THE SUNDAY SCHOOL.

Lesson for the International Series for June 9, 1901—Jesus Appears to Paul.

(Prepared by H. C. Leningtoa.)

GOLDEN LESSON TEXT.

(Acts 22:6-16.)

6. And it came to pass, that, as I made my journey, and was come nigh unto Damascus about noon, suddenly there shone from heaven a great light round about me.

7. And I fell unto the ground, and heard a voice saying unto me, Saul, Saul, why persecutest thou Me?

8. And I answered, Who art thou, Lord? And he said unto me, I am Jesus of Nazareth, whom thou persecutest.

9. And they that were with me saw indeed the light, and were afraid; but they heard not the voice of Him that spake to me.

10. And I said, What shall I do, Lord? And the Lord said unto me, Arise, and go into Damascus; and there it shall be told thee of all things which are appointed for thee to do.

11. And when I could not see for the glory of that light, being led by the hand of them that were with me, I came into Damascus.

12. And one Ananias, a devout man according to the law, having a good report of all the Jews which dwelt there,

13. Came unto me, and stood, and said unto me, Brother Saul, receive thy sight. And the same hour I looked up upon him.

14. And he said, The God of our fathers hath chosen thee, that thou shouldest know His will, and see that Just One, and shouldest hear the voice of his mouth.

15. For thou shalt be His witness unto all men of what thou has seen and heard.

16. And now why tarriest thou? arise, and be baptized, and wash away thy sins, calling on the name of the Lord.

GOLDEN TEXT:—I was not disobedient unto the heavenly vision.—Act 26:19.

NOTES AND COMMENTS.

The complete story of Paul's conversion (Acts 9:1-20) should be read. It is upon the complete text we base the following analysis:

Saul the Persecutor.....Vs. 1-2
The Light from Heaven.....Vs. 3
Saul Converted.....Vs. 4-9
Ananias' Unpromising Mission....Vs. 11-19
Saul the Christian Preacher.....Vs. 20

Saul the Persecutor.—Perhaps the central thought of this lesson is the work of the living Christ in the conversion of souls. Not all have the same wonderful experiences, not all have seen the bright light or heard the voice from Heaven that Saul heard, yet the essential experience is the same. Like Saul we have all of us found ourselves on the wrong course, and to all of us has come the light showing us our mistake. The trouble is we have not all of us immediately forsaken what we have learned to be the wrong course and decided to do what we know to be right. It is the universality of the application of the principle as well as the striking phenomena of the particular case that makes the story what it is to the Christian world. Beyond this it shows, besides the experience of a single soul, the eternal work of Christ in the regeneratioon of the lives of men.

The Light from Heaven.—Jesus is not the Saviour of a few, but of many, of all if they will. To every man, at some time or other, He shows Himself as Saviour from sin and guide to eternal life. He throws Heavenly light on the course one is pursuing and reveals it as the right or the wrong way.

Saul Converted.—Immediately the light is seen, a voice speaks to the heart. At once we know it is the voice of the Lord, for it is significant that without hesitation Saul addressed the Heavenly guest as "Lord." It is a point also that the intense light blinded Saul. It is a common experience that the bursting of a great truth upon the mind makes one the slower to comprehend for a time other matters, however familiar they had been. Saul had to be led over the familiar road to Damascus.

Ananias' Unpromising Mission.—Christ had spoken directly to the soul of Saul. But it is the Divine way to accomplish results through human agencies. Ananias was a disciple at Damascus. Christ spoke to this man to go to Saul. Ananias had known Saul by reputation and knew of his zeal in persecuting the followers of Jesus at Jerusalem. He knew of the authority he had to imprison disciples here in Damascus. Naturally Ananias hesitated. But Saul was "a chosen vessel," that is chosen for a special work. So Ananias went as commanded and Saul received his sight, and with his sight the gift of the Holy Spirit.

Saul the Christian Preacher.—Note the contrast between verses 1 and 20. "And Saul, yet breathing out threatenings and slaughter against the disciples of the Lord, went unto the high priest." "And straightway he preached Christ in the synagogues, that He is the Son of God." Saul was no longer a persecutor, but a preacher, no longer opposed to the disciples of Christ, but a humble and faithful follower.

HARRISBURG LETTER.

Measures That Occupy the Attention of the Lawmakers.

A CONSTITUTIONAL CONVENTION

Proposed in a Resolution Introduced in the House—The Oleomargarine Bill Has Now Passed Both Houses—The Mine Inspectors' Bill Amended.

