THE SICK ARE ALL IMPROVING IN AND AROUND OUR TOWN.

Charles Wagner has moved to family and household goods from Mines, Blair county, to McClure, (not Judge but town). There was great rejoicing by some at the Crossgrove store last Saturday evening when the returns were in favor of McClure, but the result from Selingsgrove stopped Jimmie with his ha, ha. John H. Herbster and James Steely were home from Blair county to cast their vote for A. W. Potter. This end is at a loss, or at least the old citizens, to know why that drunken Potter, as his opponents called him, was always employed where it took knowledge and brains to get to the fine points of law, and they claim that a drunken man could never succeed in the points of law as our worthy Hon. A. W. Potter has done. Jacob Erb's sale last Saturday was well attended. Jacob has been sick for some time. His wish was to be taken to Crossgrove so he could cast his vote for Potter, and his wish was complied with, and his ballot cast for his favorite. Emanuel Peter and wife spent Sunday with the latter's father, Henry Baumgardner. John H. Herbster's coach works at Crossgrove have been moved to Ganister, Blair county, to be used as a pugilistic hall.

Deafness Cannot be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever, nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send circulars, free. F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Hall's Family Pills are the best.

BLOOMSBURG, PA., FEB. 23, 1901.

DEAR EDITOR:—I have been asked to name a list of Bloomsburg graduates who desire to teach in the schools of the Philippine Islands. THE CONDITIONS ARE THESE: Salary \$75 to \$100 per month, for twelve months of the year, unless a shorter time is specified. Contract for three years. Transportation to Manila free.

Only those can be recommended who are physically sound and able to withstand a tropical climate, no worse and no better than the average tropical climate; those who "possess large originality, have adaptability, have good presence and personality, are wholesome in habits, and upright in character;" and are capable of earning the salary offered. "They should by conduct and life represent the highest and best of our national life," and should desire "to inculcate those elements that make for a higher civilization and the betterment of the world."

The public school system of the Philippine Islands is in process of construction, and those who assist in working it out have great opportunity for original work. Advancement is apt to follow efficient service. Would you like to be included in the list? If so, write at once. The list will be completed and mailed March the fifth. Yours very truly, J. P. WELSH, Principal.

The Japanese Minister Angry. New York, Feb. 12.—At the banquet given by the silk manufacturers last night Wu Ting Fang, the Chinese minister, and Kogoro Takahira, the Japanese minister, were among the speakers. The Chinaman commanded attention by his eloquence, but the Jap drifted into a sing song tone that was interrupted by loud laughing and talking. Finally the minister threw his paper angrily on the table and refused to finish.

OUR CUBAN RELATIONS.

Senate Committee Proposes a Plan to Avert an Extra Session.

TO MAKE PERMANENT AGREEMENT

It Will Preserve the Permanent Independence of the Island and Prevent Foreign Governments From Getting a Foothold There.

Washington, Feb. 26.—To avoid an extra session of congress the senate committee on relation with Cuba yesterday reported an amendment to the army appropriation bill, authorizing the president to leave the government of Cuba to its people provided the constitution of the island defines the future relations between its government and the United States on lines suggested in the amendment. This proposition is declared to be a solution of the problem, satisfactory to all parties in the senate and to the president as well.

The amendments agreed upon provide that Cuba shall make a permanent treaty with the United States, in substance as follows: "The government of Cuba shall never enter into any treaty or other compact with any foreign power or powers which will impair or tend to impair the independence of Cuba. "Said government shall not assume or contract any public debt for which the ordinary revenues of the islands, after defraying the current expenses of government, shall be inadequate. "The government of Cuba consents that the United States may exercise the right to intervene for the preservation of Cuban independence. "All acts of the United States in Cuba during its military occupancy thereof are ratified and validated, and all lawful rights acquired thereunder shall be maintained and protected. "The government of Cuba will execute, and as far as necessary extend, the plans already devised or other plans to be mutually agreed upon, for the sanitation of the cities of the island.

"The Isle of Pines shall be omitted from the proposed constitutional boundaries of Cuba, the title thereto being left to future adjustment by treaty. "To enable the United States to maintain independence of Cuba, and to protect the people thereof, as well as for its own defense, the government of Cuba will sell or lease to the United States lands necessary for coaling or naval stations at certain specified points, to be agreed upon with the president of the United States."

Anthracite Strike Improbable. Pittsburg, Feb. 25.—The Commercial

Gazette says: While the industrial

with its railway and other interests largely dovetailed with the anthracite collieries, is looking forward with dread anticipation for the advent of April 1 as the day on which another great miners' strike may be called, the body of the United Mine Workers of America is standing on a conservative platform, which is reasonably certain to obviate anything of the kind. Even if the anthracite operators refuse to meet the miners in joint wage conference, it is barely possible that a strike can be avoided. Consent in any form, even if only tacit, to allow the present anthracite agreement to continue, thus opening the way for the miners to correct various local conditions, promises to close the matter, with all its complications.

School Teacher Killed by Negro.

Terre Haute, Ind., Feb. 26.—Ida Finklestein, aged 20 years, a school teacher, while walking through a lonely strip of woods yesterday on the way from the school house to the Inter-Urban Electric line, three miles east of Terre Haute, was assaulted by an unknown negro, who shot her in the back of the head and cut her throat, severing the windpipe. After the outstanding assault Miss Finklestein ran for a half mile to a farm house with the blood streaming from her wounds and fell unconscious on the door steps. She died last night. Officers and men are scouring the country with revolvers and shotguns, and a lynching may result.

Priests Oppose Federalists.

Manila, Feb. 26.—Rev. Father McKinnon, who was formerly private secretary to Mgr. Chappelle and who is now pastor of the Ermita Catholic church, informed a press representative yesterday that there were upwards of 800 native priests in the Philippines opposed to the Federal party, and that these would refuse to administer the sacrament to Federalists, because they believed the Federal party to be merely a cloak for Protestant attempts to weaken the power of the church of Rome.

Millville's Saloon Smasher.

Millville, N. J., Feb. 26.—Mrs. Emma Hughes, of this city, created great excitement in South Millville Sunday night by emulating Mrs. Nation in smashing a saloon which her husband frequented. Armed with a broken bottle of beer, after which she took her husband by the arm and hustled him home. The temperance people heartily endorse the action of Mrs. Hughes, and a reform movement will be started.
