party is in the position of Moses viewing the expanse of promised land and then dropping dead. As for Bryan, he is simply adding another chapter to his old time fallacy of 16 to 1.

I believe in expansion for commercial reasons. Trade with the east was the financial making of all the ancient nations, and it accounts for the present prosperity of many modern ones. Columbus stumbled over this continent while searching for an easier route to the East Indies than the path then known, and since the time of Tyre the east has supplied the commercial wealth of the most prosperous nations of Europe. At first it was trade with India only and some of the adjacent islands. Later Japan and China became big factors, and now, when the United States is in a position to practically monopolize, or if not that to control, a great part of the eastern commerce, the Democratic party throws up its hands and protests.

Consider the advantage which this country has over others. In the first place our Pacific coast is about 3,000 miles nearer to the eastern trading center than any of the European nations. We have besides a half way station in the Hawaiian islands, and in the Philippines what has rightly been termed the doorway of the east. Thus equipped, the United States is second to no other country in its ability to carry on a successful trade with China and Japan. No patriotic and wide awake American should support Bryan.

GENTLEMEN:—My mamma has been a great coffee drinker and has found it very injurious. Having used several packages of your GRAIN-O, the drink that takes the place of coffee, she found it much better for herself and for us children to drink. She has given up coffee drinking entirely. We use a package every week, I am ten years old. Respectfully yours, FANNIE WILLIAMS.