Harrisburg, May 22.—A bill appropriating $200,000 for the purpose of deepening the channel of the Delaware river from the Philadelphia to the Delaware state line and for improving the Philadelphia harbor was introduced in the house yesterday by Mr. Jones, of Philadelphia.

A bill was introduced by Mr. James, of Lackawanna, amending the factory inspection act of 1893, so as to fix the hours of labor for minors in manufacturing establishments at nine hours daily.

The bill providing for an "engineers' and firemen's examining board" in the various counties for the examination of applicants for engineers and firemen in and around any mine breaker, engine house or other building where boilers are used for generating steam of more than 40 horsepower, was defeated.

In the senate last night the house factory inspectors' bill was defeated when it came up for final passage, but the vote by which it failed was reconsidered and the bill was placed on the postponed calendar.

Harrisburg, May 23.—In the senate yesterday Mr. Rice, of Bucks, offered a resolution providing for a recess of the senate from today until the first Tuesday in October. The resolution was defeated.

The Snyder-Harris oleomargarine bill, which has passed the house, was passed by a vote of 40 to 1, Mr. Magee, of Allegheny, voting against it. Mr. Muehlbronner, of Allegheny, who is a manufacturer of oleomargarine, did not vote. The bill prohibits the manufacture and sale of oleomargarine, butterine and other similar products when colored in imitation of butter, and provides for the payment of a license fee for the sale of the uncolored product.

The bill increasing the number of anthracite mine inspectors from eight to 16 and providing for their election by the people of anthracite counties was amended by Mr. Vaughn, of Lackawanna, and laid over for printing. The amendments reduce the terms of the inspectors from five to three years and in several other respects place the bill in its original state.

Among bills passed finally in the house yesterday were: Imposing a tax of 2 per cent upon the gross receipts of stock brokers, bill brokers, exchange brokers and private bankers; requiring peddlers and hawkers to pay an annual license of $10, when they travel on foot, and $25 when they use a horse and carriage (the bill does not apply to peddlers' licenses issued to soldiers); providing for the submission to the vote of the people at the next general election the proposed amendment to the constitution to permit the use of voting machines at elections.

Harrisburg, May 24.—The McAnlis bill making it unlawful for first cousins to marry, which was defeated on Wednesday in the senate, was reconsidered at yesterday's session and laid aside for the present. Ten bills, among others the Willard bill to prevent idiocy, were read the first time.

The general appropriation bill, carrying an appropriation of $15,945,761.10, for the payment of the ordinary expenses of the state government the next two years, passed second reading in the house yesterday in the form in which it was reported from committee. The bill contains an item appropriating $11,000,000 for the support of the public schools. Mr. Coray, of Luzerne, made an unsuccessful effort to increase this amount to $12,000,000 to cover Governor Stone's reduction in the appropriation in 1899.

Governor Stone signed 20 bills yesterday, among them: Defining the offense of disorderly conduct by persons on railroad and railway cars, public or private parks and picnic grounds; the juvenile court bill; authorizing county treasurers to refund to aliens the tax of 3 cents a day paid under act of 1897, which was declared unconstitutional; granting to water companies the right to supply water to adjacent territory; requiring school teachers to be examined in elements of civil government and algebra; providing that vinegar made wholly from grapes, apples and other fruit shall not be required to contain an acidity of 4 per cent.

Harrisburg, May 28.—Twenty-six bills for private charities, aggregating $543,700, were reported to the house last night from the appropriations committee.

Mr. Paul, of Philadelphia, offered a resolution which was adopted, to recommit to the committee on banks the senate bill creating a bureau of building and loan associations in the department of banking.

Mr. Paul, of Philadelphia, introduced a resolution calling for final adjournment of the legislature on June 21. The resolution went over under the rules.

Mr. Shutt, of York, introduced a bill providing for the calling of a convention to amend the constitution. The bill provides for 150 members of the convention, which shall meet in Harrisburg on the second Tuesday in January, 1902.

Seven senators met at 4 o'clock yesterday afternoon and cleaned up the calendar of first and second reading bills and then adjourned until tonight.

Sores and Ulcers

DRAIN THE SYSTEM, ENDANGER LIFE.

That old sore or ulcer, which has been a source of pain, worry and anxiety to you for five or ten years—maybe longer—doesn't heal because you are not using the proper treatment, but are trying to cure it with salves and washes. While these are soothing and relieve pain to some extent, no real, permanent good can come from their use, because the disease is in the blood and far beyond the reach of external applications.

