Deafness Cannot be Cured

by local applications they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Where the Difference Lies.

"You speculate occasionally, I believe?"
 "No; I regret to say that I gamble in stocks."
 "What's the difference?"
 "Why, it's speculation when I win, and it's gambling when some other fellow gets the best of it. I thought everybody knew that."—Chicago Post.

An Up-to-Date Bishop.

A Methodist critic, wishing to put his bishop "in a hole," or as Dr. William Everett would say, "to deposit him in a cavity," asked in an open meeting whether or not the bishop came to the conference in a Pullman car. "Yes," the bishop cheerfully replied; "do you know any easier way?"—Boston Christian Register.
