### Where He Drew the Line.

He was a hungry caddy with a healthy appetite, and he made it a point never to be too particular about his food. He took a seat in a coffee-shop one day and ordered a large plate of "staters and sausages." He had about half finished the meal when he espied a piece of wood protruding from the remains of his sausage. "Hi, waiter!" he cried. "Look-a-her! I don't mind eating the dawg, but I ain't a-going to eat the kennel, that's strite!"—Tit-Bits.

### Deafness Cannot be Cured

by local applications they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

### EVERY PATRIOTIC AMERICAN SHOULD VOTE THE FULL REPUBLICAN TICKET ON TUESDAY NEXT, NOVEMBER 5.

### PENNSYLVANIA WILL STAND BY ROOSEVELT

### A Republican Victory Assured at Next Tuesday's State Election.

### A MESSAGE TO THE WORLD

The Keystone State Will Herald That She is Still Loyal to the Flag, the National Administration and the Party of Patriotism, Protection and Prosperity.

(Special Correspondence.)

Philadelphia, Oct. 29.—The closing days of the campaign in the state find the Republican leaders confident of a sweeping victory in Pennsylvania.

This confidence is based upon the belief that the Republican committeemen will leave nothing undone to get every stalwart Republican voter to the polls. It is natural that in what is known as an "off year" there would be apathy among the voters but the Republican leaders hold that at this election there is an issue which should appeal to every patriotic citizen.

It is known that President Roosevelt is deeply interested in the progress of the political contests in the several states and that his supporters throughout the country are exceedingly anxious that the returns shall show sweeping Republican victories in New York, Pennsylvania, Ohio, Massachusetts, Maryland and other states in which there are exciting contests now under way.

**EYES ON PENNSYLVANIA.**

The eyes of the world have been upon the American people since the terrible assassination of President McKinley. There has been much speculation as to the extent to which the anarchistic sentiment has spread and in the far off Philippines, the natives have been influenced by the reports they have received misrepresenting the condition of affairs in this country as the outcome of the killing of the President.

The news of the assassination had scarcely reached the Philippines than there was found to be increased activity among the insurgents. The attack upon the brave soldiers of the Ninth regiment followed and many were killed in ambush.

Democratic victories at the coming election would be heralded as uprisings of the people against the "government," and it is hard to calculate the extent of the dangers that would come to the soldiers of the United States now in the Philippines as the result of such reports spreading among the natives.

**GOOD MAJORITY PREDICTED.**

Republican Pennsylvania, it is predicted, will give to President Roosevelt a vote of confidence and support such as will leave no doubt of the attitude of the patriotic citizens of this commonwealth towards the national administration and the Republican party.

Governor Stone, who has been in the different sections of the state, predicts that Pennsylvania will give more than her normal Republican majority in off years, and that there will not be responsible, but the fact remains that the administration of the present state treasurer has been so business-like and vigorous that he can proclaim to the people of Pennsylvania that out of 2,500 common school districts in the

Republican sentiment will further incite these insurgents to increased activity.

### SCHOOL MONEY PAID.

### Never in History of the State Were Payments Made so Promptly.

**A MOST MAGNIFICENT SHOWING**

Republican Leaders Point With Pride to the Early Settlements in the Various School Districts and the Record of State Treasurer Barnett.

The remarkable condition of the state treasury and the promptness with which the school funds are being paid under the administration of the present Republican state treasurer, has hampered the Union party managers and the Democracy in their political campaigning.

They have been unable to attack the conduct of the present state treasurer, Colonel James E. Barnett, and an investigation into the management of his office has shown that he is entitled to praise of the highest character. He has given close attention to every detail of his administration and has extended a general invitation to all citizens who wish to learn about the condition of the state finances to visit his office and he will submit for inspection all or any of the books or papers that may be in his possession.

**CONDITION OF THE TREASURY.**

United States Senator Penrose, in commenting upon the matter of state finances last week said:

"Last week I had occasion to refer in a speech in Philadelphia to the remarkable exhibit made by the state treasury of Pennsylvania. I showed that the state of Pennsylvania had never lost a dollar by reason of malfeasance or mismanagement in the whole history of the state; that the state was practically out of debt, owing the indistinguishable sum of \$250,000; that the state of Pennsylvania had a more generous provision for public education by far than any of the states, appropriating over 64 per cent. of all the revenues for educational purposes; and

state but 52 are not paid in full. Of these 52 districts which have not been paid in full five have received nothing as yet. Seven have been paid in part, and 40 are held because certain reports and affidavits required by law have not been filed.

### SCHOOL ACCOUNTS SETTLED.

"At this time it will be observed there are but 12 in shape to receive payment in full. Doubtless since my last information from Harrisburg the state treasurer has settled with all the school districts that are ready with their accounts, except two—Pittsburg and Philadelphia—which have been paid in part. The whole school account will this year be settled with the school districts more promptly and at an earlier date than ever before in the history of the state.

"While in past years the state treasurer has had frequent calls from school boards claiming that their collector was slow about collecting taxes and requesting an advance on their appropriation, this year the state treasurer's payments have been so prompt that he has been obliged to turn the tables completely and ask the school districts to file their reports in order that a warrant may be issued for the amount due them.

"The cashier of the state treasury has actually been obliged to send notices to various school districts which have failed to file the necessary affidavit and certificate before a warrant can be issued asking that the law be complied with, as he is anxious to complete the payment of the appropriation to the common schools of the commonwealth without delay.

"The state treasury of Pennsylvania under a Republican administration is certainly entitled to a full recognition on the part of the public of this splendid exhibit of payment of the school appropriation."

that the payments had been made to the school districts up to the present time more promptly and rapidly than ever before in the history of the state.

"I desire again to call attention to this remarkable showing of the school appropriation, because in past years the state treasurer has been bitterly assailed by reason of delays and mistakes occurring in the settlement of school appropriations to the various districts.

"These delays have been caused by the slow action of the state treasurer in settling with the school districts, and by the tardy action of the school boards in filing their reports and affidavits at a particular moment, are mysteries which they probably never will solve.

"This case must be added to those upon record as the most extraordinary one of the kind, and the owner may properly be designated as having not only an elastic, but a TEN OR TWELVE YEARS' CONSCIENCE.
