DUNDORE.

Difficulties are things that show what men are.

Winter apples should not be too ripe to keep well, better gather them now as they command a good price.

Joel Shafer and family are comfortably housed in the Union Township poor house.

Henry F. Neitz is an inmate of the Penns Township poor house.

Potatoes are a money crop this Howell several days. year for our farmers as they sell freely at fifty cents per bushel.

There is a strong demand for a county poor house as our present system is expensive, and the costs of nearly all suits about paupers are put on the county, and frequently such suits are brought about by ill disposed people that use a pauper for revenge, ss in the case of Neitz against our overseers where the county paid \$72 costs.

The public schools of our town-ship are well attended and the results are commendable.

Our farmers have nearly all finished seeding and this mild weather is favorable for the young plant to get ready for winter quarters.

George Campbell has improved considerable and is sitting up now. Henry L. Witmer took a load of choice potatoes to market.

H. F. Blessing is highly elated over the victory of our overseers but Harry, Dick and Tom are down on the lip.

Our township was well represented at court last week. In Union is strength.

Mrs. H. H. Reichenbach is on the sick list.

If our grand jury were better informed there would not be so many costs put on the county.

# IS IT A PARTY

OF DESTRUCTION?

Wanamaker Has So Declared the Republican Party to Be, Says Congressman Burk.

Congressman Henry Burk, who is well-known manufacturer and active Republican, created something of a sensation a few nights ago at a Republican meeting in Philadelphia, by a speech, in which, among other things,

of John Wanamaker with this so- in the casting of the ballots under the called Union party, and you have present system. seen how the Wanamaker paper has villified, scolded and abused the mayor will carefully weigh the arguments pro of this city. Two years ago I was invited to attend a meeting of the Young Republican Club, the object of which was to form an association to secure the Republican national convention for this city. Ex-Mayor Stuart asked me to preside at the meeting, and I was elected chairman of a Business Men's Republican Convention Association. It was decided to raise \$100,000 for a convention fund, and I started out to arrange for raising the money. Now, who do you suppose were the first two men I called on? They were Mayor Ashbridge and John Wanamaker. I first called on Mayor Ashbridge, to whom I introduced myself, and after stating my errand he cor dially indorsed the matter and said: 'All right, Mr. Burk. I am at your service. I'll do anything you want me to do in the matter. Mr. Scott has told you how he went te Washing- yet it is not strange when we remem-ton and worked with the committee her that Mr. Roosevelt would not now

to successfully land the convention." "I then called on John Wanamaker I explained to him the obest of the association, told him how the business men were becoming interested in the matter of bringing the national Republican convention to loyal Philadelphia. To my utter surprise, Mr. Wans maker jumped out of his chair, raised his hands and excitedly said: Burk, the Republican party is the party of destruction, and I'll have nothing to him, I have never before mentioned this publicly."

Continuing, Mr. Burk said: "Is the party of William McKinley the party of destruction? John Wanamaker meant the national Republican partythe party of William McKinley.

"I believe that John Wanamaker be lieves to-day that the Republican par ty is the party of destruction. But you do not, and I do not. We believe that the mission of the Republic a party is to maintain the law and wipe out the party of anarchy and all its sympathizers and supporters."

The Kind You Have Always Bought

Voters of Pennsylvania Opposed to a Tremendous Speculators' Job.

BIG SCHEME OF POLITICIANS

Proposed Amendment to the Constitution Would Mean An Expenditure of Over a Million and a Haif of Dollars.

At the coming election citizens of Pennsylvania will be called upon to vote "yes" or "no" upon two proposed amendments to the constitution. One of these provides for personal registration of voters in certain thickly settled communities and is apparently not being approved by the leaders of one of the political parties. Organization men have no reason to oppose such an innovation. The independent or indifferent voter is usually the most difficult to get to the polls. Now, if he has to go twice for each election, once when he is to be registered and again to vote he will be apt to be of less annoyance to the party man, Republican or Democrat, as the case may be.

AN UNPOPULAR SCHEME.

The other proposed amendment is to permit of the introduction of voting machines in this state.

Little attention has been paid by the people to this matter it would appear. ly working a game to have this amendment adopted. They have visions of a great prospective financial gains through the introduction of this innovation.

Samples of these machines were shown at Harrisburg during the last session of the legislature, when the promoters of the scheme had a strong lobby on "the Hill," working in their interest among the members of both

It was then estimated that the cost of each machine would be about \$235. and that as there are about 7,000 voting precincts in Pennsylvania the total cost for the mere introduction of the machines would be over a million and a half dollars. This would not be counting the cost of repairs and maintenance and storage between elections. The machines are very intricate pieces of mechanism and would require first class machinists to keep them in order. Should one of them get out of order on election day the whole scheme of election in that precinct would fail.

A BIG GRAB FOR POLITICIANS. Another argument against the use of voting machines is that it is conceded that no machine can make men honest who are otherwise disposed.

The arrangement of the machine for which this fight is being made requires the voter to touch buttons which record the names of the candidates for whom the citizen desires to vote. It is pointed out that there would be nothing to prevent dishonest men to permit impersonation of voters in this "push the button" scheme any more than there "You have heard of the connection is to allow men to impersonate others

It is quite probable that the people and con in this matter of the introduction of the machines before they ultimately decide to advocate the expenditure of a million and a half dol-

lars upon an experimental proposition. Republicans do not want their party to be saddled with the responsibility of expending over a million and a half dollars to introduce a machine in which a combination of selfish men are so deeply and personally interested, and which would not give satisfaction to the people.

# Quay Meets the President.

"What is this the Washington disnatches tell us-Senator Quay actually called upon the President, was really received with cordiality and urgently invited to stay to dinner?" asks the Wilkesbarre Leader. How awful! -from an insurgent standpoint. And yet it is not strange when we remembe President had not Mr. Quay insisted upon making him vice president. Why shouldn't he be cordially received at the White House and urged to dine with the President? But the news grates harshly upon insurgent ears, nevertheless. And Platt was there, too, just the day before."

The Union Party's Make-up. "The so-called Union party," says the Philadelphia Inquirer, "is comdo with it.' Out of consideration for posed of a curious mixture. There are Democrate the Gordon and Me-Clure stripe professional reformers, and followers of Wanamakerism."
