A heavy fine is attached to the failure o bor agh and township auditors to send a copy of then report to the clerk of the Court of Quarter Sessions and have the same advertised in the newspapers in their locality.

THE News fails to answer a single charge made by the Post in regard to the shoe factory matter. He tries to bolster up his feeble cause by making it appear that the Post overcharged the shoe factory for printing and quotes an unnamed manager. To show the absurdity of the claim, we will donate the sum of one thousand dollars to the shoe factory the moment the Neural proves both that a manager made such a statement and the truth of the manager's alleged statement as given in the News is established. Now the News can help the shoe factory to \$1000 and re-establish its lost reputation for veracity.

Now the British are declaring that De Wet is too mad to surrender. Possibly he is not only mad enough todoso.

In he opinion of those most competent to judge Benjamin Harrison will figure in history as one of our ablest Presidents.

THE borough of Lewistown has enlarged itolf by adding some of the suburbs. Lewistown s a flourishing place.

THE Middleburg News has proven itself a raitor to the town and the best interests of the national festival of occidental nations will befit ommunity. The facts and figures relatives to the importance of the event. At 2 o'clock in the he shoe factory embody too much reality for its reen-eyed head to tackle.

ay was no contest. Hon. H. M. McClure caried Union county, receiving 1951 votes to Hon. Samuel H. Orwig's 230 votes or a clear majority of 1721 votes for the present incumbent. The vitory was certainly decisive.

THE old adage that a lie will travel a mile while truth is pulling on its boots has again been doubly proven. The shoe factory outrage and of the hemispher, and the Governor General of black eve to Middleburg published in Ritter's Asp, was last week republished by the Selins-

grove Times and the Lewisburg Saturday News. There is no telling how many more papers will publish this lie and give the town a black eye as far as it goes.

r of the Asp, was asked to contribute a mite toward the proposed centennial of Middleburg. He refused to subscribe one cent and never published a line in favor of the proposed centennial. He was made a member of the executive comnittee and never attended a meeting. This member of the Pilgrim band, who as a Pilgrim exceeded the average on the eligibility clause, has no time for anything that will benefit Middleburg. He thinks, however, that his election as prethonotary would make the town boom.

"UNCLE JERRY" Roth, the Allentown statesman in the House of Representatives, is a mad wag. He has introduced a bill compelling all bachelors over 40 years of age to pay a marriage license fee of one hundred dollars, the tax so collected to go to the support of homes for old ladies over forty years of age who never had an opportunity to get married. PAN-AMERICAN EXPOSITION.

PLANS for opening day of the Pan-Ameaican Exposition, May 1 st, are now well advanced. The exercises inaugurating this splendid inter-

afternoon, in the beautiful Temple of Music, it is proposed tojstart the machinery of the Exposition. THE judicial contest in Union county Satur- The special train carrying the President of the United States and his cabinet from Washington to the Pacific Coast will de connected by telgraph with electrial apparatus will be connected with the great electric generator in the Electricity building. Direct telegraphic communication will be made at the same moment between the executive office of the Presidents of all of the republics

Canada, and this electrial apparatus in the Music Temple. At 2 o'clock, Buffalo time, by arrangement with the cable companies leading to South America, and with the telegraphic companies, and with the Atlantic cable companies the presidents and rulers of all of the countries of the Western LAST summer Pilgrim Scott Ritter, publish- Hemisphere will be requested to touch an electric button in their office which will thus start a piece of machinery of the exposition. And they will at the same time transmit a message of greeting at the opening to be read in the Music Temple.

> President McKinley from a special telegraphapparatus in his car on the special train, surrounded by his Cabinet, will then start the great fountain pumps and will transmit over the wires a message of greeting to the people assembled on the occasion of the opening.

> The dedicatory ceremonies of the Exposition, which will be very imposing, will take place about the middle of May, possibly on the 14th, when it is expected that Vice-President Roosevelt, Governor Odell, and a large body of national and diplomatic officials, together with those of the Army and Navy, will be present and participate.

President's Day will be between June 9th and 12th. The date will be fixed definitely within few days. President McKinley and his Cabinet will come to the Hxposition from Duluth. The committee having in charge the arrangements for these special exercises intend to make them more elaborate and inspiring than any similar ones connected with an Exposition.

In Her Controversy With Rus Over the Manchuria Affair,

The Secretary of the Jananese gation in London Declares T With His Country It Is a Matter Fighting

London, March 26 .- The Chin minister, Sir Chih Chen Lo Feng L called at the foreign office yester and urged the British government bring pressure to bear in order to p vent Russia from securing the ne sary signatures to the Manchur agreement. The foreign office is in the dark as to whether the as ment will be signed or allowed to la when the time expires. The offi of the Japanese legation are incli believe Russia will succeed in ting the necessary signatures.

The situation is still more com cated owing to the fact, ascertained press representative yesterday, th ere are two secret treaties, on which is to be signed at St. Petersbu dealing with Russian military cont of Manchuria, and another, to be si ed at Pekin, dealing with her c powers

The Chinese appeals for support ha failed to produce any direct remo strances from Great Britain or parently from any other power to Petersburg, for Russia persistently hered to her contention that the se agreements concern no one except l self and China. On this ground Gi Britain's request for copies of agreement was abruptly declined. It is explained at the foreign of here that it would be a dangerous useless breach of diplomatic proc ure to endeavor to enter upon exp tulations with Russia which only be based upon information su plied by the Chinese. In other wor the copies of secret treaties and a leged modifications of them recent given to the powers by the Chinese a worthless documents and will remain such until Russia herself chooses to communicate the text of the actual treaties and modifications

In the absence of the Japanese min ister in London, Baron Hayashi, Mr Matsai, first secretary of the Japan ese legation, who was interviewed b a press representative, made a compre hensive statement of the issues involv ed. He said

"Russia's insistence. China's help lessness and the probable victory o Russian diplomacy will bring us to the brink of a dangerous situation in which none of the powers is so deeply concerned as Japan. Even if the se-cret treaties have been modified, as is alleged, the changes are so triffing as to make the documents thoroughly ob-

jectionable to Japan. "Assuming that' China signs the treaties, I suppose Great Britain, Germany and the United States will protest to Russia. But that is about as far as they will go and about as much as they will get. With Japan it is a matter of fighting.

The question is whether we are to fight Russia now or to fight her later She has no right to Manchuria, and if she secures Manchuria she will be on the way to securing Korea.

"Our government, I believe, is seriously considering the crisis.

eyes are wide open and they will not be driven to precipitate action by the jingoists of Japan, who are openly clamoring for immediate war. Yet, if they see that war is unavoidable they will not hesitate to strike.

"Japan has no reason to be afraid as to the result. Many reasons occur to the average Japanese mind in favor of forcing at the present moment a struggle which must come eventually. The chief reason against so doing is the fact that Japan is just beginning a new industrial era which would temporarily be killed should we endeavor by force of arms to prevent Russian encroachments.

"If we follow the lead of other powers and do not threaten hostilities, we realize that we must sit down tamely and see any other nation step in and make treaties similar to those which China seems on the verge of signing with Russia. This would mean the partition of the Chinese empire and the end of the 'open door.' If we opposed it, we naturally think we would have the moral support of the United States, which has been the champion of these principles and also of Great Britain and Germany."
