LITERARY NOTES.

THE OUTLOOK.

Among the full-page portraits of distinguished men of the day contained in the Magazine Number of THE OUTLOOK for August (the fourteenth annual Educational Number) are those of Governor Taft of the Philippines, the late John Fiske, Henryk Sienkiewicz (from a painting by a Polish artist), President Hadley of Yale University, President Draper of the Illinois State University, President Wheeler of the University of California, President Northrop of the University of Minnesota, President Remsen of the Johns Hopkins University, and President Gilman, late of the Johns Hopkins University. (\$3 a year. THE OUTLOOK COMPANY, 287 Fourth Avenue, New York.)

THE COSMOPOLITAN.

THE Cosmopolitan for August reveals the late Grant Allen in a new light—that of a keen and clever satirist of modern society, not only in England, but in the world at large. The Cosmopolitan, immediately on his death, secured from his son all his papers, and the clever allegory—"The Temple of Fate"—in the August number, is one of those selected. Like "The British Aristocracy" in the April Cosmopolitan, the present article impresses itself on the reader with a direct fearlessness which is a new quality in the author's work. If it is true that all the world loves a lover, then Edgar Saltus's clever, epigrammatic story of the princes who have relinquished thrones, position, wealth—everything—to marry the woman they loved, should indeed be popular.

THE WOMAN'S HOME COMPANION.

CLIFTON JOHNSON, whose travel-sketches and artistic photographs have made him one of the most valued of magazine contributors, has written for the September *Woman's Home Companion* the story of his visit to "A School on the Irish Bog-Lands." It is in an out-of-the-way corner of the world, and the description is very fresh and charming.

REVIEW OF REVIEWS.

ENTOMOLOGIST Howard, of the United States Department of Agriculture, contributes to the *Review of Reviews* for August a valuable article on "Mosquitoes as Transmitters of Disease." In the course of this article Dr. Howard describes the remarkable experiments conducted under the direction of the War Department by Dr. Reed in Cuba, which have demonstrated beyond question the part played by the mosquito in transmitting yellow-fever germs.

LADIES' HOME JOURNAL.

EVERY reader of Ernest Seton Thompson's graphic animal stories retains a deep impression of the author's profound mastery of wood-lore. The wonder is how he accumulated such a never failing fund of it. Some interesting information about how he lives in camp and works "in the open" is given in an illustrated article. "With Seton Thompson in the Woods," which *The Ladies' Home Journal* will soon publish.

SCRIBNER'S.

JESSE LYNCH WILLIAMS, who has written for *Scribner's* a number of articles about aspects of New York City, describes "Rural New York City," showing how one may go shooting and fishing; see Chinese farmers at work; visit a typical country store; and get lost in the woods, all within the city limits. The illustrations for these unusual phases are by such artists as Child, Glackens, Shinn, and McCarter.

RETROPOLITAN MAGAZINE.

BEGINNING with the August number *The Magazine* will be reduced in price from twenty-five to fifteen cents per copy, and many new features will be added.

Each number of this remarkably successful periodical will hereafter contain, besides many illustrated articles of timely interest, at least six short stories by famous American authors. The new *Metropolitan* will be exceptionally strong in fiction, and each story will be illustrated by a well-known American artist.

The tone of *The Metropolitan* has always been one of decided patriotic principles. "An American Magazine for the American People" has

been its slogan, and nothing has been or will be admitted to its lavishly illustrated pages that is not in accord with the spirit of our country and the best that is in it.

So the Pilgrim says he will not be a candidate for Sheriff. As he has promised Chas. Sampsell and Kohler Peek to have them nominated and elected, it will be interesting to note which way he will flop. This is due notice to Geo. Shindle, John Brosius and others who would not be willing to refuse the nomination for prothonotary, that a wide swath will be cut by the Asp for the clerkship of the courts.

THE Centre County Republican Convention had a stormy time of it last week. The leaders on both sides failed to kiss and make up.

To know what newspaper space to buy and how to fill and use that space is of greater importance to the advertiser than the price of the space. If all business were conducted on business principles, there would be no need to argue about the advantage of advertising, for every business man knows that advertising is one of the most important of the principles which makes success for business.

HOWARD G. FREDERICK of Millersburg presented to the Town Council Monday evening a proposition to erect a system of water works. He proposes to put in 18 plugs for the use of the borough at an annual rental of \$250 for fire purposes, to erect the plant and allow the people of Middleburg to take the bonds, if they wish them. Whether the council accepts or rejects the proposition, it establishes one point beyond a doubt, that the discount on insurance will pay the water tax. A discount of about ten per cent.

will be allowed on three-year insurance and twenty per cent. on yearly insurance. The saving of insurance on a private residence will pay the water tax on that property. The saving of insurance on a business place and business will run from two, three or even four times as much as the water tax will be. One and two-thirds mills will pay the water rate. This makes it a business proposition, even if we got nothing in return. But we are getting something for our money and even if it were to cost more than the saving of the insurance, we should have it. If the council would rather give it to a home company, and the home company is willing to do as well, that would be the thing to do, but the home company should get down to business and make their proposition. We need water works and the town is in favor of having them.

A Minister's Good Work.

"I had a severe attack of bilious colic, got a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, took two doses and was entirely cured," says Rev. A. A. Power, of Emporia, Kan. "My neighbor across the street was sick for over a week, had two or three bottles of medicine from the doctor. He used to tell me for three or four days without relief, called in another doctor who treated him for some days and gave him no relief, so discharged him. I went over to him the next morning. He said his bowels were in a terrible flux, that they had been running off so long that it was almost bloody flux. I asked him if he had tried Chamberlain's Colic, Cholera and Diarrhoea Remedy and he said, 'No.' I went home and brought him my bottle and gave him one dose; told him to take another dose in fifteen or twenty minutes if he did not find relief, but he took no more and was entirely cured." Made his own Gallows.

Ten thousand persons saw Jim Anderson, a negro, hanged at Little Rock, Ark., last Friday.

Among the spectators was young Lemoyne Jayne, a son of Porter Jayne, a carpenter. After the execution the lad inspected the scaffold, and Wednesday completed a miniature scaffold. He invited his playmates to take the role of the condemned man. Falling in this he sought to take the place of the executioner as well as the person condemned.

He adjusted the noose and stepped on the trap. He had figured that he had enough rope to reach the ground. The sight of his body dangling in mid-air caused his playmates to spread the alarm, and neighbors reached the scene in time to cut the body down before the lad was strangled to death. His neck was not broken, but he is unconscious and doctors give no hope for recovery.

For this and the scene enacted, Governor Davis has made known his intention to recommend the immediate repeal of the act which permits the public to witness hangings.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
