Scott's Emulsion

It is like cream; but will feed and nourish when cream will not. Babies and children will thrive and grow fat on it when their ordinary food does not nourish them.

Persons have been known to gain a pound a day when taking an ounce of Scott's Emulsion. It gets the digestive machinery in working order so that the ordinary food is properly digested and assimilated.

Excellent Farm for Sale.

Wishing to quit farming, I am offering for private sale a most excellent farm containing 107 acres of rich farming land, 87 acres of which is clear and in a good state of cultivation. The balance is timber. On the land is a good large bank barn, excellent dwelling house, good size, all kinds of outbuildings in good repair, good crane, no-wear factory, good never-failing water near the house and in the fields for stock, excellent apple orchard, abundance of peaches, cherries, pears, and all kinds of small fruit, such as black and red raspberries, grapes, currants, plums, etc.

The property is located convenient to the public road and is a very prominent farm. We raise excellent grain and grass; have good fences and a fine location for a fish dam within sight of the house. The soil is good, deep and rich, no stones to bother with, no ditching necessary, no slate and we have an easy road to the river. We will also sell 20 acres which will make a small farm for some one who does not care for much land.

This farm was twice sold for \$5,000 and is now offered at the very low price of \$2800. If it were not for the fact that I wish to discontinue farming, the farm would not be offered at so low a figure. A clear title can be given.