A sore heals promptly when the blood is in good condition, but cannot if it is diseased. The tendency of these old sores and ulcers is to grow worse, spreading and eating deeper into the flesh. They are a constant drain upon the system, gradually but surely undermining the health and sap the very life. A person's capacity for work or pleasure is soon lost in the gloom and search for something to cure.

S. S. S. makes a rapid and permanent cure of old sores and ulcers, and is the only medicine that does, because no other can reach deep-seated blood troubles. Ordinary blood purifiers and potash mixtures are too weak and watery to overcome a deadly poison that has taken possession of the blood. Do not waste valuable time experimenting with them.

A Gunshot Wound. "Some years ago I was shot in the left leg, receiving what I considered only a slight wound. It developed into a running sore and gave me a great deal of pain. I was treated by many doctors, and took a number of blood remedies, but none did me any good. I had heard S. S. S. highly recommended and concluded to give it a trial. The result was truly gratifying. S. S. S. seemed to get right at the trouble, and forced the poison out of my blood; soon afterwards the sore healed up, and I was entirely cured. I now have perfect use of the leg, which was swollen and very stiff for a long time. J. R. Hollaman, Lawrenceburg, Ky."

S. S. S. is the only purely vegetable blood purifier known; is made of roots and herbs of wonderful purifying properties, which no poison can resist. S. S. S. quickly and effectually clears the blood of all morbid, unhealthy humors, and the old, troublesome sore heals. At the same time the general health is invigorated and built up. When a little scratch or hurt fails to heal readily, you may be sure your blood is bad. S. S. S. will soon put it in order and keep it so.

MISCELLANEOUS ITEMS.

Gold has been discovered near Apia, Samoa.

For some years there have been no brook trout in Colorado waters. Last year nearly 5,000,000 brook trout eggs were placed in them.

At the beginning of the new century there were 57,000 army and navy pensioners in New England, drawing their pay through the agency in Boston.

Much indignation is expressed in Munich papers because the state did not interfere with the sale to a lumberman of the largest linden tree in Batavia.

In Salt Lake City, Utah, a number of street cars are being provided with letter mailing boxes. These cars will stop at certain points and letters placed in the boxes are removed by messengers in time to catch the mails.

A Florida man has purchased 300 acres of swamp land near Swan Bridge, and will turn it into a breeding place for alligators. These reptiles are becoming scarce, owing to the activity of northern hunters, and, as there is a steady demand for alligator skins, the speculator hopes to do well.

It will cost 62 cents per swear if you swear in Portland, a little town below the Water Gap, says a Stroudsburg (Pa.) correspondent in the Philadelphia Record. Swearing has become so obnoxious to some of the inhabitants that they have determined to enforce the old law against profanity.

Chickens are now plucked in a wholesale manner by the use of pneumatic machinery. There is a receptacle in which the bird is placed after being killed, and into this are turned several cross currents of air from electrical fans revolving at the rate of 5,000 turns per minute. In the twinkling of an eye the bird is stripped of its feathers, even to the tiniest particle of down, and the machine is ready for another.

FEMININE FINERY.

Pretty Details of the Costumes That Are Now in Vogue Among Good Dressers.

In the Russian blouse that has just come in as the ideal of 1901 there is no pouch at all—only a fullness, says a fashion authority.

Drap de Kar is new material for shirt waists. It is a soft woolen, something like a very fine cashmere, and comes in various lovely shades.

Many of the new sleeves are gathered across at the top in such a way that the fullness does not stand up, but is allowed to flatten itself against the top of the arm.

The new Swiss muslins show a great variety in polka dots in color and rather large in sizes, in the white grounds or in black on various tinted grounds.

The new fur boas are long and finished with an abundance of tails that reach to the knees.

Chiffon, net and gauze with narrow bands of silk stitched in at intervals make very pretty vests. One row of embroidered polka dots down the center of the bands is an effective addition.

A low-crowned sailor hat made of taffeta silk or velvet, and trimmed with a bunch of roses or pompons at one side, is considered the chic headgear for young women to wear in the morning.

Triumphs of Mechanical Genius.

In 1831 Matthias Baldwin built the first American locomotive with his own hands, and it took him a year to do it. Nowadays if one man were compelled to perform the total labor of a single day in the Baldwin locomotive works it would take him just 20 years. In this he would need the help of modern tools. If he had not these tools the day's work would mean his lifetime.—Industrial Journal.
