# **FUSIONISTS LOSE** IN THE COURTS

Important Decisions Which Block Farmer Cope Challenges All Who the Game of the Insurgent-Democratic Combine.

ELKIN MAKES A PREDICTION.

After a Tour of the State the Attorney General Says There Will Be a Great Victory For Stalwart Republicanism at the Coming Election in the Keystone State.

(Special Correspondence.) Philadelphia, Oct. 23.—As election day draws nearer the indications become more pronounced for a great Republican triumph in the Keystone state on the 6th of November next.

Reports from the various counties and districts all tend to show that there is a cementing of Republican elements throughout the state and that the fusion movement, which was started with such a flourish and blaring of trumpets, has gone to smash.

The action of the Dauphin county court in the cases of Huntingdon, Chester and other counties where the fusionists had plans to work the official ballot in the interest of their candidates, has disheartened many of the leaders of the insurgent cause, and they are seeking to be readmitted into the fold of the Republican organization. Some of them are most conspicuous in their work for the entire Republican ticket.

The fact that the Republican organization leaders of the state, Chairman General Reeder, his chief of staff, T. Larry Eyre, and others identified with the state campaign, are in constant communication with the Republican national committee and with Senator Peurose and Col. Quay holding conferences with President McKinley tends to impress those who strayed from the ranks of the regulars with the fact that they should at once get in line with their party leaders and be prepared to participate in the general Republican rejoicing that will take place on the night of the coming elec-

### ELKIN'S PREDICTION.

Attorney General John P. Elkin, who has been traveling all over the state during the last few weeks, is absolutely confident that the regular Republicans will centrol and organize both branches of the legislature and that a stalwart Republican will be elected to the United States senate.

In commenting upon the situation in the state Mr. Elkin said:

'It is apparent that the Republicans of Pennsylvania have become wearied and have grown tired of the internal dissensions in our party during the past few years. Our people are becoming aware of the fact that an imperial commonwealth like ours should have its full representation in the United States senate. With 7,000,000 of the most intelligent people on the face of the earth it would seem as though our state should be represented by two United States senators. The reason that we are not so represented is that a minority of the Republican party. acting in conjunction with the Democrais, prevented an election at the last session of the legislature. It is my belief that this can never occur again. The Republican party of Pennsylvania will not countenance such tactica, Every day the principle of majority rule is asserting itself. Every hour Republicans are beginning to realize that a political organization can only be maintained and upheld when party regularity is respected.

PEOPLE ARE AROUSED.

"Thousands of Republicans not in sympathy perhaps with the regular organization of the party in the state and not always willing to follow the leaders of our party, have concluded that a majority of the Republicans have a right to decide all disputed questions about which Republicans disagree. Upon this principle we make our nominations. Upon this principle we nominate our candidates for the highest office within the gift of the people. For more than a quarter of a century United States senators have been placed in nomination by the majority vote of the Republicans elected to the senate and house of representa-

"With a somewhat minute knowledge of the political conditions as they exist in each of the 67 counties of our commonwealth, I do not hesitate to state before this magnificent gathering of Republicans that the next legislature in both branches will be organized and controlled by regular Republicans who favor party regularity and

majority rule.

For a time a number of our good citizens were deceived and misled by the sham cry of reform, raised by a few salish leaders of this movement; but the most has been torn of new, and the people see that these se-called reform leaders are despons not of geometring the interacts of our party, but of gradifying their own salish ands.

CONGRESS IS IN DOUBT.

Pennsylvania Republicans Warned of the Danger in Fusion With a United States Senator to Elect and With a Poll of the Country Showing But Six Probable Republican Majority in the House.

(Special Correspondence.) Harrisburg, Oct. 23.-The political character of the agitation over the oleo issue is becoming known to the voters of the state. The willful misrepresentations of the work of the department of agriculture have been going on so long and the associations of the men back of the attacks are now so well known that the farmers and dairymen of the state are not being deceived. This was apparent in Chester county last week, when men who are identified with the insurgent Republican movement got up a meeting and sought to help along their fusion legislative campaign through it. Their gathering was a small one, and it was evident

Farmer Cope, after reading the reports of what was said at this insurgent meeting in West Chester, promptly issued the following challenge:

"Having noticed the proceedings of the meeting held at Smith's Hail, West Chester, Pa., on Oct. 16, I beg leave to make the following statement in order to sustain the action of myself and the attaches of the dairy and food department of the commonwealth of Pennsyl-

To Edward Walter, George Rhoads, Samuel E. Howell, Penrose Maule, John Battin and John C. of oleomargarine.
"Whereas, By the violation of the laws regulating the sale of oleomargarine the farmers of the state of Pennsylvania have been systematically and deliberately robbed out of several million sollars annually in the sale of

their dairy producta. "I furthermore challenge any one in this commonwealth or any newspaper in this commonwealth to produce any evidence since my taking charge of this division that will be sustained by any court of this commonwealth or board of arbitration, that any attorney, chemist or agent has by any act or in any manner hindered or prevented the arrest and conviction of any person or persons violating the pure food and oleomargarine laws of this state.

"Furthermore, I most emphatically deny that I am under control of any machine, faction, party or association or that either Governor Stone, Secretary Hamilton or any one else connected with the state administration has at any time used or endeavored to use any influence or pressure in regard to my actions as dairy and food commissioner of this commonwealth.

"I honestly and conscientiously be lieve by the condition in which I found this division upon taking charge on the 19th day of June, 1900, that there has been nothing criminal that can be attached to any official connected with this department. That the attack upon this department has been prompted entirely as a partisan movement to pol-sen and prejudice the minds of the farmers of the state

CONGRESS IN DOUBT. The poll of the United States made by the New York Hernld shows that while the Republicans have the brightest prospects of winning a majority in the house, the probable majority is a very small one, and it is not at all certain that the Republicans will have both branches of congress at the next

The fusion campaign which certain men beretofore identified with the Republican organization are making with the Democratic machine politicians may seriously affect the election of Republican congressmen and members

of the legislature. The poll indicates that the Republicans, according to the present situation, will have a majority of six votes in the house.

But as to the United States senate. there are many doubtful conditions which may imperil Republican success. The figures given by the New York Herald as to the outlook in the campaign for the election of United States

senators are interesting. These tables are given by The Har-
